Louis XIV France And Europe 1661 1715:

Louis XIV, France and Europe, 1661-1715 Richard Wilkinson, 1993 While synthesizing and passing on to students the results of recent research this book also emphasizes the fascination and controversy of Louis XIV's reign and its effect on his European neighbours The issues influencing Louis's absolute rule and the extent to which he had real options are examined

Louis the Fourteenth Richard Wilkinson, 2007 This book balances the undeniable cultural achievements of the reign against the realities of Louis's egotism and argues that when viewed critically Louis's rule 1643-1715 personified the disadvantages of absolute monarchy and inexorably led to social and political blunders resulting in the suffering of millions Richard Wilkinson demonstrates that while Louis excelled as a self-publicist he fell far short of being a great monarch **BOOK JACKET**

Louis XIV Outside In Tony Claydon, Charles-Édouard Levillain, 2016-04-22 Louis XIV the Sun King casts a long shadow over the history of seventeenth and eighteenth century Europe Yet while he has been the subject of numerous works much of the scholarship remains firmly rooted within national frameworks and traditions Thus in France Louis is still chiefly remembered for the splendid baroque culture his reign ushered in and his political achievements in wielding together a strong centralised French state whereas in England the Netherlands and other protestant states his memory is that of an aggressive military tyrant and persecutor of non Catholics In order to try to break free of such parochial strictures this volume builds upon the approach of scholars such as Ragnhild Hatton who have attempted to situate Louis's legacy within broader pan European context But where Hatton focused primarily on geo-political themes Louis XIV Outside In introduces current interests in cultural history integrating aspects of artistic literary and musical themes In particular it examines the formulation and use of images of Louis XIV abroad concentrating on Louis's neighbours in north west Europe This broad geographical coverage demonstrates how images of Louis XIV were moulded by the polemical needs of people far from Versailles and distorted from any French originals by the particular political and cultural circumstances of diverse nations Because the French regime's ability to control the public image of its leader was very limited the collection highlights how at least in the sphere of public presentation his power was frequently denied subverted or appropriated to very different purposes questioning the limits of his absolutism which has also been such a feature of recent work

Louis XIV Outside In Tony Claydon, Charles-Édouard Levillain, 2015-12-01 Louis XIV Outside In introduces current interests in cultural history integrating aspects of artistic literary and musical themes In particular it examines the formulation and use of images of Louis XIV abroad concentrating on Louis's neighbours in North West Europe This broad geographical coverage demonstrates how images of Louis XIV were moulded by the polemical needs of people far from Versailles and distorted from any French originals by the particular political and cultural circumstances of diverse nations

From Louis XIV to Napoleon Professor Jeremy Black, Jeremy Black, 2013-04-03 Much of the period 1661 1815 appeared to be the age of France France was the greatest power in Western Europe in the late seventeenth and eighteenth centuries and Louis XIV and Napoleon seemed to dominate their periods yet when Louis XIV died in 1715 and again after Napoleon s attempt to resume power was defeated at Waterloo a century later France appeared as a waning power This failure in Europe was matched on the world scale France was overtaken by Britain in the struggle for maritime predominance and ended the period with her empire in ruins From Louis XIV to Napoleon is a scholarly yet accessible account which considers why France was not more successful and throws light on French history international relations warfare and the rise and fall of French power *Warfare in Europe 1650-1792* Jeremy Black, 2017-11-22 Scholars have tended to underrate the importance of war in the period 1650 1792 as there is a feeling that periods before and after were more consequential for military development This collection of essays sets out to address this problem probing the nature of warfare throughout Europe from the middle of the seventeenth century to the end of the eighteenth **"The" Cambridge Modern History** Sir Adolphus William Ward, George Walter Prothero, Stanley Mordaunt Leathes, 1908 The Cambridge Modern History , 1908
