Risk Management and Insurance Scott E. Harrington, Gregory R. Insurance, Risk Management, and Public Policy Sandra G. Gustavson, Scott E. Harrington, 1993-10-31 Five years ago the world lost one of its most prolific insurance scholars Dr Robert I Mehr. His death in 1988 signalled the passing of not only a gifted writer and researcher but also a pioneering teacher, mentor, and friend. The essays compiled within this volume are intended as an appropriate tribute to this occasionally outrageous individual who touched the lives of so many within the insurance community. Bob Mehr was a teacher who expected and demanded nothing less than perfect scholarship and flawless, efficient writing. Among alumni of the University of Illinois insurance doctoral program, stories still abound of late night and early morning sessions in which students and professor painstakingly debated precise words and phrases for dissertations, journal articles, and textbooks. Bob's respect for language was both immense and contagious; if at times more than a little compulsive. He joked that he could not read letters or novels without pencil in hand for editing. Bob's respect for his doctoral students was equally evident. The confidence he displayed in his students' abilities was sometimes startling but competence assumed often begot competence in fact. The accomplishments and records amassed by the many who studied with Bob Mehr are impressive and ongoing. On the dedication page in his final textbook *Fundamentals of Insurance*, Bob spoke of his affection for those he called his academic progeny and wished them happiness as they build their own academic families.

Subcommittee on Merchant Marine and Tourism, 1980 *The Law of Political Risk Insurance* Özge Tosun, 2025-03-29 This book explores the scope of host states' sovereign powers and the rights of foreign investors. Investors from developed countries engage in business with developing countries for various purposes, including political reasons: expanding and diversifying their operations, accessing essential natural resources and skilled labor forces, lowering their production costs, and in some cases even mitigating global warming. Correspondingly, in order to attract foreign investment, host countries can provide incentives or make concessions. However, once the investment has been made, these ventures are vulnerable to the actions of the host state. Political risk insurance, as the name suggests, serves to protect investments made in foreign countries.
