Pant, 2019-03-21 India's foreign policy has witnessed a dramatic transformation since the end of the Cold War Though academic study of Indian foreign policy has also shown a degree of maturity theoretical developments have been underwhelming Scholars have introduced new concepts and examined Indian foreign policy through new prisms but a cohesive research agenda has not yet been charted This volume intends to fill that void It brings together new cutting edge research in the field of Indian foreign policy both at the theoretical and empirical level so as to shape the discourse on foreign policy of one of the most important players in global politics This volume explores key concepts like constructivism and territoriality and analyses their contribution to the academic discourse on Indian foreign policy Issues such as the Indo Pacific and the responsibility to protect have also been examined to address the expanding horizons of Indian foreign policy *Foreign Policy* Steve Smith, Amelia Hadfield, Timothy Dunne, 2012-06-21 Foreign Policy is unique in that it combines theories actors and cases in one volume This approach encourages the reader to appreciate a balanced view of the theory and how foreign policy is carried out in the real world

New Directions in US Foreign Policy Inderjeet Parmar, Linda B. Miller, Mark Ledwidge, 2009-06-19 This text is a state of the art overview of US foreign policy The book provides a comprehensive account of the latest theoretical perspectives the key actors and issues and new policy directions ***New Directions in the Study of Foreign Policy*** Charles F. Hermann, Charles W. Kegley, James N. Rosenau, 1987-01 ***Encyclopedia of Policy Studies, Second Edition*** Stuart Nagel, 2020-08-18 This entirely updated and enlarged Second Edition of a landmark reference text continues to provide comprehensive coverage of every important aspect of policy studies discussing concepts methods utilization formation and implementation both internationally and across each level of government *Australia-China Relations post 1949* Yi Wang, 2016-04-08 This book challenges the common perceptions of Australian dependence upon great power allies in the

conduct of its foreign relations through a critical examination of Australia's relations with the People's Republic of China. The author focuses on the economic and political dimensions of the policy making process from the founding of the PRC in 1949 to the present era against an analytical framework that takes into account both internal and external factors in the formulation and implementation of Australian foreign policy. Informed by political science and international relations, the book differs from the conventional literature on Sino-Australian relations which has either focused on pure economic analysis or concentrated on chronicling historical events. The author weaves theoretical insights from political science and international relations into the historical analysis while seeking to examine the interplay between political and economic factors over time in shaping policy outcomes. The book draws not only on primary and secondary sources but also on information and insights obtained from interviews with a vast array of direct participants in the policy process including almost all the former ambassadors from both China and Australia covering the entire period of the diplomatic relationship. As a result, the book breaks new ground especially from the Hawke era onwards, revealing hitherto overlooked details of interest in the policy process.
