**Rodgers & Hammerstein's Cinderella** Richard Rodgers, Oscar Hammerstein, 2021-01-29 The timeless enchantment of a magical fairy tale is reborn with the Rodgers Jon Cypher played the Prince the Stepmother and Stepsisters were made less frightening and more comic by Ilka Chase Kaye Ballard and Alice Ghostley rather than the standard old crone the beautiful Edie Adams played the Godmother Rodgers and Hammerstein approached the story with the honesty and simplicity that characterized all their work They purposely did not seek to improve a story they felt was dramatically sound as many writers are prone to do instead concentrating on bringing the characters to life Rodgers wrote in his autobiography Musical Stages In writing the story and the songs Oscar and I felt that it was important to keep everything as traditional as possible without any modernizing or reaching for psychological significance When Hammerstein was asked where he found the version of Cinderella story he based his adaptation upon he answered I looked it up in the encyclopedia The marriage of music lyrics and story in Cinderella exemplified their artistic philosophy all elements held together integrally to illuminate the characters As Rodgers explained Although a few of its songs have become popular our score for Cinderella is another example of what theatre music is really about No matter what the medium a score is more than a collection of individual songs It is or should be a cohesive entity whose word and music are believable expressions of the characters singing them Like a symphony concerto or opera some portions have greater appeal than others but it is the work as a whole that makes the overall impression Cinderella succeeded When it was broadcast on March 31 1957 it was viewed by more people than any other program in the history of television **Rodgers + Hammerstein's Cinderella (Broadway Version)** Richard
