New Face Of War By:

The New Face of War Bruce D. Berkowitz, 2010-05-11 As American and coalition troops fight the first battles of this new century from Afghanistan to Yemen to the Philippines to Iraq they do so in ways never before seen Until recently information war was but one piece of a puzzle more than a sideshow in war but far less than the sum total of the game Today however we find information war revolutionizing combat from top to bottom Gone are the advantages of fortified positions nothing is impregnable any longer Gone is the reason to create an overwhelming mass of troops now troop concentrations merely present easier targets Instead stealth swarming and zapping precision strikes on individuals or equipment are the order of the day based on superior information and lightning fast decision making In many ways modern warfare is information warfare Bruce Berkowitz's explanation of how information war revolutionized combat and what it means for our soldiers could not be better timed As Western forces wage war against terrorists and their supporters in actions large and small on several continents The New Face of War explains how they fight and how they will win or lose There are four key dynamics to the new warfare asymmetric threats in which even the strongest armies may suffer from at least one Achilles heel information technology competition in which advantages in computers and communications are crucial the race of decision cycles in which the first opponent to process and react to information effectively is almost certain to win and network organization in which fluid arrays of combat forces can spontaneously organize in multiple ways to fight any given opponent at any time America's use of networked elite ground forces in combination with precision guided bombing from manned and unmanned flyers turned Afghanistan from a Soviet graveyard into a lopsided field of American victory Yet we are not invulnerable and the same technology that we used in Kuwait in 1991 is now available to anyone with a credit card and access to the Internet Al Qaeda is adept in the new model of war and has searched long and hard for weaknesses in our defenses Will we be able to stay ahead of its thinking In Iraq Saddam's army is in no position to defeat its enemies but could it defend Baghdad As the world anxiously considers these and other questions of modern war Bruce Berkowitz offers many answers and a framework for understanding combat that will never again resemble the days of massive marches on fortress like positions The New Face of War is a crucial guidebook for reading the headlines from across our troubled planet

Military Review, 1966 *The Ultimate Protest* Ray E. Boomhower, 2024-03-15 The Ultimate Protest Malcolm W Browne Thich Quang Duc and the News Photograph That Stunned the World examines how the most unlikely of war correspondents Malcolm W Browne became the only Western reporter to capture Buddhist monk Thich Quang Duc's horrific self immolation on June 11 1963 Quang Duc made his ultimate sacrifice to protest the perceived anti Buddhist policies of the Catholic dominated administration of South Vietnam's president Ngo Dinh Diem Biographer Ray E Boomhower's The Ultimate Protest explores the background of the Buddhist crisis in South Vietnam in the spring of 1963 that led to Quang Duc's self sacrifice as well as the worldwide reaction to Browne's photograph how it affected American policy toward Diem's government and

the role the image played in the violent coup on November 1 1963 that deposed Diem and led to his assassination The book also delves into the dynamics involved in covering the Vietnam War in the early days of the American presence and the pressures placed on the journalists to stop raising doubts about how the war was going Browne and his colleague David Halberstam shared the 1964 Pulitzer Prize for international reporting for their work in Vietnam **Armor** ,1964

Rethinking the Nature of War Isabelle Duyvesteyn,Jan Angstrom,2005 Have globalization virulent ethnic differences and globally operating insurgents fundamentally changed the nature of war in the last decade Interpretations of war as driven by politics and state rationale formulated most importantly by the 19th century practitioner Carl von Clausewitz have received strong criticism Political explanations have been said to fall short in explaining conflicts in the Balkans Africa Asia and the attacks of 11 September 2001 in the United States This book re evaluates these criticisms not only by scrutinising Clausewitz s arguments and their applicability but also by a careful reading of the criticism itself In doing so it presents empirical evidence on the basis of several case studies addressing various aspects of modern war such as the actors conduct and purposes of war **The New Face of Political Cinema** Martin O'Shaughnessy,2008-01-01 Since 1995 there has been a widespread return of commitment to French cinema taking it to a level unmatched since the heady days following 1968 But this new wave of political film is very different and urgently calls out for an analysis that will account for its development its formal characteristics and its originality This is what this book provides It engages with leading directors such as Cantet Tavernier Dumont Kassovitz Zonca and Gu diguian takes in a range of less well known but important figures and strays across the Belgian border to engage with the seminal work of the Dardenne brothers It shows how the works discussed are helping to reinvent political cinema by finding stylistic and narrative strategies adequate to the contemporary context

Eisenhower's New-Look National Security Policy, 1953-61 S. Dockrill,1996-05-21 The New Look sought to formulate a more selective and flexible response to Communist challenges The New Look was not simply a bigger bang for a buck nor merely a device for achieving a balanced budget nor did it amount solely to a strategy of massive retaliation as is commonly assumed Dr Dockrill s incisive revisionist analysis of the subject throws new light on US ambitious global strategy during the Eisenhower years Vietnam Michael Lind,2013-07-30 Michael Lind casts new light on one of the most contentious episodes in American history in this controversial bestseller In this groundbreaking reinterpretation of America s most disastrous and controversial war Michael Lind demolishes enduring myths and put the Vietnam War in its proper context as part of the global conflict between the Soviet Union and the United States Lind reveals the deep cultural divisions within the United States that made the Cold War consensus so fragile and explains how and why American public support for the war in Indochina declined Even more stunning is his provocative argument that the United States failed in Vietnam because the military establishment did not adapt to the demands of what before 1968 had been largely a guerrilla war In an era when the United States so often finds itself embroiled in prolonged and difficult conflicts Lind offers a sobering cautionary tale to
