Rigour And Complexity In Educational Research:

Rigour and Complexity in Educational Research Joe L. Kincheloe, Kathleen S. Berry, 2004 Aimed at fourth year undergraduates masters and PhD students in education this title presents a new examination of scientific rigour and evidence based research in education

Rigour and Complexity in Educational Research Kincheloe, 2004 What does it mean to engage in rigorous research What does a researcher need to know to produce such research What is specifically involved in multiple method bricolage research In an era where talk abounds about scientific rigour and evidence based research in education this groundbreaking book presents a new and compelling examination of these concepts Arguing that much of what is promoted as rigorous inquiry is reductionistic and ultimately misleading the authors present an alternative to such approaches to educational inquiry *Rigour and Complexity in Educational Research* provides readers with an understanding of the complexities of educational research and of the interrelationships between multiple methods theoretical perspectives philosophical orientations social positionalities modes of power and narrative strategies The authors use the French term bricolage to signify the use of a variety of research tools and ways of seeing The book then constructs a new conception of rigour in research that is culturally sensitive and socially transformative and shows researchers how to use multiple methods After developing this approach the authors devise a practical process of initiating researchers into the bricolage and provide concrete examples and guidelines for using this innovative approach This book is important reading for academics researchers and students undertaking education and social science courses

Rigour & Complexity in Educational Research Joe Kincheloe, Kathleen Berry, 2004-09 Aimed at fourth year undergraduates masters and PhD students in education this title presents a new examination of scientific rigour and evidence based research in education

Doing Educational Research Kenneth George Tobin, 2006 The authors explore a variety of topics from methodologies such as ethnography action research hermeneutics historiography psychoanalysis literary criticism to issues such as social theory epistemology and paradigms Back cover

Rethinking Practice, Research and Education Kevin J. Flint, 2015-02-26 *Rethinking Practice Research and Education* brings together philosophy with traditional methodological discourse and opens a space for critical thinking in social and educational research Drawing on the work of Heidegger Derrida Foucault and their descendants this engaging critical examination of practice applies a deconstructive reading to the practices of research Where is justice in the practice of research How do paradigms for the production of knowledge shape what is given in the practice of research What are the key issues involved in developing an ethos for the practice of research in the light of society's complex relationship with essential forms of technology Each of these dimensions are explored drawing on the traditions of research and their interplay with researchers responsibilities to work towards justice in research A must read for researchers bringing the language of philosophy to the current debate about the impact of social and educational research in practice

Critical Qualitative Research and Social Justice Penny A. Pasque, 2025-06-23 Critical Qualitative
