Rising Tide Of Cultural Pluralism:

The Rising Tide of Cultural Pluralism Crawford Young, 1993 Two decades after the publication of his prize winning book *The Politics of Cultural Pluralism* Crawford Young and a distinguished panel of contributors assess the changing impact of cultural pluralism on political processes around the world specifically in the former Soviet Union China United States India Ethiopia and Guatemala The result is an arresting look at the dissolution of the nation state system as we have known it Crawford Young opens with an overview of the dramatic rise in the political significance of cultural pluralism and of scholars changing understanding of what drives and shapes ethnic identification Mark Beissinger brilliantly explains the demise of the last great empire state the USSR while Edward Friedman notes growing challenges to the apparent cultural homogeneity of China Nader Entessar suggests intriguing contrasts in Azeri identity politics in Iran and the ex USSR Ronald Schmidt and Noel Kent explore the language and racial dimensions of the rising multicultural currents in the United States Douglas Spitz shows the extent of the decline of the old secular vision of India of the independence generation Alan LeBaron traces the recent emergence of an assertive Mayan identity among a submerged populace in Guatemala long thought to be destined for Ladinoization A case study of the diversity and uncertain future of Ethiopia dramatically emerges from four contrasting contributions Tekle Woldemikael looks at the potential cultural tensions in Eritrea Solomon Gashaw offers a central Ethiopian nationalist perspective Herbert Lewis reflects the perspectives of a restless and disaffected periphery and James Quirin provides an arresting explanation of the construction of identity amongst the Beta Israel Ethiopian Jews Virginia Sapiro steps back from specific regions offering an original analysis of the interaction between cultural pluralism and gender

Toffolo, 2012-02-01 Combining detailed case studies with discussions of deeper theoretical controversies *Emancipating Cultural Pluralism* investigates both the benign and harmful aspects of identity politics This provocative collection delves into some of the most difficult issues of cultural pluralism such as what accounts for the immense power of identity politics whether identity politics can be inherently good or evil whether states are the right institutions to deal with ethnic conflict the prevention of genocide the value of devolving power to the local level and more The contributions are united by the conviction that more attention needs to be paid to the normative issues associated with various expressions of cultural pluralism for the ethical implications of the phenomena are too profound to be ignored

Transnational Faiths Hugo Córdova Quero, Rafael Shoji, 2016-02-17 Japan has witnessed the arrival of thousands of immigrants since the 1990s from Latin America especially from Brazil and Peru Along with immigrants from other parts of the world they all express the new face of Japan one of multiculturalism and multi ethnicity Newcomers are having a strong impact in local faith communities and playing an unexpected role in the development of communities This book focuses on the role that faith and religious institutions play in the migrants process of settlement and integration The authors also focus on the impact of immigrants religiosity amidst religious groups formerly established in

Japan Religion is an integral aspect of the displacement and settlement process of immigrants in an increasing multi ethnic multicultural and pluri religious contemporary Japan Religious institutions and their social networks in Japan are becoming the first point of contact among immigrants This book exposes and explores the often missed connection of the positive role of religion and faith based communities in facilitating varied integrative ways of belonging for immigrants The authors highlight the faith experiences of immigrants themselves by bringing their voices through case studies interviews and ethnographic research throughout the book to offer an important contribution to the exploration of multiculturalism in Japan

The Soviet Union Tania Raffass,2012 The Soviet Union is often characterised as nominally a federation but really an empire liable to break up when individual federal units which were allegedly really subordinate colonial units sought independence This book questions this interpretation revisiting the theory of federation and discussing actual examples of federations such as the United States arguing that many federal unions including the United States are really centralised polities It also discusses the nature of empires nations and how they relate to nation states and empires and the right of secession highlighting the importance of the fact that this was written in to the Soviet constitution It examines the attitude of successive Soviet leaders towards nationalities and the changing attitudes of nationalists towards the Soviet Union Overall it demonstrates that the Soviet attitude to nationalities and federal units was complicated wrestling in a similar way to many other states with difficult questions of how ethno cultural justice can best be delivered in a political unit which is bigger than the national state

National Identity and Democratic Prospects in Socialist China Edward Friedman,2016-09-16 This analysis of every facet of a national identity makes it less likely that the next great explosion in the Communist world and its consequences will come as a surprise It investigates tendencies in China that might lead it down the same path as Russia and Yugoslavia

Nationalism and Intra-State Conflicts in the Postcolonial World Fonkem Achankeng,2015-09-28 This book highlights the complexities of nationalism and the struggles of different groups left unaddressed within the nation states of a postcolonial world The central question is what happened to the worldly and radical visions of freedom liberty and equality that animated intellectual activists and policy makers from

Woodrow Wilson in the 1920s This book analyzes the outcome of lumping disparate groups of people together under one nation state and holding them together against the knowledge of the incompatibility theory of plural states In a world of arbitrarily and colonially mapped sovereign states groups and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies This book challenges deconstructs and decolonizes Western epistemologies related to postcolonial state formation and maintenance In examining the freedom concept that no human group ought to be determining the independence of other human groups this book constructs an alternative conceptualization of nations and peoples rights in the twenty first century in which radical hopes and global dreams are recognized as central to internal nationalism struggles
