the AIDS epidemic transformed the LGBT landscape A Family Outing is a memoir about discovering gay great uncles and learning about their lives It is about operating spotlights at a drag queen show and about marching in Pride Parades It is about the discrimination that gay people continue to face today and what emerges from the direct clear eyed prose Finally it is the picture of a woman who endured taunts from religious fundamentalists and political protestors to become an LGBT advocate Challenging the School Readiness Agenda in Early Childhood Education Miriam B. Tager,2017-03-27

Challenging the normative paradigm that school readiness is a positive and necessary objective for all young children this book asserts that the concept is a deficit based practice that fosters the continuation of discriminatory classifications Tager draws on findings of a qualitative study to reveal how the neoliberal agenda of school reform based on high stakes testing sorts and labels children as non ready affecting their overall schooling careers Tager reflects critically on the relationship between race and school readiness showing how the resulting exclusionary measures perpetuate the marginalization of low income Black children from an early age Disrupting expected notions of readiness is imperative to ending practices of structural classism and racism in early childhood education **Family Secrets** Deborah Cohen,2013-03-27 We live today in a culture of full disclosure where tell all memoirs top the best seller lists transparency is lauded and privacy seems imperiled But how did we get here Exploring scores of previously sealed records Family Secrets offers a sweeping account of how shame and the relationship between secrecy and openness has changed over the last two centuries in Britain Deborah Cohen uses detailed sketches of individual families as the basis for comparing different sorts of social stigma She takes readers inside an Edinburgh town house where a genteel maiden frets with her brother over their niece s downy upper lip a darkening shadow that might betray the girl s Eurasian heritage to a Liverpool railway platform where a heartbroken mother hands over her eight year old illegitimate son for adoption to a town in the Cotswolds where a queer vicar brings to his bank vault a diary sewed up in calico wrapped in parchment that chronicles his sexual longings Cohen explores what families in the past chose to keep secret and why She excavates the tangled history of privacy and secrecy to explain why privacy is now viewed as a hallowed right while secrets are condemned as destructive In delving into the dynamics of shame and guilt Family Secrets explores the part that families so often regarded as the agents of repression have played in the transformation of social mores from the Victorian era to the present day Written with compassion and keen insight this is a bold new argument about the sea changes that took place behind closed doors
