Making Aids For Disabled Living:

Making Aids for Disabled Living Stuart E. Grainger, 1981 Programs for the Handicapped, 1982 **Handmade Helps for Disabled Living** Stuart E. Grainger, 1990 How to make various items useful to handicapped persons **Journal of Rehabilitation Research and Development**, 1983 The Health and Social Needs of Young Adults with Physical Disabilities Andrew Thomas, Martin Bax, Diane Smyth, 1989 This book addresses a topic that has received surprisingly little attention to date the health and social needs of young adults with physical disabilities Following an extensive review of the contemporary literature on the subject the authors report an in depth study on a large sample of physically disabled 18 to 25 year olds living in two survey areas one urban and one semirural The study which included pediatric examinations and interviews by a social psychologist found that a large proportion of subjects face social and medical problems for instance They have serious health needs that are not being met by the statutory services they left school with less than adequate skills to enable them to lead an independent adult life they are without a daytime occupation or attend day centers that are described as unstimulating places they do not receive all the financial benefits to which they are entitled they are isolated from their peers and lack the social skills to interact with others in a positive and successful way Parents and guardians were also found to receive little physical or emotional support These findings underline the need for a better system of providing and coordinating services for this client group and the authors call for the formation within each local health authority area of an Adult Disability Service that would have a clinical and planning role in terms of health care and that would act as a linchpin in the coordination of health educational social and voluntary services Although this work relates specifically to service provision in the United Kingdom it is felt that the conclusions and recommendations are also broadly applicable to the situation in other countries Disability Studies and the Inclusive Classroom Susan Baglieri, 2012-05-04 This book's mission is to integrate knowledge and practice from the fields of disability studies and special education Parts I II focus on the broad foundational topics that comprise disability studies culture language and history and Parts III IV move into practical topics curriculum co teaching collaboration classroom organization disability specific teaching strategies etc associated with inclusive education This organization conforms to the belief that least restrictive environments the goal of inclusive education necessarily emerges from least restrictive attitudes the goal of disability studies Discussions throughout the book attempt to illustrate the intersection of theory and practice *Journal of Rehabilitation Research & Development*, 1983 **Equipment for Older Or Disabled People and the Law** Michael Mandelstam, 1997 This comprehensive book explains the provision both law and practice of equipment and home adaptations to assist older or disabled people in daily living Characterised by ill defined statutory responsibilities and terminology and an under developed consumer retail market the system of provision has long been recognised as chaotic and confusing for professionals and public alike This is despite the fact that equipment and adaptations are meant to be a central plank of community care Necessarily wide ranging but maintaining its focus the

book aims critically to describe the system and thereby promote better practice By exploring boundaries and breaking points it will assist people to understand the law when things go wrong from negligence to judicial review and from contract to product safety legislation The range of items covered is great from alarms to artificial limbs baths to bedrooms chopping boards to crutches electronic toothbrushes to environmental controls hearing aids to hoists incontinence pads to ironing equipment rails to ramps speech aids to stairlifts and walking frames to wheelchairs **Cultural Issues in End-of-Life Decision Making** Kathryn L. Braun,James H. Pietsch,Patricia L. Blanchette,2000 Questions that face dying individuals their families and the professionals that help them at the end of their lives are explored in this volume The contributors help the reader to come to terms with issues of mortality complicated by the diversity of cultures within society *We are Not Alone* Sefra Pitzele,1986-01-01 Explains the problems faced by victims of chronic illnesses gives practical advice on coping and discusses sexuality diet exercise and adaptive living devices
