His films encompass a variety of styles elements and themes from the nihilistic existentialism of *The Last House on the Left* to the successful *A Nightmare on Elm Street* which sent horror in a bold new direction to the hallucinatory dreamscapes of *The Serpent and the Rainbow* And in the nineties Craven returned with the *Scream* films which were simultaneously funny clever and scary films that overturned the horror cliches of the eighties The present work provides a history of Craven's film career since 1972 examining all the themes and techniques the filmmaker explored For each film a synopsis cast and credits historical context and critical commentary are provided Also covered in detail are Craven's forays into television including movies such as *Stranger in the House* and work on such series as *The New Twilight Zone* **Woody Allen** Kimball King, 2014-01-21 First Published in 2001 Woody Allen who first became famous as a stand up comedian and writer of comedy routines also has had a distinguished career as a playwright actor screenwriter and director While his celebrity status is attributed to some of his better known early films such as *Annie Hall* *Manhattan* *Hannah and her Sisters* he has produced more than ten new films in the past decade **Roger Ebert's Movie Yearbook** Roger Ebert, 2005 **Blood, Guns, and Testosterone** Barna William Donovan, 2009-11-02 Since the early days of film the representation of masculinity has changed considerably In the beginning men instinctively knew right from wrong They rode to the rescue and saved the day in the nick of time to the admiration and gratitude of society But over the decades heroes have evolved from being larger than life and infallible to being cynical washed up unwanted outsiders Violent content in these films also evolved from fistfights and gunplay to brutal attacks and nuclear explosions repeatedly ramping up in frequency intensity and graphic depictions But there is more to a violent film genre than violence and *Blood Guns and Testosterone* Action Films Audiences and a Thirst for Violence brings an entirely new understanding to the nature of such entertainment In this book Barna William Donovan examines masculinity and violence in action and adventure films and discusses how the most ardent fans of the genre incorporate this controversial form of entertainment into their lives Donovan argues that far from becoming violent the fans of the action film look at the genre as an artistic rumination on the nature of violence good and evil and the ever changing definitions of manhood At their very best or most interesting at least these films may even reflect on the nature of violence on human nature on aggression and how a self reflexive moral society can deal with violence And since so much of the violence of the world has always been perpetrated by men action films more often than not are contemplations of the complicated meaning of manhood In addition to fans of the genre *Blood Guns and Testosterone* will appeal to scholars of film history popular culture gender studies and audience research **Steven Soderbergh** Aaron Baker, 2011-04-01 A Hollywood director who blends substance with the mainstream Steven Soderbergh's feature films present a diverse range of subject matter and formal styles from the self absorption of his breakthrough hit *Sex Lies and Videotape* to populist social problem films such as *Erin Brockovich* and from the modernist discontinuity of *Full Frontal* and filmed performance art of *Gray's Anatomy* to a glossy star studded action blockbuster such as *Ocean's Eleven* Using a combination of realism and expressive

stylization of character subjectivity Soderbergh's films diverge from the contemporary Hollywood mainstream through the statements they offer on issues including political repression illegal drugs violence environmental degradation the empowering and controlling potential of digital technology and economic inequality Arguing that Soderbergh practices an eclectic type of moviemaking indebted both to the European art cinema and the Hollywood genre film Aaron Baker charts the common thematic and formal patterns present across Soderbergh's oeuvre Almost every movie centers on an alienated main character and Soderbergh has repeatedly emphasized place as a major factor in his narratives Formally he represents the unconventional thinking of his outsider protagonists through a discontinuous editing style Including detailed analyses of major films as well as two interviews with the director this volume illustrates Soderbergh's hybrid flexibility in bringing an independent aesthetic to wide audiences *International Who's Who of Authors and Writers 2004* Europa Publications, 2003
