*The Global Mind and the Rise of Civilization* Carl Johan Calleman, 2016-05-17 How the global mind drives the evolution of both consciousness and civilization Explains how our brains receive consciousness from the global mind which upgrades human consciousness according to a pre set divine time frame Reveals how the Mayan Calendar provides a blueprint for these consciousness downloads throughout history Examines the mind shift in humans and the development of pyramids and civilization in ancient Egypt Sumer South America and Asia beginning in 3115 BCE In each culture the origins of civilization can be tied to the arising of one concept in the human mind straight lines Straight and perpendicular lines are not found in nature so where did they come from What shift in consciousness occurred around the globe that triggered the start of rectangular building methods and linear organization as well as written language pyramid construction mathematics and art Offering a detailed answer to this question Carl Calleman explores the quantum evolution of the global mind and its holographic resonance with the human mind He examines how our brains are not thinking machines but individual receivers of consciousness from the global mind which creates holographic downloads to adjust human consciousness to new cosmological circumstances He explains how the Mayan Calendar provides a blueprint for these downloads throughout history and how the global mind rather than the individual has the power to make civilizations rise and fall He shows how at the beginning of the Mayan 6th Wave Long Count in 3115 BCE the global mind gave human beings the capacity to conceptualize spatial relations in terms of straight and perpendicular lines initiating the building of pyramids and megaliths around the world and leading to the rise of modern civilization He examines the symbolism within the Great Pyramid of Giza and the pyramid at Chich n Itz and looks at the differences between humans of the 6th Wave in ancient Egypt Sumer South America and Asia and the cave painters of the 5th Wave He reveals how the global mind is always connected to the inner core of the Earth and discusses how the two halves of the brain parallel the civilizations of the East and West Outlining the historical psychological geophysical and neurological roots of the modern human mind Calleman shows how studying early civilizations offers a means of understanding the evolution of consciousness

suit his new motivation Several large cities existed before descending Dwapara Yuga but a new breed of city sprang up with Dwapara Yuga These were larger and more complex and built around commerce Many had shared granaries artisans districts and marketplaces and were typically made on trade routes along rivers and coasts We also see these cities first significant division of labor and societal stratification Artisans scribes and traders all became increasingly common occupations Furthermore there was of course the tax collector As a result governments began levying taxes on commerce as they had already levied tariffs on agriculture Sumeria and the city of Eridu are credited with being the first of the trend Urdu is believed to have risen along the banks of the Euphrates River around 3300 BC The famous city of Ur and dozens of others sprang up in the Tigris and Euphrates Valleys over the next 300 400 years and Babylon was not far behind **How**
