

# The New Radical Right and Dissatisfaction with Democracy: Latin America in Comparative Perspective

por **Stéphanie Alenda** | [salenda@unab.cl](mailto:salenda@unab.cl) | Universidad Andres Bello

Traditional representative institutions are undeniably in crisis in many countries around the world. Despite a lack of consensus as to whether the crisis is irreversible or even exceptional, this global reversal of progress toward greater democratization has given rise to somewhat alarmist interpretations of the institutional disfunctions of regimes in which elites no longer act to guarantee basic democratic norms (Levitsky and Ziblatt 2018) or too much economic power is concentrated in their hands (Crayling 2017). The inability of political systems to channel demands and offer concrete solutions to problems of social concern, together with the expansion of critical citizens, has contributed to a radicalization of electorates. The far right has succeeded in "capturing social non-conformism in favor of different anti-progressive political escapes" (Stefanoni 2021, 9). This phenomenon tends to sharpen the perception of a crisis of democracy. The present article explores that perception, the global pattern of the far right, and the reideologization of the political debate.

## The Radical Right as a Symptom of the Crisis of Democracy

The crisis of democracy is evident in questionings of the status quo given sharpened perceptions of social inequality; an unprecedented decline of electoral participation; rising distrust of institutions and governing politicians; and electors' willingness to mortgage democratic ideals when they collide with pressing issues such as order and security, the increasing cost of living, or immigration. Even in Finland, one of the world's most advanced democracies, citizens have become willing to trade liberal

democratic principles for progress on objectives of more immediate public interest (Saikkonen and Christensen 2022). In Europe generally, the weakening of democracy that has been perceived since the 1980s appears inseparable from the decline of social democratic models (Bandau 2021). In a context of slowing economic growth, social democratic parties have increasingly embraced fiscal orthodoxy and structural reforms.

This weakening of democracy is also fed by the new technological revolution, which has contributed to deregulation of political relations. Immediate access to information encourages individualism and makes citizens feel less need for intermediation. To an ever-increasing extent, the relation between citizens and the state has come to resemble a commercial transaction, weakening the essence of deliberation. Meanwhile, digital media has magnified the visibility of candidates who are in open conflict with liberal democracy.

Although there is a tendency to overestimate the electoral effect of disinformation through social networks (Dungherr and Schroeder 2021), Donald Trump's victory in 2016 set off alarm bells. Three things reinforced pessimism about the future of democracy: the fact that his election occurred in the very cradle of modern democracy; the coincidence with Britain's Brexit vote; and the electoral resurgence of what could be called a "radical" Right that undermines liberal democracy's principles but also, unlike the "extreme" right which « rejects the essence of democracy, that is, popular sovereignty and majority rule» (Mudde 2019, 7). As a sign of the growing normalization of those parties, in the

# Right And Democracy In Latin America

## **Right And Democracy In Latin America:**

**The Right and Democracy in Latin America** Douglas A. Chalmers, Maria do Carmo Campello de Souza, Atilio Boron, 1992-02-28 This book of up to date studies by a group of research scholars from Latin America and the United States examines the factors essential to an understanding of the Right's goals, organizations and commitment to democracy. The book is divided into four distinctive sections, the first of which deals with the general characteristics of the Right. The following three sections explore in depth the political strategies and organizations of the Right in elections and governing coalitions, the conservative trends that are changing the Church, and the fate of neo-liberal ideas among businessmen traditionally dependent on the State. Several chapters are devoted to the distinctive dynamics in Argentina, Brazil, Mexico and Peru.

**Uncivil Movements** Leigh A. Payne, 2000 The eighth and final instalment of the international best-selling series from Jenny Nimmo starring Charlie Bone. An Academy for magic and special talents. A destiny unfulfilled. A secret legacy. Join Charlie Bone as he discovers the truth about the Red King and the key to his own past. The Bloors are gathering their evil forces: thieves, poisoners, kidnappers, swindlers and even murderers from Piminy Street. And Lord Grimwald Dagbert's father is enlisted to drown Charlie's father and mother on their second honeymoon using his magical Sea Globe. It looks like Charlie's only hope might be the mysterious Red Knight. But who is he? And can he help Charlie defeat the Bloors once and for all? All the magical threads come together in this amazing finale to a hugely compelling series. With nearly 5 million copies sold, Jenny Nimmo's fantasy series is still charming generations of children over a decade after Charlie Bone was first printed.

**Gender and the Politics of Rights and Democracy in Latin America** Maxine Molyneux, 2016-01-28 This volume assesses one of the most important developments in contemporary Latin American: women's movements, the engagement with rights-based discourses. Organised women have played a central role in the continued struggle for democracy in the region and with it, gender justice. The foregrounding of human rights and within them, the recognition of women's rights has offered women a strategic advantage in pursuing their goals of an inclusive citizenship. The country-based chapters analyse specific bodies of rights: rights and representation, domestic violence, labour rights, reproductive rights, legal advocacy, socio-economic rights, rights and ethnicity, and rights, the state and autonomy.

*Constructing Democracy* Elizabeth Jelin, 2019-03-11 In this pathbreaking contribution to debates about human rights, democracy and society, distinguished social scientists from Latin America and the United States move beyond questions of state terror, violence and similar abuses to embrace broader concepts of human rights, citizenship, identity, civil society, racism, gender discrimination and po

**Democracies and Dictatorships in Latin America** Scott Mainwaring, Aníbal Pérez-Liñán, 2014-01-31 This book presents a new theory for why political regimes emerge and why they subsequently survive or break down. It then analyzes the emergence, survival and fall of democracies and dictatorships in Latin America since 1900. Scott Mainwaring and Anibal Pérez Liñán argue for a theoretical approach situated between long-term structural and cultural explanations and short-term explanations that look at the

decisions of specific leaders They focus on the political preferences of powerful actors the degree to which they embrace democracy as an intrinsically desirable end and their policy radicalism to explain regime outcomes They also demonstrate that transnational forces and influences are crucial to understand regional waves of democratization Based on extensive research into the political histories of all twenty Latin American countries this book offers the first extended analysis of regime emergence survival and failure for all of Latin America over a long period of time *Challenges of Human Rights in Latin America* Casar Landa, César Landa Arroyo, 2019 Latin America offers a democratic and constitutional process with the goals to respect fundamental human rights and control the excess of power Nevertheless the weaknesses of the rule of laws institutions does not guarantee for all citizens the protection of old and new rights In this sense the Inter American Fundamental Rights Conference organized by the Inter American Network on Fundamental Rights and Democracy REDIDD is an annual meeting of professors and researchers from the different universities of Latin America addressing topics of particular importance regarding the possibilities and challenges of the consolidation of the constitutional state in the region This book presents the minutes of the Fourth Inter American Fundamental Rights Conference and explores topics such as political rights and the consolidation of democracy in Latin America impeachment and judicial guarantees the challenges of freedom of information and judicial protection and due process amongst others Routledge Handbook of Latin American Politics Peter Kingstone, Deborah J. Yashar, 2013-03-05 Latin America has been one of the critical areas in the study of comparative politics The region's experiments with installing and deepening democracy and promoting alternative modes of economic development have generated intriguing and enduring empirical puzzles In turn Latin America's challenges continue to spawn original and vital work on central questions in comparative politics about the origins of democracy about the relationship between state and society about the nature of citizenship about the balance between state and market The richness and diversity of the study of Latin American politics makes it hard to stay abreast of the developments in the many sub literatures of the field The Routledge Handbook of Latin American Politics offers an intellectually rigorous overview of the state of the field and a thoughtful guide to the direction of future scholarship Kingstone and Yashar bring together the leading figures in the study of Latin America to present extensive empirical coverage new original research and a cutting edge examination of the central areas of inquiry in the region **Engendering Transitions** Georgina Waylen, 2007-05-24 What has been the impact of transitions to democracy on gender relations What roles have women's mobilizations played in processes of democratization In a new and over arching thematic analysis *Engendering Transitions* answers these questions by comparing the transitions from state socialism and authoritarianism that took place as part of the third wave of democratization that swept the world from the mid 1970s onwards Using empirical material drawn from eight case study countries in East Central Europe and Latin America as well as South Africa Georgina Waylen explores the gendered constraints and opportunities provided by processes of democratization and economic restructuring This book uses a

sophisticated analytical framework that brings together the analysis of key actors and institutions and shows that under certain conditions transitions to democracy can result in some positive gender outcomes such as improvements in women's political representation and more gender sensitive policy in areas such as domestic violence Georgina Waylen argues that women's mobilization during transitions is no guarantee of success and change is easier to achieve in some areas than others Understanding the roles that can be played by organized women's movements key actors and the wider political environment is crucial in helping us to explain why these gender outcomes vary in different contexts This book addresses important debates within the study of both comparative politics and gender and politics and substantially improves our understanding of the ways in which transitions to democracy are gendered

**Conservative Parties, the Right, and Democracy in Latin America** Kevin J. Middlebrook, 2000      *Sex and the State* Mala Htun, 2003-04-07

Abortion divorce and the family how did the state make policy decisions in these areas in Argentina Brazil and Chile during the last third of the twentieth century As the three countries transitioned from democratic to authoritarian forms of government and back they confronted challenges posed by the rise of the feminist movement social changes and the power of the Catholic Church The results were often surprising women's rights were expanded under military dictatorships divorce was legalized in authoritarian Brazil but not in democratic Chile and no Latin American country changed its laws on abortion *Sex and the State* explores these patterns of gender related policy reform and shows how they mattered for the peoples of Latin America and for a broader understanding of the logic behind the state's role in shaping private lives and gender relations everywhere

## The Enigmatic Realm of **Right And Democracy In Latin America**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing in short supply of extraordinary. Within the captivating pages of **Right And Democracy In Latin America** a literary masterpiece penned by a renowned author, readers attempt a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of those who partake in its reading experience.
