Griffing BANCROFT,1932 **Lower California** Griffing Bancroft,1932 The Unnatural History of the Sea Callum Roberts,2007-07-14 Humanity can make short work of the oceans creatures In 1741 hungry explorers discovered herds of Steller s sea cow in the Bering Strait and in less than thirty years the amiable beast had been harpooned into extinction It s a classic story but a key fact is often omitted Bering Island was the last redoubt of a species that had been decimated by hunting and habitat loss years before the explorers set sail As Callum M Roberts reveals in *The Unnatural History of the Sea* the oceans bounty didn t disappear overnight While today s fishing industry is ruthlessly efficient intense exploitation began not in the modern era or even with the dawn of industrialization but in the eleventh century in medieval Europe Roberts explores this long and colorful history of commercial fishing taking readers around the world and through the centuries to witness the transformation of the seas Drawing on firsthand accounts of early explorers pirates merchants fishers and travelers the book recreates the oceans of the past waters teeming with whales sea lions sea otters turtles and giant fish The abundance of marine life described by fifteenth century seafarers is almost unimaginable today but Roberts both brings it alive and artfully traces its depletion Collapsing fisheries he shows are simply the latest chapter in a long history of unfettered commercialization of the seas The story does not end with an empty ocean Instead Roberts describes how we might restore the splendor and prosperity of the seas through smarter management of our resources and some simple restraint From the coasts of Florida to New Zealand marine reserves have fostered spectacular recovery of plants and animals to levels not seen in a century They prove that history need not repeat itself we can leave the oceans richer than we found them **American Colonization Ventures in Lower California, 1862-1917** Ruth Elizabeth Kearney,1944

arc of this ill fated expedition in fine detail Gerry Max artfully unpacks the tensions between Halliburton and his captain John Wenlock Welch owing much to Welch s homophobia and Halliburton s unconcealed homosexuality And while Max naturally explores the trials and tribulations of preparing constructing and finally launching the Sea Dragon he also punctuates the story with the invasion of China by the Japanese as Halliburton and his letters home reveal an excellent wartime reporter Max mines these documents many of which have only recently come to light as well as additional letters from Halliburton and his crew to family and friends photographs films and tape recordings to paint an intricate portrait of Halliburton s final expedition from inception to tragic end
