James Thomson's Defence of Poetry Stefanie Lethbridge, 2003 This study presents a contextual and intertextual reading of James Thomson's 1700 1748 poem The Seasons taking into consideration some of the presuppositions and habitus of the text's cultural community and the function of the poem's many intertextual allusions Contemporary assumptions about processes of perception reading and the practice of virtue call for an approach to the poem that takes literary pre texts into account An intertextual reading reveals The Seasons though heterogeneous on its surface as coherent in its cultural functionality It aims to train readers into virtuous habits and asserts the powers of poetic discourse as a culturally relevant force especially in relation to the discourse of natural philosophy With the emergence of natural philosophy as a cultural activity of considerable market value poetry had to legitimise itself as a culturally relevant pursuit An analysis of the poem's intertext in particular allusions to Virgil Ovid and Milton but also to genre conventions such as pastoral romance sermon and panegyric uncovers textual strategies that attempt to re legitimise poetry on the one hand by transposing scientific method into a poetic environment On the other hand the text demonstrates using its intertext that poetry has powers which reach beyond the rational and empirical agenda of natural philosophy and that poetry has a distinctive cultural function as a provider of vision insight and moral knowledge Diese Studie legt eine historisch kontextualisierte Interpretation von James Thomson's 1700 1748 Gedicht The Seasons vor die Pr suppositionen und Habitus zeitgen ssischer Leserschaft sowie die Funktion seiner zahlreichen intertextuellen

Anspielungen mit einbezieht Diese Lesart erhellt The Seasons als einen trotz heterogener Textoberfläche in seiner kulturellen Funktionalität kohärenten Text Die Analyse des Intertexts deckt Textstrategien auf die den dichterischen Diskurs insbesondere in Relation zum neu privilegierten Diskurs der Naturphilosophie als kulturell relevante Kraft relegitimieren
