Davies, J. Quinn, 2016-02-05 Ethics and Empowerment is a major contribution to the ongoing debate about the role of business in society People expect more meaning and empowerment at work at a time when competitive pressures are seducing business into taking ethical short cuts How is this to be reconciled Through a thorough examination of the issues of power control and autonomy addressing such questions as empowerment being a matter of justice through case study based examinations of the organisational experiences of empowerment programmes and through looking at the ethics and empowerment debate from the wider perspective of business and social responsibility this book seeks to make ethics more relevant and accessible to today's business world      **Consumer Protection and Online Auction Platforms** Christine Riefa, 2016-03-03 Online auctions have undergone many transformations and continue to attract millions of customers worldwide However these popular platforms remain understudied by legal scholars and misunderstood by legislators This book explores the legal classification of online auction sites across a range of countries in Europe Including empirical studies conducted on 28 online auction websites in the UK the research focusses on the protection of consumers economic rights and highlights the shortcomings that the law struggles to control With examinations into important developments including the Consumer Rights Directive and the latest case law from the CJEU on the liability of intermediaries Riefa anticipates changes in the law and points out further changes that are needed to create a safe legal environment for consumers whilst preserving the varied business model adopted by online auction sites The study provides insights into how technical measures as well as a tighter legislative framework or enforcement pattern could provide consumers with better protection in turn reinforcing trust and ultimately benefiting the online auction platforms themselves      *The Law Librarian*, 1996      *Cyber Consumer Law and Unfair Trading Practices* Cristina Coteanu, 2017-03-02 Of great interest to practitioners policymakers and academics as well

as to consumers and traders in general this timely work addresses all important legal and practical issues that arise in connection with online trading This important work outlines the existing legislation and legal jurisprudence in the EU and the US and exposes the potential for unfair commercial practices to arise from online contracts electronic agents disclosure of information online advertising and online dispute resolution in cross border transactions The continuing prevalence of unfair commercial practices will ensure this book remains in great demand     Consumer Theories of Harm Paolo Siciliani,Christine Riefa,Harriet Gamper,2019-09-19 It has long been thought that fairness in European Consumer Law would be achieved by relying on information as a remedy and expecting the average consumer to keep businesses in check by voting with their feet This monograph argues that the way consumer law operates today promises a lot but does not deliver enough It struggles to avoid harm being caused to consumers and it struggles to repair the harm after the event To achieve fairness solutions need to be found elsewhere Consumer Theories of Harm offers an alternative model to assess where and how consumer detriment may occur and solutions to prevent it It shows that a more confident use of economic theory will allow practitioners to demonstrate how a poor standard of professional diligence lies at the heart of consumer harm The book provides both theoretical and practical examples of how to combine existing law with economic theory to improve case outcomes The book shows how public enforcers can move beyond the dominant transparency paradigm to an approach where firms have a positive duty to treat consumers fairly and shape their commercial offers in a way that prevents consumers from making mistakes Over time this fairness by design approach will emerge as the only acceptable way to compete
