Making Enemies War And State Building In Burma:

Making Enemies Mary Patricia Callahan, 2003 The Burmese army took political power in Burma in 1962 and has ruled the country ever since The persistence of this government even in the face of long term nonviolent opposition led by activist Aung San Suu Kyi who was awarded the Nobel Peace Prize in 1991 has puzzled scholars In a book relevant to current debates about democratization Mary P Callahan seeks to explain the extraordinary durability of the Burmese military regime In her view the origins of army rule are to be found in the relationship between war and state formation Burma s colonial past had seen a large imbalance between the military and civil sectors That imbalance was accentuated soon after formal independence by one of the earliest and most persistent covert Cold War conflicts involving CIA funded Kuomintang incursions across the Burmese border into the People s Republic of China Because this raised concerns in Rangoon about the possibility of a showdown with Communist China the Burmese Army received even more autonomy and funding to protect the integrity of the new nation state The military transformed itself during the late 1940s and the 1950s from a group of anticolonial guerrilla bands into the professional force that seized power in 1962 The army edged out all other state and social institutions in the competition for national power *Making Enemies* draws upon Callahan s interviews with former military officers and her archival work in Burmese libraries and halls of power Callahan s unparalleled access allows her to correct existing explanations of Burmese authoritarianism and to supply new information about the coups of 1958 and 1962

North Korea and Myanmar Andray Abrahamian, 2018-02-12 North Korea and Myanmar Burma are Asia s most mysterious tragic stories For decades they were infamous as the region s most militarized and repressed societies self isolated and under sanctions by the international community while from Singapore to Japan the rest of Asia saw historic wealth creation and growing middle class security For Burma the threat was internal insurgent factions clashed with the government and each other For North Korea it was external a hostile superpower the United States and a far more successful rival state South Korea occupying half of the Korean peninsula Over time Myanmar defeated its enemies giving it space to explore a form of democratization and openness that has led to reintegration into international society Meanwhile North Korea s regime believes its nuclear arsenal the primary reason for their pariah status is vital to
