**Participant Observer** Robin Fox, 2017-10-24 Robin Fox one of the preeminent anthropologists of our time takes us on an exuberant personal intellectual and cultural journey through the 1930s to the 1970s This is a personal historical intellectual journey one that is at once intriguing hilarious and moving Like Browning's Sordello who recurs throughout the book Fox is telling the story of the development of a soul Fox's method is to depend entirely on memory to select the people events and ideas that have driven him towards what was called at the time a revolution in the social sciences This revolution was the founding of the biosocial or what came to be called the sociobiological movement in the study of human behavior It was a long road peppered with strange events brain bending ideas odd adventures dangers and sorrows and a cast of lively often eccentric characters Fox describes himself as an observer of a series of endings the last gasps of now extinct ways of life He witnessed the last of the old steam and horse powered northern wool towns of the industrial revolution and the pre industrial Hardy countryside of southern England He saw the ancient grammar schools before their destruction by doctrinaire socialism the old LSE when it was still an international family not just a big college the brave but failed experiment that was Talcott Parsons Social Relations Department In the United States he experienced the innocent but troubled America of the 1950s and the last gasp of traditional Indian life in New Mexico He lived in genteel Jane Austen England in Devon and experienced peasant crofter life in the Irish islands Participant Observer is a report from the cultural and social battlefield seen through the personal lens of a combatant Fox has given us a kind of Cook's Tour through the ideas and intellectual movements of mid century when the world changed and the foundations of the twenty first century were set It is the history of an education by a narrator in love with learning

Abysmal weather slag heaps funny accents the bleak uplands of a landscape carved out of millstone grit townscapes of abandoned mills and shipyards the detritus of an industrial revolution well past its sell by date These all too often are the gloomy perceptions of the north the foundations for the belief that northerners spend their lives battling hardship and misery and that nothing beyond Watford is worth a bag of chips With an insider s sensitivity and a journalist s enquiring mind northerner Martin Wainwright swiftly dispels these and other myths He reaches back through the historical record to uncover where and how many of the old clich s arose and goes on to paint a picture of the north as it is today and has always been a setting of wild coastline lakes and green dales inhabited by indomitably inventive northerners proud of their past and forging a future of brilliant new enterprises Lavishly illustrated with over 100 stunning images from the Guardian s archives Wainwright s incisive and wittily observant assessment of a region that is flourishing socially and culturally leaves us in no doubt that true north is as vibrant and exciting as it is beautiful
