Risk Uncertainty And Rational Action:

Risk, Uncertainty and Rational Action Carlo C. Jaeger, Thomas Weblar, Eugene A. Rosa, Ortwin Renn, 2013-11-05 Risk as we now know it is a wholly new phenomenon the by product of our ever more complex and powerful technologies In business policy making and in everyday life it demands a new way of looking at technological and environmental uncertainty In this definitive volume four of the world s leading risk researchers present a fundamental critique of the prevailing approaches to understanding and managing risk the rational actor paradigm They show how risk studies must incorporate the competing interests values and rationalities of those involved and find a balance of trust and acceptable risk Their work points to a comprehensive and significant new theory of risk and uncertainty and of the decision making process they require The implications for social political and environmental theory and practice are enormous Winner of the 2000 2002 Outstanding Publication Award of the Section on Environment and Technology of the American Sociological Association

Knowledge and Rational Action Roman Heil, 2025-07-23 This book motivates and systematically develops the view that knowledge should be at the centre of our theory of practical rationality Only act on what you know the book offers the first comprehensive defence of this slogan in the form of a knowledge based decision theory The proposed view is shown to be the most straightforward explanation of emerging bodies of evidence for a link between knowledge and rational action The book provides novel solutions to well known challenges that invoke high stakes scenarios seemingly rational actions based on reasonable but false beliefs and decision making under risk and uncertainty The emerging view brings together traditional and formal approaches to epistemology and the study of practical rationality The resulting knowledge based decision theory is embedded in a rich normative landscape encompassing innovative accounts of excuses rational acceptance and the simplification of reasoning Knowledge and Rational Action will be of great interest to researchers and graduate students interested in epistemology practical rationality and decision theory

Refugee Law's Fact-Finding Crisis Hilary Evans Cameron, 2018-05-10 At a time when many around the world are fleeing their homes seeking refugee protection has become a game of chance Partly to blame is the law that governs how refugee status decision makers resolve their doubts This long neglected branch of refugee law has been growing in the dark with little guidance from the Refugee Convention and little attention from scholars By looking closely at the Canadian jurisprudence Hilary Evans Cameron provides the first full account of what this law is trying to accomplish in a refugee hearing She demonstrates how a hole in the law s normative foundations is contributing to the dysfunction of one of the world s most respected refugee determination systems and may well be undermining refugee protection across the globe The author uses her findings to propose a new legal model of refugee status decision making

The Social Amplification of Risk Nick Pidgeon, Roger E. Kasperson, Paul Slovic, 2003-07-10 This volume edited by three of the world s leading analysts of risk and its communication brings together contributions from a group of international experts working in the field of risk perception and risk communication Key

conceptual issues are discussed as well as a range of recent case studies spanning BSE and food safety AIDS HIV nuclear power child protection Y2K electromagnetic fields and waste incineration that take forward the state of the art in risk amplification theory The volume also draws attention to lessons for public policy risk management and risk communication practice

Community at Risk Thomas D. Beamish, 2015-05-06 In 2001 following the events of September 11 and the Anthrax attacks the United States government began an aggressive campaign to secure the nation against biological catastrophe Its agenda included building National Biocontainment Laboratories NBLs secure facilities intended for research on biodefense applications at participating universities around the country In *Community at Risk* Thomas D Beamish examines the civic response to local universities plans to develop NBLs in three communities Roxbury MA Davis CA and Galveston TX At a time when the country's anxiety over its security had peaked reactions to the biolabs ranged from vocal public opposition to acceptance and embrace He argues that these divergent responses can be accounted for by the civic conventions relations and virtues specific to each locale Together these elements clustered providing a foundation for public dialogue In contrast to conventional micro and macro level accounts of how risk is perceived and managed Beamish's analysis of each case reveals the pivotal role played by meso level contexts and political dynamics *Community at Risk* provides a new framework for understanding risk disputes and their prevalence in American civic life

Structural Human Ecology Nadine Bratchatzek, Paul Ehrlich, Sylvia Hiller, Roger E. Kasperson, Sandra T. Marquart-Pyatt, Allan Mazur, Ortwin Renn, Dirk Scheer, 2021-09-24 The desire to understand people's influence on ecosystems has inspired scientific studies and analyses of the stress individuals and communities place on the environment human well being and the tradeoffs between them As an emerging discipline Structural Human Ecology is devoted to unlocking the dynamic links between population environment social organization and technology The new field offers cutting edge research in risk analysis that can be used to evaluate environmental policies and thus help citizens and societies worldwide learn how to most effectively mitigate human impacts on the biosphere The essays in this volume were presented by leading international scholars at a 2011 symposium honoring the late Dr Eugene Rosa then Boeing Distinguished Professor of Environmental Sociology at WSU
