**Broadway , Fixing the Musical** Douglas L. Reside, 2023 Thousands of shows have opened on Broadway

Why do we remember some and not others The musical theatre repertory is not composed of titles popular in the theatre but by those with successful cast recordings movie versions or even illegal bootlegs on YouTube The shows audiences know and the texts and music they expect to hear when they attend a production are defined by media consumed at home more than by memories of performances witnessed in the theatre For example author Doug Reside shows that it is no accident that the serious book musical with a fixed score developed in the 1940s when commercially pressed and marketed record albums made it possible to record most of the score of a new musical in a fixed medium And Hamilton a musical with dense lyrics and revolutionary musical style would not have been as easily accessible to world audiences if most hadn't already had the opportunity to learn the score by listening to free digital streams of the original cast recording The technologies that made these media possible developed concurrently with and shaped the American musical as an art form Reside uncovers how the affordances and limitations of these technologies established a repertory of titles that are most frequently performed and defined by the texts used in these performances Fixing the Musical argues that the musicals we most remember are those which most effectively used their era's best recording and distribution technologies to document and share the work with those who would never see the original production on Broadway

Oscar Hammerstein II and the Invention of the Musical Laurie Winer, 2023-01-01 A new look at artist Oscar Hammerstein II as a pivotal and underestimated force in the creation of modern American culture Smart and insightful Winer has an intuitive grasp of Hammerstein's aesthetic and character She gets him New York Review of Books You know his work Show Boat Oklahoma Carousel The King and I But you don't really know Oscar Hammerstein II the man who more than anyone else invented the American musical Among the most commercially successful artists of his time he was a fighter for social justice who constantly prodded his audiences to be better than they were Diving deep into Hammerstein's life examining his papers and his lyrics critic Laurie Winer shows how he orchestrated a collective reimagining of America urging it forward with a subtly progressive vision of the relationship between country and city rich and poor America and the rest of the world His rejection of bitterness his openness to strangers and his optimistic humor shaped not only the musical but the American dream itself His vision can continue to be a touchstone to this day
