British Empire and in doing so offers new discourses on the colonial home imperial society identities and colonial culture Using a wide range of source material from private papers to newspaper articles official papers and court records Dussart explores the strategic nature of the relationship the connection between imperialism domesticity and a master servant paradigm that was deployed in different ways by varied actors often neglected in the historical record Positioned outside the family but inside the private place of the home the domestic servant was often the foil against which 19th century contemporaries worked out class race and gender identities across metropole and colony creating those places in the process The role of domestic servants in empire thus lay not only in the labour they undertook but also in the way the servant master relationship constituted ground that helped other power relations to be imagined and contested Dussart explores the domestic service relationship in 19th century Britain and India considering how ideas about servants and their masters and or mistresses spanned imperial space and shaped peoples and places within it *Labour united and divided from the 1830s to the present* Emmanuelle Avril, Yann Béliard, 2018-08-31 This book seeks to renew and expand the field of British labour studies setting out new avenues for research so as to widen the audience and academic interest in the field in a context which makes the revisiting of past struggles and dilemmas more pressing than ever
