Rising Middle Power German Foreign Policy In Transformation:

Middle Power Statecraft Jonathan H. Ping, 2017-11-30 Jonathan Ping's volume establishes a unifying theory for the concept of middle power. MP MPs are states which have an innate form of statecraft and perceived power as a result of their size. The book presents hybridization theory as a basis for analysis, policy development and prediction of MP statecraft and perceived power. A prerequisite to the founding of hybridization theory is the new statistical method of definition which identifies sixteen MPs of Asia and the Pacific. The volume takes a comparative focus on Indonesia and Malaysia to inform and test hybridization theory as well as to provide a historical analysis of Southeast Asia from a statecraft and perceived power perspective. It offers researchers and scholars of international relations and international political economy a theory that can be applied to the practical study of all middle sized states while middle sized states can apply the same theory to enhance their own ability to re create their state.

Germany's Foreign Policy of Reconciliation Lily Gardner Feldman, 2014-07-16 Since World War II Germany has confronted its own history to earn acceptance in the family of nations. Lily Gardner Feldman draws on the literature of religion, philosophy, social psychology, law and political science and history to understand Germany's foreign policy with its moral and pragmatic motivations and to develop the concept of international reconciliation. Germany's Foreign Policy of Reconciliation traces Germany's path from enmity to amity by focusing on the behavior of individual leaders, governments and non governmental actors. The book demonstrates that at least in the cases of France, Israel, Poland and Czechoslovakia, the Czech Republic, Germany has gone far beyond banishing war with its former enemies; it has institutionalized active friendship. The German experience is now a model of its own, offering lessons for other cases of international reconciliation. Gardner Feldman concludes with an initial application of German reconciliation insights to the other principal post World War II pariah, as Japan expands its relations with China and South Korea.

Korea's Middle Power Diplomacy Seungjoo Lee, Sangbae Kim, 2022-05-17 This volume discusses Korea's role as a middle power in the midst of the 21st century global power shift. Focusing on Korea's middle power diplomacy from the perspective of coalition building, the book discusses structural factors that shape middle power strategy and diplomacy. Written by leading Korean researchers, the chapters use diverse methodologies to offer a range of perspectives on Korea's place in the developing global order. Topics discussed include South Korea's approach to technology policy in the midst of US-China cyber competition, the East Asian Thucydides Trap, MITKA and middle power diplomacy, Korea's role in the South China Sea dispute and South Korean cyber security. Providing a unique treatment of middle power opportunities and motivations in the East Asia region, this volume will be of interest to students and scholars of international relations, Asian politics, diplomacy, security studies and global governance.

India and the Major Powers After Pokharan II Baldev Raj Nayar, 2001 The Book Examines The Positions That Different Major Powers Took On India's Nuclear Tests In 1998 Both Jointly And Severally. It Discusses The Responses Not Only Of P 5 But Also Those Of Germany And Japan.

Emerging Powers in Global Governance Andrew F.

Cooper, Agata Antkiewicz, 2010-10-30 The early twenty first century has seen the beginning of a considerable shift in the global balance of power Major international governance challenges can no longer be addressed without the ongoing co operation of the large countries of the global South Brazil Russia India China South Africa ASEAN states and Mexico wield great influence in the macro economic foundations upon which rest the global political economy and institutional architecture It remains to be seen how the size of the emerging powers translates into the ability to shape the international system to their own will In this book leading international relations experts examine the positions and roles of key emerging countries in the potential transformation of the G8 and the prospects for their deeper engagement in international governance The essays consider a number of overlapping perspectives on the G8 Heiligendamm Process a co operation agreement that originated from the 2007 summit and offer an in depth look at the challenges and promises presented by the rise of the emerging powers Co published with the Centre for International Governance Innovation *Uzbekistan's Foreign Policy* Bernardo Fazendeiro, 2017-08-25 Uzbekistan s foreign policy from 1991 to 2016 starting from independence right up to the death of its first president Islam Karimov is one of the more distinctive approaches to international politics since the end of the Cold War This distinctiveness rests on the republic s gradual struggle for self reliance upon becoming independent Authorities in Uzbekistan especially its President were sceptics of the norms that came to prevail across regional and broader international politics This book addresses the making of Uzbekistan s general foreign policy and its corresponding effects outside Central Asia particularly at the highest level among state officials heads of state and ministers It shows how a particular set of promises slogans and attitudes became the pillars upon which Uzbekistan s international role was shaped a role which then affected Tashkent s twenty five year relations with Russia the United States Germany and Turkey The book argues that the Government of Uzbekistan sought to be recognised as a self reliant power after independence but that the international norms of the post Cold War order coupled with the conflicting aims of the partners with whom it interacted hindered acknowledgement and contributed to a twenty year struggle for recognition Providing a thorough assessment of President Karimov s legacy in the foreign policy domain this book contributes to the developing field of role theory and recognition in International Relations It will also be of interest to academics in the fields of Central Asian and Eurasian politics and international relations Germany's Civilian Power Diplomacy C. Arora, 2006-08-07 This book assesses the diplomatic path of influence taken by German decision makers during the early nineties in pursuit of their cautiously articulated interest in and commitment to the eastward enlargement of NATO *The Politics of German Defence and Security* Tom Dyson, 2008-03-01 The post Cold War era has witnessed a dramatic transformation in the German political consensus about the legitimacy of the use of force However in comparison with its EU and NATO partners Germany has been reticent to transform its military to meet the challenges of the contemporary security environment Until 2003 territorial defence rather than crisis management remained the armed forces core role and the Bundeswehr continues to retain

conscripted The book argues that strategic culture provides only a partial explanation of German military reform It demonstrates how domestic material factors were of crucial importance in shaping the pace and outcome of reform despite the impact of international structure and adaptational pressures from the EU and NATO The domestic politics of base closures ramifications for social policy financial restrictions consequent upon German unification and commitment to EMU s Stability and Growth Pact were critical in determining the outcome of reform The study also draws out the important role of policy leaders in the political management of reform as entrepreneurs brokers or veto players shifting the focus in German leadership studies away from a preoccupation with the Chancellor to the role of ministerial and administrative leadership within the core executive Finally the book contributes to our understanding of the Europeanization of the German political system arguing that policy leaders played a key role in uploading and downloading processes to and from the EU and that Defence Ministers used Atlanticization and Europeanization in the interests of their domestic political agendas Rising Powers and Foreign Policy Revisionism Cameron G Thies, Mark David Nieman, 2017-11-29 Addresses concerns that rising powers may generate international conflict focusing on Brazil Russia India China and South Africa BRICS *Global Inequality and American Foreign Policy in the 1970s* Michael Franczak, 2022-06-15 In *Global Inequality and American Foreign Policy in the 1970s* Michael Franczak demonstrates how Third World solidarity around the New International Economic Order NIEO forced US presidents from Richard Nixon to Ronald Reagan to consolidate American hegemony over an international economic order under attack abroad and lacking support at home The goal of the nations that supported NIEO was to negotiate a redistribution of money and power from the global North to the global South Their weapon was control over the major commodities in particular oil that undergirded the prosperity of the United States and Europe after World War II Using newly available archival sources as well as interviews with key administration officials Franczak reveals how the NIEO and North South dialogue negotiations brought global inequality to the forefront of US national security The challenges posed by NIEO became an inflection point for some of the greatest economic political and moral crises of 1970s America including the end of golden age liberalism and the return of the market the splintering of the Democratic Party and the building of the Reagan coalition and the rise of human rights in US foreign policy in the wake of the Vietnam War The policy debates and decisions toward the NIEO were pivotal moments in the histories of three ideological trends neoliberalism neoconservatism and human rights that formed the core of America s post Cold War foreign policy
