Triumph of the Optimists Elroy Dimson, Paul Marsh, Mike Staunton, 2009-04-11 Brilliant Time By far the most important investment book in years Bloomberg Money A book that belongs on every investor s bookshelf MSN com An essential and

authoritative account of a century of investment returns in sixteen countries the U S the U K Japan France Germany Canada Italy Spain Switzerland Australia the Netherlands Sweden Belgium Ireland Denmark and South Africa Investors have too often extrapolated from recent experience In the 1950s who but the most rampant optimist would have dreamt that over the next fifty years the real return on equities would be 9% per year Yet this is what happened in the U S stock market The optimists triumphed However as Don Marquis observed an optimist is someone who never had much experience In Triumph of the Optimists renowned investment authorities Elroy Dimson Paul Marsh and Mike Staunton extend our experience across regions and across time They present a comprehensive and consistent analysis of investment returns for equities bonds bills currencies and inflation spanning sixteen countries from the end of the nineteenth century to the beginning of the twenty first This is achieved in a clear and simple way with over 130 color diagrams that make comparison easy Crucially the authors analyze total returns including reinvested income They show that some historical indexes overstate long term performance because they are contaminated by survivorship bias and that long term stock returns are in most countries seriously overestimated due to a focus on periods that with hindsight are known to have been successful The book also provides the first comprehensive evidence on the long term equity risk premium the reward for bearing the risk of common stocks The authors reveal whether the United States and United Kingdom have had unusually high stock market returns compared to other countries The book covers the U S the U K Japan France Germany Canada Italy Spain Switzerland Australia the Netherlands Sweden Belgium Ireland Denmark and South Africa Triumph of the Optimists is required reading for investment professionals financial economists and investors It will be the definitive reference in the field and consulted for years to come
