Rococo To Cubism In Art And Literature:

Rococo to Cubism in Art and Literature Wylie Sypher, 1960 **Rococo to Cubism in Art and Literature** Wylie Sypher, 1960 *Rococo to Cubism in Art and Literature* R. L. Oldfield, 1960 *Rococo to Cubism in Art and Literature* /by Wylie Sypher, 1960 *The Imprint of the Picturesque on Nineteenth-Century British Fiction* Alexander M. Ross, 2006-01-01

Despite the negative criticism directed at its sentiment its heartlessness its superficiality the picturesque remained in both art and fiction of Victorian England a mode of seeing that even the greatest of the artists and novelists relied upon from time to time so that their viewers and readers could rejoice in the instant recognition of place and character distinctly limned and sometimes subtly enough to elicit sympathy Preface After briefly tracing the development of the theory of the picturesque in the eighteenth century writings of William Gilpin Sir Uvedale Price and Richard Payne Knight and examining how nineteenth century novelists accommodated aesthetic theory to the practice of fiction Ross focuses on the use of the picturesque in the works of Sir Walter Scott Charlotte Bronte Charles Dickens George Eliot and Thomas Hardy The persistence of the picturesque through novels ranging from *Waverley* to *Jude the Obscure* and in writers like Dickens and Eliot who had little respect for its conventions attests to its strength and attraction in nineteenth century literature

The Visual Arts, Pictorialism, and the Novel Marianna Torgovnick, 2014-07-14 Marianna Torgovnick maintains that it is worthwhile to think about novels in terms of the visual arts in part because major novelists like James Lawrence and Woolf did so and did so fruitfully as they were influenced by their perceptions of artistic movements Originally published in 1985 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Authors and Art Movements of the Twentieth Century Declan Lloyd, 2022-12-30 This book explores the great influence of twentieth century artists and art movements on many major writers of the twentieth century It focuses in particular on four seminal writers who were strongly influenced by very different movements they are Gertrude Stein and Cubism William S Burroughs and Dada J G Ballard and Surrealism and Douglas Coupland and Pop Art For these authors the presence and influence of these art movements is not limited to a small cluster of texts but can be felt much more expansively across their work infiltrating all manner of multifarious and complex dimensions These authors are all keen to explore new methods of shifting the signature styles and forms of visual art into the literary world Alongside these more overt methods of artistic transposition the authors also often demonstrate a deep philosophical affinity with their chosen movements This book uproots and examines these kinds of artistic engagements and also explores the authors own personal connections with the world of art For these are all authors not only interested in visual art but also intimately connected to the art world Indeed

some went on to become renowned artists in their own right while others were closely associated with major historical art figures Above all however they are unified by a kindred interest in exploring how the methods and philosophies of art can be transposed into and even challenge the constraints of traditional forms of literature

Modernism After the Death of God Stephen Kern, 2017-11-22 Modernism After the Death of God explores the work of seven influential modernists Friedrich Nietzsche James Joyce D H Lawrence Andr Gide and Martin Heidegger criticized the destructive impact that they believed Christian sexual morality had had or threatened to have on their love life Although not a Christian Freud criticized the negative effect that Christian sexual morality had on his clinical subjects and on Western civilization while Virginia Woolf condemned how her society was sanctioned by a patriarchal Christian authority All seven worked to replace the loss or absence of Christian unity with non Christian unifying projects in their respective fields of philosophy psychiatry or literature The basic structure of their main contributions to modernist culture was a dynamic interaction of radical fragmentation necessitating radical unification that was always in process and never complete

Spanish American Poetry at the End of the Twentieth Century Jill Kuhnheim, 2010-07-05 Has poetry lost its relevance in the postmodern age unable to keep pace with other forms of cultural production such as film mass media and the Internet Quite the contrary argues Jill Kuhnheim in this pathfinding book which explores how recent Spanish American poetry participates in the fundamental cultural debates of its time Using a

variety of interdisciplinary approaches Kuhnheim engages in close readings of numerous poetic works to show how contemporary Spanish American poetry struggles with the divisions between politics and aesthetics and between visual and written images grapples with issues of ethnic national sexual and urban identities and incorporates rather than rejects technological innovations and elements from the mass media Her analysis illuminates the ways in which contemporary issues such as indigenismo and Latin America's postcolonial legacy modernization immigration globalization economic shifts toward neoliberalism and informal economies urbanization and the technological revolution have been expressed in and even changed the very form of Spanish American poetry since the 1970s

The

Cinematic Novel and Postmodern Pop Fiction Décio Torres Cruz, 2019-12-05 Décio Torres Cruz approaches connections between literature and cinema partly through issues of gender and identity and partly through issues of reality and representation. In doing so he looks at the various ways in which people have thought of the so-called cinematic novel, tracing the development of that genre concept not only in the French cinematic novel and film scenarios but also in novels from the United States, England, France, and Latin America. The main tendency he identifies is the blending of the cinematic novel with pop literature through allusions to Pop Art and other postmodern cultural trends. His prime exhibits are a number of novels by the Argentinian writer Manuel Puig: *Betrayed*, *Heartbreak Tango*, *The Buenos Aires Affair*, *Kiss of the Spider Woman*, and *Pubis angelical*. Bringing in suggestive sociocultural and psychoanalytical considerations, Cruz shows how in Puig's hands the cinematic novel resulted in a pop collage of different texts, films, discourses, and narrative devices which fused reality and imagination into dream and desire.

Modernism Peter Childs, 2007-11-05 This work provides an authoritative analysis of the most important literary innovations of the last 100 years which explains the pan-European origins of the radical literary changes which occurred in the novel, poetry, and drama.

ReFocus: The Films of Paul Schrader Michelle E. Moore, 2020-05-28 Offers the first comprehensive academic text to explore Paul Schrader's film career through analysis of his directing, screenwriting, and film criticism. Contains a chapter-length interview in which Schrader examines the arc of his career for the first time and revises previous statements about filmmaking and film criticism. Provides a valuable update to previous texts on Schrader. Considers Schrader's overlooked films and provides new insight into their connections with Schrader's better-known films. Contains chapters on Schrader's work since 2008, the publication date of the last book on his filmmaking. Paul Schrader's unique relationship to the role of the author as screenwriter, director, and critic has long informed his cinema and raises complicated questions about the definition of the auteur. This volume of essays, one of the first collections to assess Schrader's contributions to directing, screenwriting, and criticism, includes the first original appraisals of his much-lauded masterpiece *First Reformed* (2017) as well as a chapter-length interview with Schrader himself conducted by the editors. Providing a comprehensive exploration of his groundbreaking achievements in cinema, the book considers Schrader's more overlooked films and provides new insights to their connection with his celebrated work in direction and screenwriting, such as *Taxi Driver* (1976), *Cat People* (1982), and *The Comfort of Strangers* (1990).

The Aesthetic State Josef Chytrý, 2024-07-26 Shortly after the middle of the eighteenth century a number of thinkers from the German-speaking lands began to create a paradigm drawn from their impressions of a distant historical reality: ancient Athens. Added to it a new mode of thought: modern dialectics, and at times even paid homage to the ancient Greek deity Dionysos to materialize their longing for an ideal. The influence of these forces came to permeate modern German consciousness, deifying the concept and activity of art, reviving the Platonic and Sanskrit vision of the cosmos as play and aesthetic creation, and projecting a way of life and labor that would honor not the commodity but the aesthetic product. With rigorous commitment to primary sources

and an unflagging critical engagement with the ideas and concrete situations they raise Josef Chytry provides a comprehensive and extensive study of this central motif in German thought from Winckelmann to Marcuse Chytry takes aesthetic state to signify the concentrated modern intellectual movement to revitalize the radical Hellenic tradition of the polis as the site of a beautiful or good life The movement begins with the classicism of Winckelmann Wiemar aesthetic humanism Wieland Herder Goethe and Schiller s formal theory of the aesthetic state and continues through the idealism of the Swabian dialecticians Holderlin Hegel and Schelling and the realism of Marx Wagner and Nietzsche It culminates in the postrealism of Heidegger Marcuse and the aesthetic modernist artist Walter Spies who initiated a dialogue with the non Western theatre state of the isle of Bali Josef Chytry concludes that the future speculation on the ideal of an aesthetic state must come to terms with the postrealist themes of ontological anarchy aesthetic ethos and theatre state In a bold effort to stimulate such speculation Chytry indicates how proponents of the aesthetic state might join forces with Rawlsian political theory to promote further the organon of persuasion that in his view serves as the common fount for the ancient dialectical and contractarian quests for the polis This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1989

Craft and Consciousness Joseph Bensman, Robert Lilienfeld, Long out of print and difficult to come by Bensman and Lilienfeld s treatise has achieved the status of an underground masterwork of sociological thought An extended and carefully nuanced essay on the sociology of knowledge its central argument was well defined by the authors in the first edition of 1973 It is our contention that major habits of mind approaches to the world or in phenomenological terms attitudes towards everyday life and specialized attitudes are extensions of habits of thought that emerge and are developed in the practice of an occupation profession or craft We emphasize craft since we focus upon the methods of work techniques methodologies and the social arrangements which emerge in the practice of a profession as being decisive in the formation of world views That argument is advanced against the Marxist tradition that would relate the forms and content of knowledge to the position of the knower in the social economic and class structure of society It avails itself of the theories and perceptions of Veblen Mannheim Weber Husserl and Alfred Schutz
