Make Us Happy:

Make Us Happy Arthur Herzog, 2003-01-30 A thousand years in the future society is run by computers with not a gesture or activity unnoticed by their all seeing detectors Spacescrapers three miles high 1 000 stories 1 000 people per floor house 1 000 000 people The divorce rate having climbed to 100 percent the computers have made marriage almost illegal but adultery compulsory with a resultant zero divorce rate In this setting Bil and Alce meet marry and their sense of history whetted by a few old books and photos decide to rebel They set out to find the central computer bank and pull the plug Captured and imprisoned on a Floating Island where the computers put criminals to get their just desserts Bil and Alce escape Their odyssey is gripping suspense and wonderful entertainment with an ingenious depiction of man vs machine

Can Virtue Make Us Happy? Otfried Hoffe, 2010-03-17 In *Can Virtue Make Us Happy* The Art of Living and Morality Otfried Hoffe one of Europe's best known philosophers offers a far reaching and foundational work in philosophical ethics Hoffe uses clear accessible language to present common understandings of happiness and freedom while illuminating the blind alleys in the history of philosophy What has priority good ends or right action Is freedom always anarchy Is it possible to think of a freedom enhanced by morality Is morality merely a euphemism for stupidity Does humanity have a good or a bad character Is there such a thing as evil Hoffe offers no simple formulas but provides enlightened philosophical reflection to fuel the reader's own examination of these questions Book Jacket *Making Choices...That Make You Happy!* J. Hardesty, 2015-04-25 Learn to find the happiness that is natural to you and enjoy better relationships better health more success and a longer life The peculiar thing about us humans is we spend a lot of time working to find people and things that will make us happy In fact we seem to spend the majority of our time doing this However there is no guarantee that any of this effort will work There are lots of people who have hordes of people around them and who have lots of things but have been unable to make themselves happy The truth is happiness can be had with little effort Have you ever been happy for no reason at all Of course you have Without anything changing in life happiness just appears We see it in young children all the time In fact we expect

to see it in children If you happen to ask a smiling child why he or she is so happy at best the answer may be Because For an adult this may be an unsatisfying answer but for the child it is the truth happiness exists just because As we age we seem to lose touch with happiness for no reason at all We see a world where everyone is striving for stuff striving for popularity striving striving striving The natural fount of happiness we once enjoyed disappears as we join them However that happiness is not gone All that happened is we lost our connection to it This book is about recovering that connection We all grow up believing that if we work hard and if we are good people we will enjoy good relationships with others good health success and a long life Obviously this is not true There are a lot of rich old people who are not happy What we have what we do and the other circumstances of our lives do not provide authentic happiness Instead happiness comes from inside of us and all by itself enables us to have secure relationships good health more success and longer lives So what is the secret of being happy Being happy is a little like flipping a switch When it s on you are happy and when it s off you are not It s so easy How else can you explain being happy for no reason What you need to do is learn to turn it on and keep it turned on This book discusses seven practices that help you do that There is a lot of wisdom available about how to be happy Most of it is thousands of years old but some is quite new The seven practices we will look at incorporate this wisdom to help you learn how to turn on happiness in your life This kind of happiness does not require changing anything in your life All you have to do is learn to turn it on
