Ludwig Feuerbach And The Outcome Of Classical Germ:

Ludwig Feuerbach and the Outcome of Classical German Philosophy Friedrich Engels, 1941 Hegel's Century Jon Stewart, 2021-10-28 The remarkable lectures that Hegel gave in Berlin in the 1820s generated an exciting intellectual atmosphere which lasted for decades From the 1830s many students flocked to Berlin to study with people who had studied with Hegel and both his original students such as Feuerbach and Bauer and later arrivals including Kierkegaard Engels Bakunin and Marx evolved into leading nineteenth century thinkers Jon Stewart's panoramic study of Hegel's deep influence upon the nineteenth century in turn reveals what that century contributed to the wider history of philosophy It shows how Hegel's notions of alienation and recognition became the central motifs for the era's thinking how these concepts spilled over into other fields like religion politics literature and drama and how they created a cultural phenomenon so rich and pervasive that it can truly be called Hegel's century This book is required reading for historians of ideas as well as of philosophy

Marcuse's aesthetics including defamiliarization, anti-art, and habit. In particular, he focuses on the centrality of defamiliarization, a subversion of common sense that can be a means to the development of what Marcuse refers to as radical sensibility. Leonard brings forward Marcuse's claim that the aesthetic dimension is political because of its refusal to operate according to the repressive common sense that establishes and maintains relationships dictated by advanced capitalism. For Marcuse, defamiliarization is at the center of the aesthetic dimension, offering the direct means of stimulating its political potential. Leonard expands upon Marcuse's aesthetics by drawing on the work of Sylvia Wynter, going beyond Marcuse's predominantly European and patrilineal intellectual framework while still retaining his aesthetic theory's fundamental characteristics toward a human dimension requiring decolonial, feminist, antiracist, and counterpoetic perspectives.

18th and 19th Century German Philosophy Frederick Charles Copleston, 2003-01-01 Copleston, an Oxford Jesuit and specialist in the history of philosophy, first created his history as an introduction for Catholic ecclesiastical seminaries. However, since its first publication, the last volume appearing in the mid 1970s, the series has become the classic account for all philosophy scholars and students. The 11-volume series gives an accessible account of each philosopher's work but also explains their relationship to the work of other philosophers.

History of Philosophy Frederick Charles Copleston, 1963 Challenges the complexities of German philosophy in the wake of post-Kantian idealism in the nineteenth century.

Christianity and Western Thought Steve Wilkens, Alan G. Padgett, 2010-07-29 In this second of three volumes which survey the dynamic interplay of Christianity and Western thought from the earliest centuries through the twentieth century, Steve Wilkens and Alan Padgett tell the story of the monumental changes of the nineteenth century.

Herbert Marcuse Malcolm Miles, 2011-12-05 When capitalism is clearly catastrophically out of control and its excesses cannot be sustained socially or ecologically, the ideas of Herbert Marcuse become as relevant as they were in the 1960s. This is the first English introduction to Marcuse to be published for decades and deals specifically with his aesthetic theories and their relation to a critical theory of society. Although Marcuse is best known as a critic of consumer society epitomised in the classic *One Dimensional Man*, Malcolm Miles provides an insight into how Marcuse's aesthetic theories evolved within his broader attitudes from his anxiety at the rise of fascism in the 1930s through heady optimism of the 1960s to acceptance in the 1970s that radical art becomes an invaluable progressive force when political change has become deadlocked. Marcuse's aesthetics of liberation, in which art assumes a primary role in interrupting the operation of capitalism, made him a key figure for the student movement in the 1960s. As diverse forms of resistance rise once more, a new generation of students, scholars, and activists will find Marcuse's radical theory essential to their struggle.

German Idealism and the Problem of Knowledge: Nectarios G. Limnatis, 2008-10-14 The problem of knowledge in German Idealism has drawn increasing attention. This is the first attempt at a systematic critique that covers all four major figures: Kant, Fichte, Schelling, and Hegel. The book offers a fresh and challenging analysis.

Marxism and the Chinese Experience Arif Dirlik,Maurice Meisner,2016-09-16 These essays consider the implications for Chinese socialism of the repudiation of the

Cultural Revolution and the legacy of Mao Zedong as well as the meaning of the new definition and direction Mao's successors have given socialism. The themes have been selected for conceptual coherence within a socialist problematic of social change. Representing anthropology, art history, economics, history, literature and politics, various inquiries point in a twofold direction: the meaning of socialism for China and the meaning of Chinese Socialism for socialism as a global phenomenon, meaning not in some abstract sense but rather as it is constituted in the process of political ideological activity which articulates and defines social relationships within China as well as China's relationship to the world. **Without End**

William S. Allen, 2017-12-28. The reputation of the Marquis de Sade is well founded. The experience of reading his works is demanding to an extreme. Violence and sexuality appear on almost every page and these descriptions are interspersed with extended discourses on materialism, atheism and crime. In this bold and rigorous study, William S. Allen sets out the context and implications of Sade's writings in order to explain their lasting challenge to thought. For what is apparent from a close examination of his works is the breadth of his readings in contemporary science and philosophy and so the question that has to be addressed is why Sade pursued these interests by way of erotica of the most violent kind. Allen shows that Sade's interests lead to a form of writing that seeks to bring about a new mode of experience that is engaged in exploring the limits of sensibility through their material actualization. In common with other Enlightenment thinkers, Sade is concerned with the place of reason in the world, a place that becomes utterly transformed by a materialism of endless excess. This concern underlies his interest in crime and sexuality and thereby puts him in the closest proximity to thinkers like Kant and Diderot but also at the furthest extreme in that it indicates how far the nature and status of reason is perverted. It is precisely this materialist critique of reason that is developed and demonstrated in his works and which their reading makes persistently excessively apparent. *Marxism, Mysticism and Modern Theory*

Suke Wolton, 2016-07-27. Fashionable new theories tend to reject universal reason in favour of pluralism and locality. Marxism, Mysticism and Modern Theory examines some of these theories and argues that they are the mystified expression of the current political and economic impasse. Today's relativistic outlook reveals a minimalist and atomized viewpoint, a retreat from the goal of rational understanding. Marxism, Mysticism and Modern Theory sets out in this critique the case for developing a new humanism to extend rationality.
