The Materiality of Color Andrea Feese,2017-07-05 Although much has been written on the aesthetic value of color there are other values that adhere to it with economic and social values among them Through case studies of particular colors and colored objects this volume demonstrates just how complex the history of color is by focusing on the diverse social and cultural meanings of color the trouble pain and suffering behind the production and application of these colors the difficult technical processes for making and applying color and the intricacy of commercial exchanges and knowledge transfers as commodities and techniques moved from one region to another By emphasizing color's materiality the way in which it was produced exchanged and used by artisans artists and craftspeople contributors draw attention to the disjuncture between the beauty of color and the blood sweat and tears that went into its production circulation and application as well as to the complicated and varied social meanings attached to color within specific historical and social contexts This book captures color's global history with chapters on indigo plantations in India and the American South cochineal production in colonial Oaxaca the taste for brightly colored Chinese objects in Europe and

the thriving trade in vermilion between Europeans and Native Americans To underscore the complexity of the technical knowledge behind color production there are chapters on the discovery of Prussian blue Brazilian feather techn and wallpaper production To sound the depths of color s capacity for social and cultural meaning making there are chapters that explore the significance of black ink in Shakespeare s sonnets red threads in women s needlework samplers blues in Mayan sacred statuary and greens and yellows in colored glass bracelets that were traded across the Arabian desert in the late Middle Ages The purpose of this book is to recover color s complex and sometimes morally troubling past and in doing so

Coloring Locals Bonnie James Shaker,2003 Coloring Locals examines how the late nineteenth century politics of gender class race and ethnicity influenced Kate Chopin s writing for the major family periodical of her time Chopin s canonical status as a feminist rebel and reformer conflicts with the fact that one of her most supportive publishers throughout her life was the Youth s Companion a juvenile periodical whose thoroughly orthodox family values contributed to its success as the longest running and at one time most widely circulating periodical in nineteenth century America Not surprisingly Chopin s Youth s Companion stories differ from her canonical texts in that they embrace and advance ideals of orthodox white femininity and masculinity Rather than viewing these two representations as being at odds with each other Bonnie Shaker asserts that Chopin s endorsement of conventional gender norms is done in the service of a second political agenda beyond her feminism one that can help the reader appreciate nuances of identity construction previously misunderstood or overlooked in the body of her work Shaker articulates this second agenda as the discursive act of coloring locals the narrative construction of racial difference for Louisiana peoples of African American Native American and French American ancestry For Chopin coloring locals meant transforming non Louisianans general understanding of the Creole and Cajun as mixed race people into purely white folks this designation of whiteness being one that conferred not only social preferment but also political protections and enfranchisement in one of the most racially violent decades of U S history Thus when Chopin is concerned with coloring her beloved Louisiana Creoles and Cajuns white she strategically deploys conventional femininity for the benefits it affords as a sign of middle class respectability and belonging Making significant contributions both to the scholarship on Kate Chopin and on race and gender construction this sophisticated study will be of great interest to scholars and students of nineteenth century ethnic and cultural studies as well as Chopin scholars **Catalog of Copyright Entries** Library of Congress.

Copyright Office,1952 **New England Stationer and Printer** ,1899 *Colors* ,2006 Architecture in Detail *Colors* examines how color plays a role in even the most upscale architectural designs The series itself examines the role of details in contemporary architecture through the work of many emerging and established practitioners whose projects speak sensitively and energetically on a small scale Color is just another one of those details architects use to put their own
