Rise Of Ancient Israel:

The Rise of Ancient Israel Hershel Shanks, 1992 This work is composed of three outstanding lectures about the emergence of the ancient Israelites and their religion presented at a symposium held at the Smithsonian Institution in the fall of 1991 Professors William Dever Baruch Halpern and P Kyle McCarter Jr specialists in the fields of biblical archaeology and Near Eastern studies present provocative theories on the arrival of the Israelites in ancient Canaan and the provenance of their religion Did the Israelites enter Canaan according to the books of Joshua and Judges or were they already there as part of the indigenous population Is there any reality to the biblical account of the Exodus Where and when did belief in the God Yahweh originate Edited under the aegis of Shanks the well known editor of Biblical Archaeological Review and Bible Review this work can easily be understood by interested lay readers Highly recommended for larger collections Robert A Silver Shaker Heights P L Ohio Library Journal **Special Issue: the Rise of Ancient Israel** ,2019 *Habiru* Gary Arthur Thomson, 2011-08-08 In the Year 1230 BCE the stately city of Shechem cradled between Mount Gerizim and Mount Ebal was suddenly disturbed out of her reserved formality her closely watched market her liturgical inner temple routine her orderly sentinelled turrets A ood of people from every direction poured into her gates and thronged her narrow streets A new nation called Israel was about to come into being A fact validated by two corroborative Egyptian inscriptions hieroglyphed in stone At Shechem in the Year 931 BCE two historians began to write the story of Israel Two women Civil war triggered their need to write A tragicomic situation was unfolding and the two insightful women could see it coming They were in the royal court but being women they were powerless to avert the catastrophe Being educated they did have the power of the pen Rehoboam the successor to King Solomon was being crowned at Shechem and his cocky arrogance created a catastrophe the breakup of Israel Professor Thomsons skill as a teacher and writer enables his students and reader to think through the ancient stories and give them context in archaeological settings in life like Shechem Dr Lucie Lavoie Universit de Montral [The Invention of Ancient Israel](#) Keith W. Whitelam, 1996 Argues that ancient Israel has been invented by scholars in the image of a European nation state influenced by the Israeli state created in 1948 Biblical scholars have contributed to dispossessing the Palestinians of their land and their past **The Emergence of Israel in Ancient Palestine** Emanuel Pfoh, 2016-04-01 Taking advantage of critical methodology for history writing and the use of anthropological insights and ethnographic data from the modern Middle East this study aims at providing new understandings on the emergence of Israel in ancient Palestine and the socio political dynamics at work in the Levant during antiquity The book begins with a discussion of matters of historiography and history writing both in ancient and modern times and an evaluation on the incidence of the modern theological discourse in relation to history and history writing Chapter 2 evaluates the methodology used by biblical scholars for gaining knowledge on ancient Israelite society Pfoh argues that such attempts often apply socio scientific models on biblical narratives without external evidence of the reconstructed past producing a virtual past reality which cannot be

confirmed concretely Chapter 3 deals with the archaeological remains usually held as clear evidence of Israelite statehood in the tenth century BCE The main criticism is directed towards archaeological interpretations of the data which are led by the biblical narratives of the books of Judges and Samuel resulting in a harmonic blend of ancient literature and modern anthropological models on state formation Chapter 4 continues with the discussion on how anthropological models should be employed for history writing Socio political concepts such as chiefdom society or state formation should not be imposed on the contents of ancient literary sources i e the Bible but used instead to analyse our primary sources the archaeological and epigraphic records in order to create a socio historical account The final chapter attempts to provide an historical explanation regarding the emergence of Israel in ancient Palestine without relying on the Bible but only on archaeology epigraphy and anthropological insights This Israel is not the biblical one This is the Israel from history the one that the modern historian aims at recovering from the study of ancient epigraphic and archaeological remains The arguments presented challenge the idea that the biblical writers were recording historical events as we understand this practice nowadays and that we can use the biblical records for creating critical histories of Israel in ancient Palestine It also questions the existence of undisputable traces of statehood in the archaeological record from the Iron Age as the biblical images about a United Monarchy might lead us to believe Thus drawing on ethnographic insights we may gain a better knowledge on how ancient Levantine societies functioned providing us with a context for understanding the emergence of historical Israel as a major highland patronate with a socio political life of almost two centuries It is during the later periods of ancient Palestines history the Persian and the Graeco Roman that we find the proper context into which biblical Israel is created beginning a literary life of more than two millennia

The Geography of Religion Roger W. Stump, 2008-04-04 The only book of its kind this balanced and accessibly written text explores the geographical study of religion Roger W Stump presents a clear and meticulous examination of the intersection of religious belief and practice with the concepts of place and space He begins by analyzing the factors that have shaped the spatial distributions of religious groups including the seminal events that have fostered the organization of religions in diverse hearths and the subsequent processes of migration and conversion that have spread religious beliefs The author then assesses how major religions have diversified as they have become established in disparate places producing a variety of religious systems from a common tradition Stump explores the efforts of religious

groups to control secular space at various scales relating their own uses of particular spaces and the meanings they attribute to space beyond the boundaries of their own communities Examining sacred space as a diverse but recurring theme in religious belief the book considers its role in religious forms of spatial behavior and as a source of conflict within and between religious groups Refreshingly jargon free and impartial this text provides a broad comparative view of religion as a focus of geographical inquiry **Interpreting the Old Testament** Craig C. Broyles,2001-10-01 A guide to essential aspects of Old Testament exegesis **Historical Biblical Archaeology and the Future** Thomas Evan Levy,2016-04-08 Joint winner of the 2011 Biblical Archaeology Society Publication Award in the category Best Scholarly Book on Archaeology The archaeology of the Holy Land is undergoing major change Historical Biblical Archaeology and the Future describes the paradigm shift brought about by objective science based dating methods geographic information systems anthropological models and digital technology tools The book serves as a model for how researchers can investigate the relationship between ancient texts both sacred and profane and the archaeological record Influential archaeologists and biblical scholars examine a range of texts materials and cultures the Vedas and India the Homeric legends and Greek Classical Archaeology the Sagas and Icelandic archaeology Islamic Archaeology and the Umayyad Abbasid and Ayyubid periods The groundbreaking essays offer a foundation for future research in biblical archaeology ancient Jewish history and biblical studies The Face of Old Testament Studies David W.
