Rights And Risks Discussion Document On Civil Liberty In Old Age:

Independence and the Elderly Malcolm J. Fisk, 2024-05-10 In the 1980s much research into the needs of the elderly was undertaken from the perspective of a sickness model a model which reinforced labels of elderly people as frail disabled dependent and economically unproductive Few studies adopted a positive attitude to ageing and elderly people Originally published in 1986 reissued here with a new preface this book helped to redress this imbalance by focusing on the theme of independence examined particularly from the perspective of current housing and social policies relating to elderly people at the time The author looks at sheltered housing in detail including discussion of alarm systems staying put schemes and residential homes The book was essential reading for academics and practitioners in the health and social welfare fields with a concern for the elderly and the ways in which they could retain a meaningful independence

Risk and Ageing C Paul Brearley, 2023-03-31 First published in 1982 Risk and Ageing is an exploration of practical issues involved in helping older people who are exposed to substantial risks Paul Brearley argues that if we are to make appropriate provision for older people it is essential that policy and practice should be informed by the growing body of theory and research as well as by the pragmatic day to day experience of practitioners The book therefore brings these perspectives together in relation to the general theme of risk analysis and management The book includes special chapters on mental disorder and on healthcare and will be of value to workers in the health and social services in addition to a social work audience

EBOOK: Older People And Community Care Beverly Hughes, 1995-09-16 Older People and Community Care sets social and health care practice with older people firmly in the context of the new community care arrangements and the consequent organizational trends towards a market culture However it also questions the relative lack of attention given by professionals to issues of structural inequality in old age compared for example to race and gender Thus the book tackles a double agenda How can community care practice be suffused with anti ageist values and principles Addressing this question the book sets out the foundation knowledge and values which must underpin the development of anti discriminatory community care practice and examines the implications for practitioners in terms of the essential skills and inherent dilemmas which arise Older People and Community Care is essential reading for all those working with and managing services to older people and who aspire to make empowerment for older people a reality

Reviewing Care Management for Older People Judith E. Phillips, Bridget Penhale, 1996 This book discusses the development and implementation of several models of care management Drawing together research to highlight the successes and the difficulties of translating the principles of care management into practice it examines this subject with particular reference to empowerment needs led assessment and multi disciplinary work

Good Practice in Risk Assessment and Risk Management Hazel Kemshall, 1996 This book examines the key issues and methods of risk measurement and management A variety of social care settings are included with examples of practice
