Real Godfathers:

Godfathers Roberto Olla, 2012-10-18 **Asian Godfathers** Joe Studwell, 2008-09-23 The author of *How Asia Works* follows the money Alarming enlightening Joe Studwell should be named chief myth buster for Asian business Financial Times Hong Kong and Southeast Asia are home to five hundred million people yet their economies are dominated by only fifty families whose interests range from banking to real estate shipping to sugar gambling to lumber At their peak eight of the world's two dozen richest men were Southeast Asian but their names would not be familiar to most regular readers of The Wall Street Journal A complex mythology surrounds these billionaires but in *Asian Godfathers* Joe Studwell finds that the facts are even more remarkable than the myths Studwell has spent fifteen years as a reporter in the region and he marshals his unprecedented sources to paint intimate and revealing portraits of the men who control Southeast Asia Studwell also provides us with a rich and deep understanding of the broader historic economic and political influences that have shaped Southeast Asia over the past 150 years *Asian Godfathers* is a riveting and illuminating book that lifts the curtain on a world of staggering secrecy and hypocrisy and reveals for the first time who the leaders of one of the planet's most important and tumultuous markets really are why they got to the top and how they keep themselves there The romp around the region's pleasure domes is a blast The Wall Street Journal Asia

Fathers and Godfathers Guido Alfani, 2016-04-19 In medieval Europe baptism did not merely represent a solemn and public recognition of the natural birth of a child but was regarded as a second spiritual birth within a social group often different from the child's blood relations a spiritual family composed of godfathers and godmothers By analyzing the changing theological and social nature of spiritual kinship and godparenthood between 1450 and 1650 this book explores how these medieval concepts were developed and utilised by the Catholic Church in an era of reform and challenge It demonstrates how such ties continued to

be of major social importance throughout the sixteenth and seventeenth centuries but were often used in ways not always coherent with their original religious meaning and which could have unexpected social consequences In particular the book analyzes in detail the phase of transition from the traditional model of godparenthood which allowed for multiple godparents to the new couple model one godfather and one godmother imposed by Tridentine law Drawing upon a large database of archival data taken from parish books of baptisms and marriages pastoral visitations diocesan statutes synods and provincial councils it is shown how attempts were made to resist or to compromise with the Church thus providing a better understanding of the often contested meaning given to godparenthood by early modern society Whilst the Church was ultimately successful in imposing its will the book concludes that this was to have unexpected results that were to eventually weaken the role of godparents Rather than persuading parents to choose real spiritual tutors to act as godparents the choice of godparents became increasingly influenced with social status so that godparenthood began to resemble a pure clientele system something it had never been before Through this long term exploration of Catholic spiritual kinship much is revealed not only about godparenthood but about the wider social and religious networks Comparison with Protestant reactions to the same issues provides further insight into the importance of this subject to early modern European society

The Dust Of Empire Karl E. Meyer, 2008-08-05 When Charles de Gaulle learned that France's former colonies in Africa had chosen independence the great general shrugged dismissively They are the dust of empire But as Americans have learned particles of dust from remote and seemingly medieval countries can at great human and material cost jam the gears of a superpower In *The Dust of Empire* Karl E Meyer examines the present and past of the Asian heartland in a book that blends scholarship with reportage providing fascinating detail about regions and peoples now of urgent concern to America the five Central Asian republics the Caspian and the Caucasus Afghanistan Iran Pakistan and long dominant Russia He provides the context for America's war on terrorism for Washington's search for friends and allies in an Islamic world rife with extremism and for the new politics of pipelines and human rights in an area richer in the former than the latter He offers a rich and complicated tapestry of a region where empires have so often come to grief a cautionary tale

Audio Culture, Revised Edition Christoph Cox, Daniel Warner, 2017-07-27 The groundbreaking *Audio Culture* Readings in Modern Music Continuum September 2004 paperback original maps the aural and discursive terrain of vanguard music today Rather than offering a history of contemporary music *Audio Culture* traces the genealogy of current musical practices and theoretical concerns drawing lines of connection between recent musical production and earlier moments of sonic experimentation It aims to foreground the various rewirings of musical composition and performance that have taken place in the past few decades and to provide a critical and theoretical language for this new audio culture This new and expanded edition of the *Audio Culture* contains twenty five additional essays including four newly commissioned pieces Taken as a whole the book explores the interconnections among such forms as minimalism indeterminacy musique concrète free improvisation experimental music

avant rock dub reggae ambient music hip hop and techno via writings by philosophers cultural theorists and composers Instead of focusing on some crossover between high art and popular culture Audio Culture takes all these musics as experimental practices on par with and linked to one another While cultural studies has tended to look at music primarily popular music from a sociological perspective the concern here is philosophical musical and historical Audio Culture includes writing by some of the most important musical thinkers of the past half century among them John Cage Brian Eno Ornette Coleman Pauline Oliveros Maryanne Amacher Glenn Gould Umberto Eco Jacques Attali Simon Reynolds Eliane Radigue David Toop John Zorn Karlheinz Stockhausen and many others Each essay has its own short introduction helping the reader to place the essay within musical historical and conceptual contexts and the volume concludes with a glossary a timeline and an extensive discography

The Wrong Stuff John Strausbaugh, 2024-06-04 A witty deeply researched history of the surprisingly ramshackle Soviet space program and how its success was more spin than science In the wake of World War II with America ascendant and the Soviet Union devastated by the conflict the Space Race should have been over before it started But the underdog Soviets scored a series of victories starting with the 1957 launch of Sputnik and continuing in the years following that seemed to achieve the impossible It was proof it seemed that the USSR had manpower and collective will that went beyond America's material advantages They had asserted themselves as a world power But in *The Wrong Stuff* John Strausbaugh tells a different story These achievements were amazing yes but they were also PR victories as much as scientific ones The world saw a Potemkin spaceport the internal facts were much sloppier less impressive more dysfunctional The Soviet supply chain was a disaster and many of its machines barely worked The cosmonauts aboard its iconic launch of the Vostok 1 rocket had to go on a special diet and take off their space suits just to fit inside without causing a failure Soviet scientists under intense government pressure had essentially made their rocket out of spit and band aids and hurried to hide their work as soon as their worldwide demonstration was complete With a witty eye for detail and a gift for storytelling John Strausbaugh takes us behind the Iron Curtain and shows just how little there was to find there

corruption is the greatest obstacle for the fulfillment of the basic rights of the people. The afflictions of religious minorities are a day to day affair. In the society a privileged class is making mountains with money. On the other side majority people not less than 95% are becoming poorer everyday. Religious minorities and the indigenous people are deprived of constitutional rights. Including the father of the nation hundreds of politicians, journalists, lawyers, judges, members and common people have been killed. Different state controlled armed cadres have created an extreme fearful and inhuman situation by their killings of innocent people, tortures and oppressions. Within 38 years of independence the country was under the military rulers for long 17 years. People were pushed to the dark wild administration and its persecutions. Torture, murders and planned genocide crime and the incidences of the militancy are never inquired properly and effectively. Of course after the event government announces for inquiry and committees are also formed. Whoever is the criminal he would be definitely punished such promises are heard from the top label of the government or from the concerned authorities repeatedly with arrogance. But they are

History of British Trotskyism Ted Grant, This book by Ted Grant is a unique contribution to the history of British Trotskyism. It begins with the debate on Trotskyism in the British Communist Party in 1924 and ends with the break up of the Revolutionary Communist Party in 1949 and the beginning of more than thirty years of work within the Labour Party. Ted Grant was the founder and political leader of the Militant Tendency which haunted the Labour leadership and was eventually expelled along with the Militant editorial board in 1983. A postscript by Rob Sewell who was the national organiser for the Militant throughout the 1980s brings this unique history up to date.

Gabriele Von Bülow, Daughter of Wilhelm Von Humboldt, 1897 **Sinai** Henry Spencer Palmer, 1892 **Failed States** Musa Khan Jalalzai, 2020-04-02 Failed or failing states cause concern and spread chaos to their neighbors. They are an unquestionable and authentic source of terrorism, organized crime, drug trafficking, violence, disease and economic breakdown. Afghanistan is an example of such a troubled state which collapsed in 1992. The Afghan state remained shattered and failed due to the inattention of the international coalition. In modern intellectual forums most of the failed state discourses are centered on the lack of a state's capacity to carry out the basic services for which it is responsible such as the rule of law, good governance and effective border control against external threats. This book is a collection of articles on various issues leading to the Failed States written by eminent scholars and researchers.

Brian Eno Sean Albiez, David Pattie, 2016-08-11 On the back of his published diary Brian Eno describes himself variously as a mammal, a father, an artist, a celebrity, a pragmatist, a computer user, an interviewee and a drifting clarifier. To this list we might add rock star on the first two Roxy Music albums, the creator of lastingly influential music, Another Green World, Music for Airports, a trusted producer for Talking Heads, U2, Coldplay and a host of other artists, the maker of large scale video and installation artworks, a maker of apps and interactive software and so on. He is one of the most feted and influential musical figures of the past forty years even though he has described himself on more than one occasion as a non musician. This volume examines Eno's work as a musician, as a theoretician, as a collaborator

and as a producer Brian Eno is one of the most influential figures in popular music an updated examination of his work on this scale is long overdue
