New History Of Identity A Sociology Of Medical Knowledge:

A New History of Identity David E. Armstrong, 2002-09-06 Medical texts provide a powerful means of accessing contemporary perceptions of illness and through them assumptions about the nature of the body and identity By mapping these perceptions from their 19th century focus on illness located in a biological body through to their discovery of the psycho social patient of the late 20th century a history of identity both physical and psychological is revealed

A New History of Identity D. Armstrong, 2002-03-15 Medical texts provide a powerful means of accessing contemporary perceptions of illness and through them assumptions about the nature of the body and identity By mapping these perceptions from their nineteenth century focus on illness located in a biological body through to their discovery of the psycho social patient of the late twentieth century a history of identity both physical and psychological is revealed

Handbook of the Sociology of Health, Illness, and Healing Bernice A. Pescosolido, Jack K. Martin, Jane D. McLeod, Anne Rogers, 2010-12-17 The Handbook of the Sociology of Health Illness Healing advances the understanding of medical sociology by identifying the most important contemporary challenges to the field and suggesting directions for future inquiry The editors provide a blueprint for guiding research and teaching agendas for the first quarter of the 21st century In a series of essays this volume offers a systematic view of the critical questions that face our understanding of the role of social forces in health illness and healing It also provides an overall theoretical framework and asks medical sociologists to consider the implications of taking on new directions and approaches Such issues may include the importance of multiple levels of influences the utility of dynamic life course approaches the role of culture the impact of social networks the importance of fundamental causes approaches and the influences of state structures and policy making

Exploring Language through Contrast Tomasz Fojt, Waldemar Skrzypczak, Sławomir Waciewicz, 2012-11-30 The volume portrays a panorama of recent linguistic research in Poland in terms of comparison and juxtaposition as driving forces in an attempt to grasp descriptive and explanatory aspects of linguistic use and organization The spectrum of contributions spans all the levels of language The constellation of methodological perspectives juxtaposes the generative theory and recent developments in cognitive linguistics synchronic and diachronic perspectives and a measure of freedom has also been allocated to a more traditional structurally oriented and or eclectic spirit The notions of comparison and contrast have become the major force and the common denominator for all contributions in the service of explicating the central and the focal from what appears nebulous A well documented discussion on horizontal bonds between phonological primes and a refreshing new attempt to handle the phonology of Old English i umlaut are complemented with equally illuminating topics in derivational morphology such as grinding diminutives suffix distributional preferences and compound nouns In a similar fashion drawing upon the fundamental phenomenon of dynamic alternating processes syntactic topics focus on such problems as grammatical constructions with locatum verbs the status of English NPN forms and a new typology of Old English verbs Cognitively grounded phenomena are handled with

equal zest and range across the vast territory of backstage cognition from the slip of the tongue through novelty of meaning achieved through collocation construction environment to a discussion on the emergence of metaphorical senses in Old English lexical concepts for fire and light This stage inevitably leads us to further juxtapositions championed in the volume embracing subjectification and objectification in viewing arrangement as well as dynamically anchored viewing impositions of the self of the textual narrator The contributions dealing with levels of discourse aspire to bring us closer to goals and norms in politeness and co operation strategies and also to an in depth analysis of stylistic features based on corpora The coda falls onto normative linguistics and thus closes the territory of contrast and juxtaposition It provides an insight into how a reflective thespian and a devoted linguist differ in viewing language without compromising the status and validity of their respective stances

Exchanging Human Bodily Material: Rethinking Bodies and Markets Klaus Hoeyer, 2013-01-05 This book addresses the debate usually tagged as being about markets in human body parts which is antagonistically divided into pro market and anti market positions The author provides a set of propositions about how to approach this and shows a way out of the concrete impasse of it Assumptions about markets and bodies that characterize this debate are analyzed and described while the author argues that these assumptions are in fact constitutive for exchanges of human bodily material but in unacknowledged ways It is concluded that what we need is a different analytical approach to better understand the mechanisms at play when organizations exchange organs tissues and cells for use in transplantation and fertility medicine

Humanizing Healthcare Reforms Gerald A. Arbuckle, Maria Theresa Ho, 2012-10-01 This book looks at the current turmoil facing contemporary healthcare systems worldwide which has resulted from relentless reorganization being imposed upon them and argues for a return to a values based approach to healthcare Writing from the unique and fresh perspective of social anthropology the author takes a highly logical approach to practice and emphasizes the importance of values such as compassion solidarity and social justice He stipulates that without being able to clearly identify the values and goals that unite its members healthcare organizations are unlikely to be able to meet the demands of the constant and varied pressures they face and explains how individuals at every level in healthcare can contribute to positive change within their organizations This much needed and highly accessible book will be essential reading for anyone interested in healthcare reform from clinicians and nurses to managers and policy makers as well as the interested reader

Unraveling Matthew J. Wolf-Meyer, 2020-10-20 Developing a cybernetic model of subjectivity and personhood that honors disability experiences to reconceptualize the category of the human Twentieth century neuroscience fixed the brain as the basis of consciousness the self identity individuality even life itself obscuring the fundamental relationships between bodies and the worlds that they inhabit In *Unraveling* Matthew J Wolf Meyer draws on narratives of family and individual experiences with neurological disorders paired with texts by neuroscientists and psychiatrists to decenter the brain and expose the ableist biases in the dominant thinking about personhood *Unraveling* articulates a novel cybernetic theory of subjectivity in which the nervous

system is connected to the world it inhabits rather than being walled off inside the body moving beyond neuroscientific symbolic and materialist approaches to the self to focus instead on such concepts as animation modularity and facilitation It does so through close readings of memoirs by individuals who lost their hearing or developed trauma induced aphasia as well as family members of people diagnosed as autistic texts that rethink modes of subjectivity through experiences with communication caregiving and the demands of everyday life Arguing for a radical antinormative bioethics Unraveling shifts the discourse on neurological disorders from such value laden concepts as quality of life to develop an inclusive model of personhood that honors disability experiences and reconceptualizes the category of the human in all of its social technological and environmental contexts *Infant Mortality: A Continuing Social Problem* Eilidh Garrett,Chris Galley,Nicola Shelton,Robert Woods,2018-02-06 In 1906 Sir George Newman s *Infant Mortality A Social Problem* one of the most important health studies of the twentieth century was published To commemorate this anniversary this volume brings together an interdisciplinary team of leading academics to evaluate Newman s critical contribution to review current understandings of the history of infant and early childhood mortality especially in Britain and to discuss modern approaches to infant health as a continuing social problem The volume argues that even after 100 years of health programmes scientific advances and medical interventions early childhood mortality is still a significant social problem and it also proposes new ways of defining and tracking the problem of persistent mortality differentials **Health, Culture and Society** Elizabeth Ettorre,Ellen Annandale,Vanessa M. Hildebrand,Ana Porroche-Escudero,Barbara Katz Rothman,2017-07-19 This book traces the history of formative enduring concepts foundational in the development of the health disciplines It explores existing literature and subsequent contested applications Feminist legacies are discussed with a clear message that early sociological and anthropological theories and debates remain valuable to scholars today Chapters cover historical events and cultural practices from the standpoint of difference formulate theories about the emergence of social issues and problems and discuss health and illness in light of cultural values and practices social conditions embodiment and emotions This collection will be of great value to scholars of biomedicine health and gender *The Human Experience* Elizabeth DePoy,2007 The Human Experience examines analyzes and applies theories of humans environments and human environment interaction to professional thinking and action The authors highlight tacit values and assumptions that underlie theory generation and application to professional practice and challenge the reader to answer two questions how do we know and what do we do with our knowledge Significant critical emphasis is devoted to diversity of humans and environments and the value perimeter in which professionals think and act
