

The Portrait of a lady

The story The Portrait of the Lady by Khushwant Singh revolves around the story of the author and his relationship with his grandmother. The author's mother was a deeply religious woman who was very kind hearted. She epitomised purity and peace of mind which is very well written as an expanse of pure white serenity. Though she wasn't beautiful physically, she possessed deep spiritual beauty. She took great delight in feeding birds and animals.

The story begins with the narrator describing how old his grandmother was. **The thought of the author's old grandmother being young and pretty, in early years of her life, raised a conflict in the mind of the author.** Her hair was white as snow and she had a little stoop in her back.

When Singh was a child and his parents were away he was brought up by his grandmother who used to wake him up and get him ready for school. While performing this daily chore, she used to sing prayers which she wanted him to learn by heart but in vain. She would walk with him to and from his school. On their way back, they would throw chappatis to the village dogs.

When his parents settled in the city Singh went to stay in the city with her. This was a turning point in the relationship he shared with her. He disliked many things taught in the school. She could no longer help him with his lessons. A small gap had developed between them which wasn't very prominent. She didn't accompany him to school any long.

With the passage of time ,Singh went to the university with which ended the last string of attachment which held them together. His grandmother started spending more time on the spinning wheel. This shows the author's grandmother's passive submission to her secluded life. She surrendered to her situation of separation from her family members, especially the author. She became friendly to the sparrows and fed them little pieces of bread. The birds in turn loved her company and would sit on her shoulders and even on her head.

Next came a phase when Singh decided to go to abroad to study for five years. He contemplated on his grandmother not being alive till the time he came back. However, she went to receive him in the station when he was

Vickery, 2009-05-15 Traditional English poetic elegists offer both writers and readers hope After lamenting an individual's death and confronting the mortality of all living things these poets seek consolation from religion philosophy or culture for the inevitability of death The modern prose elegy however follows a different path one that determinedly questions all possible resolutions In *The Prose Elegy* John B Vickery continues the work he began in *The Modern Elegiac Temper* which examined the form in British and American poetry He now considers the works of American and British fiction writers from Henry James to Joan Didion and reveals how the elegy expanded into prose and why it evolved so as to deal not only with

death but also with other forms of loss Focusing on individual works Vickery explores both the forms the elegy takes throughout the twentieth century and the skeptical and uncertain attitudes of writers struggling to confront the trauma of loss He offers detailed interpretations of the elegiac components in the works of novelists James Joyce William Faulkner Virginia Woolf and Ernest Hemingway each of whom forged a distinctive style as well as chroniclers of a pervasive stoicism such as Malcolm Lowry and Joan Didion and writers as nuanced as Sherwood Anderson F Scott Fitzgerald James Agee and Ford Madox Ford For these writers Vickery shows sorrow intrudes upon the personal intellectual and cultural aspects of daily living By exploring how loss touches each of these areas their books probe intellectual boundaries and discover new elegiac themes Truman Capote and John Updike for example view memory which can disappear quickly as inherently sad They therefore elegize memory What consoles writers of the modern elegy changes too In place of Milton's religion or Shelley's philosophy twentieth century writers also seek comfort from what also saddens them family marriage and ideas of the self In *The Prose Elegy* Vickery convincingly demonstrates that the elegy remains a dominant mode throughout British and American literature with perhaps greater pertinence to our lives than ever before
