Make Me A Memory:

Escape from Memory Margaret Peterson Haddix, 2010-05-11 Well I m sure I don t have any secrets I said trying to sound certain Can t we just tell them that Mom s steady gaze was driving me crazy Oh she said slowly but that s where you re wrong You see you do have the secrets You know them When Kira agrees to let her friends hypnotize her at a slumber party she has no idea that she will reveal secrets even she didn t know she had memories of fleeing a war torn country with her mother understanding a language she can t identify Then her mother disappears and a woman calling herself Aunt Memory takes Kira to Crythe a place that doesn t officially exist in order to rescue her mother or so Kira thinks She soon learns that there are memories locked in her mind that place her and her mother in grave danger but those memories are also the only thing that might save them In Escape from Memory award winning author Margaret Peterson Haddix imagines a culture that values its memories above everything else and a teen who has to make the most important decision of her life **The**

The idea that our memories in some sense make us who we are is a common one and not at all implausible After all what could make us who we are if not the things we have experienced thought felt and desired on these idiosyncratic pathways through space and time that we call lives And how can we retain these experiences thoughts feelings and desires if not through memory On the other hand most of what we have experienced has been forgotten And there is now a considerable body of evidence that suggests that even when we think we remember our memories are likely to be distorted sometimes beyond recognition Imagine writing your autobiography only to find that that most of it has been redacted and much of the rest substantially rewritten What would hold this book together What would make it the unified and coherent account of a life The answer Mark Rowlands argues lies partially hidden in a largely unrecognized form of memory Rilkean memory A Rilkean memory is produced when the content of a memory is lost but the act of remembering endures in a new mutated form a mood a feeling or a behavioral disposition Rilkean memories play a significant role in holding the self together in the face of the poverty and inaccuracy of the contents of memory But Rilkean memories are important not just because of what they are but

also because of what they were before they became such memories Acts of remembering sculpt the contents of memories out of the slabs of remembered episodes Our acts of remembering ensure that we are in the content of each of our memories present in the way a sculptor is present in his creation even when this content is lamentably sparse and endemically inaccurate

perfect memory Dominic O'Brien, In Loving Memory Diana Monique Soriano, 2022-11-21 This book is a reflection on finding my soul mate at a young age and then losing him to the war in Afghanistan It will describe my relationship with Bobby Pagan our deployment to Afghanistan being notified that he was killed in action the healing process and a snippet of how life has been after his loss My book will deliver a clear insight on what it is like to lose a loved one to war the events that took place after the casualty report was received and the journey through healing as I have lived on without my significant other This book will depict some very painful memories but will also entail a beautiful love story that unfortunately had a tragic end When my fiance was killed in action I went through the motions but I was numb and in utter shock When I was finally ready to accept and face my loss I felt so alone because people felt uncomfortable discussing the topic I want to take my readers on my journey through my eyes have them feel the raw emotions that I felt throughout the process and show them what I went through I also want to shed light on my experience of grief and mourning I want people who have lost a loved one to know that they are not alone and that there is no time limit on grieving If that concept alone can bring some sort of comfort to someone then I d have accomplished my mission in sharing my story I pray that this book somehow touches the heart of others especially those who have experienced a loss like I have There are no words that can ever make it any better but know that you are not alone
