The Immanence of the Infinite Elizabeth Brient,2002 Most scholars would agree that there is an epochal threshold between the world of the Middle Ages and the modern world Agreement on the nature and dynamic structure of that threshold is harder to come by Hans Blumenberg s original and compelling account of the transition from medieval to modern given in his 1966 work *The Legitimacy of the Modern Age* has received wide attention Elizabeth Brient begins her own account of the transition with an extensive critical assessment of central aspects of Blumenberg s work She elucidates his dialogical method of historical explanation then discusses the shortcomings of his defense of the legitimacy of modernity The transition to the modern world is marked by the process of making infinite the finite medieval cosmos Whereas Blumenberg focused on the spatial infinitization of the universe Brient claims that the process must be understood intensively as well as extensively In the now infinite universe of the new science the problem of finding a measure for man s self assertive activity and for human knowledge comes to the fore The second half of the book focuses on the way in which this difficulty is addressed with conceptual resources developed in the tradition of late medieval Neoplatonism in particular in the speculative thought of Meister Eckart and Nicholas of Cusa Specific attention is given to the way in which Cusanus notion of the immanence of the infinite in the finite responds to the need for a regulative ideal for human knowing This is the first book length treatment of Blumenberg to appear in English and will be a most welcome resource for readers engaged by debates concerning the status of modernity It will be of equal interest to students of Eckhart and Cusanus and to those

generally concerned with the transition between the medieval and the modern world ABOUT THE AUTHOR Elizabeth Brient is Assistant Professor of philosophy at The University of Georgia PRAISE FOR THE BOOK Blumenberg could not have wished for a more reverent critique of his achievements or a more exacting textual exegesis regarding the sources of their philosophical content all written in a lucid style that is forthright in the defense of the depth of thought during the Middle Ages but also pleasing in its subtle irony with respect to Blumenberg s and the author s own metaphysical creed Walter F Veit Speculum Brient s analysis of Blumenberg s philosophy sheds significant light in the debate concerning modernity Albrecht Classen University of Arizona German Studies Review The Making of Buddhist Modernism David L.

McMahan,2008-11-14 A great deal of Buddhist literature and scholarly writing about Buddhism of the past 150 years reflects and indeed constructs a historically unique modern Buddhism even while purporting to represent ancient tradition timeless teaching or the essentials of Buddhism This literature Asian as well as Western weaves together the strands of different traditions to create a novel hybrid that brings Buddhism into alignment with many of the ideologies and sensibilities of the post Enlightenment West In this book David McMahan charts the development of this Buddhist modernism McMahan examines and analyzes a wide range of popular and scholarly writings produced by Buddhists around the globe He focuses on ideological and imaginative encounters between Buddhism and modernity for example in the realms of science mythology literature art psychology and religious pluralism He shows how certain themes cut across cultural and geographical contexts and how this form of Buddhism has been created by multiple agents in a variety of times and places His position is critical but empathetic while he presents Buddhist modernism as a construction of numerous parties with varying interests he does not reduce it to a mistake a misrepresentation or fabrication Rather he presents it as a complex historical process constituted by a variety of responses sometimes trivial often profound to some of the most important concerns of the modern era
