Roger Shattuck The Innocent Eye On Modern Literature And The Arts:

The Innocent Eye Roger Shattuck, 1986 This collection of essays deals with politics theatricality and the dynamics of literary movements **Aristocracy and the Modern Imagination** Charles A. Riley, 2001 Modernism generally signifies the efforts of late 19th century European painters writers musicians and philosophers who consciously broke with tradition This is an examination of what that meant for those aristocrats who were also modernists **Modernism, Technology, and the Body** Tim Armstrong, 1998-02-28 This book is a study of the relations between the body and its technologies in modernism Tim Armstrong traces the links between modernist literary texts and medical psychological and social theory across a range of writers including Yeats Henry James Eliot Stein and Pound Armstrong shows how modernist texts enact experimental procedures which have their origins in nineteenth century psychophysics biology and bodily reform techniques but within a context in which the body is reconceived and subjected to new modes of production representation and commodification Drawing on a wide range of disciplines Armstrong challenges the received oppositions between technology and literature the instrumental and the aesthetic by demonstrating the leaky boundaries and complex interconnections between these domains This book offers a cultural history of modernism as it negotiated the enduring fact of the human body in a period of rapid technological change *The Grace and the Severity of the Ideal* Victor Kestenbaum, 2002-10 In this highly original book Victor Kestenbaum calls into question the oft repeated assumption that John Dewey's pragmatism has no place for the transcendent Kestenbaum demonstrates that far from ignoring the transcendent ideal Dewey's works on education ethics art and religion are in fact shaped by the tension between the natural and the transcendent Kestenbaum argues that to Dewey the pragmatic struggle for ideal meaning occurs at the frontier of the visible and the invisible the tangible and the intangible Penetrating analyses of Dewey's early and later writings as well as comparisons with the works of Hans Georg Gadamer Michael Oakeshott and Wallace Stevens shed new light on why Dewey regarded the human being's relationship to the ideal as the most far reaching question of philosophy For Dewey the pragmatic struggle for the good life required a willingness to surrender the actual experienced good for a possible ideal good Dewey's pragmatism helps us to understand the place of the transcendent ideal in a world of action and practice The Revolution in the Visual Arts and the Poetry of William Carlos Williams Peter Halter, 1994-07-29 This book is a major step toward a fuller exploration of the connection between the visual arts and Williams concept of the Modernist poem and of his achievement in transcending an art for art's sake formalism to create poems that both reflect their own nature as a work of art and vividly evoke the world of which they are a part

Eliot, Joyce, and Company Stanley Sultan, 1987 This study explores the relations of T S Eliot and James Joyce with certain antecedents such as Dante Flaubert and Baudelaire with contemporaries including Pound and Yeats and with their readers in order to illuminate the authors historic mutual venture in English literature The Renaissance in the Nineteenth Century Victoria University (Toronto, Ont.). Centre for Reformation and Renaissance Studies, 2003 The nineteenth century

witnessed rapid economic and social developments profound political and intellectual upheaval and startling innovations in art and literature As Europeans peered into an uncertain future they drew upon the Renaissance for meaning precedents and identity Many claimed to find inspiration or models in the Renaissance but as we move across the continent's borders and through the century's decades we find that the Renaissance was many different things to many different people This collection brings together the work of sixteen authors who examine the many Renaissances conceived by European novelists and poets artists and composers architects and city planners political theorists and politicians businessmen and advertisers The essays fall into three groups Aesthetic Recoveries of Strategic Pasts The Renaissance in Nineteenth Century Culture Wars and Material Culture and Manufactured Memories

The Revolutionary 'I' A. Nichols,1998-07-07 In the winter of 1798-99 shut up in the freezing German town of Goslar William Wordsworth began producing a series of lyrical fragments that appeared first in letters written to Coleridge and emerged eventually as source texts for *The Prelude* These lyrics are revolutionary because they construct a new version of the autobiographical I *The Revolutionary I* explores the numerous voices of the poetic speaker Wordsworth and their relationship to the historical figure who shared the same name

Sonic Modernity Sam Halliday,2013-03-14 Reveals the many roles and forms of sound in modernism Drawing on a wealth of texts and thinkers the book shows the distinctive nature of sonic cultures in modernity Arguing that these cultures are not reducible to sound alone the book further shows that these encompass representations of sound in other media especially literature but also cinema and painting Figures discussed include canonical writers such as Joyce Richardson and Woolf relatively neglected writers such as Henry Roth and Bryher and a whole host of musicians artists and other commentators including Wagner Schoenberg Kandinsky Adorno and Benjamin Conceptually as well as topically diverse the book engages issues such as city noise and foreign accents representations of sound in silent cinema the relationship of music to language and the effects of technology on sonic production and reception

The Word According to James Joyce Cordell D. K. Yee,1997 In his denial that language refers to anything but itself and in his undoing representation Joyce anticipates contemporary developments in the history of critical theory Contrary to modern criticism Joyce does not abandon representation the idea that language affords access to reality

Playing with Earth and Sky James Housefield,2016-07-05 *Playing with Earth and Sky* reveals the significance astronomy geography and aviation had for Marcel Duchamp widely regarded as the most influential artist of the past fifty years Duchamp transformed modern art by abandoning unique art objects in favor of experiences that could be both embodied and cerebral This illuminating study offers new interpretations of Duchamp's momentous works from readymades to the early performance art of shaving a comet in his hair It demonstrates how the immersive spaces and narrative environments of popular science from museums to the modern planetarium prepared paths for Duchamp's nonretinal art By situating Duchamp's career within the transatlantic cultural contexts of Dadaism and Surrealism this book enriches contemporary debates about the historical relationship

between art and science This truly original study will appeal to a broad readership in art history and cultural studies

Michel Tournier Michael Worton, 2014-09-19 This volume of essays brings together critical analysis and commentary on the literary work of Michel Tournier

The Modern Turn Michael Rohlf, 2017-12 What is the modern turn in philosophy In other words what are the features that make modern philosophy distinctively modern in contrast with the pre modern philosophy from which it emerged for example medieval scholasticism Renaissance philosophy and ancient Greek and Roman thought How did the modern turn in philosophy transpire That is what did specific philosophers contribute that shaped the distinctive character of modern philosophy The twelve essays in this volume seek to address these questions and in doing so they exemplify and contribute to a rich debate about the nature and value of modern philosophy This volume approaches the modern turn not as an event that occurred all at once but rather as a series of shifts in different areas of philosophy at different times The essays are arranged broadly in chronological order of the topics they treat Among the themes that recur most often in these essays are first that modern philosophy is characteristically preoccupied with questions about foundations and second that it ultimately prioritizes practice over theory But the virtues of this text is in presenting a wide range or perspectives on modern philosophy what constitutes it as modern when it arose and what its shortcomings may be

Crisis of Transcendence J. Sage Elwell, 2010-12-23 From the Internet to the iPhone digital technology is no mere cultural artifact It affects how we experience and understand our world and ourselves at the deepest levels it is a fundamental condition of living The digitization of modern life constitutes an essential field of religious concern because it impacts our individual and cultural sensibilities so profoundly Despite this it has yet to be thematized as the subject of religious or theological reflection The Crisis of Transcendence remedies this by asking a single significant question How is digital technology impacting the moral and spiritual depth of culture How can something as ineffable and nebulous as the depth of culture be known and articulated let alone critiqued Author J Sage Elwell suggests that an answer lies in the arts The arts have historically acted as a barometer of the depth of culture reflecting the spiritual impulses and inclinations at the heart of society He argues that if the arts matter at all they will illuminate more than themselves Through an experimental interpretation of digital art Elwell offers a critical reflection on how digital technology is changing us and the world we live in at a level of religious significance Employing a theological aesthetic of digital art this book shows how the advent of digital technology as a revolutionary cultural medium is transforming the ways we think about God the soul and morality

Imagery and Ideology William J. Berg, 2007 Literature is ostensibly a sequential and thus temporal medium and painting a static and spatial one yet writers like George Sand and Emile Zola have attempted repeatedly to represent visual and spatial phenomena in literary texts just as painters like Eugene Delacroix and Claude Monet have sought consistently to capture effects of time and movement on canvas The incorporation of elements from one artistic medium into another creates a dynamic interplay of image and ideology both between art forms and within individual texts and paintings which constitutes

the crux of this book Each chapter involves the detailed analysis of a text and a painting related through topic theme and technique By juxtaposing the works of ten major writers and ten painters of comparable stature the book explores the various modalities and layers of meaning in nineteenth century French art both verbal and visual and proposes ways of reading the ambivalent artifacts of modernity Illustrated **Poetry, Physics, and Painting in Twentieth-Century Spain** C.

Edson,2000 How reading literature through the lens of visual art sheds new light on the accomplishments of modernist and postmodernist writers The Smell of Books Hans J. Rindisbacher,1992 Demonstrates that sense of smell plays a significant role in the history of European literature

Rethinking the Political Simonetta Falasca-Zamponi,2011-12-19 Rethinking the Political demonstrates that the Coll ge de Sociologie s quest to create a new place for the sacred in modern collective life ostensibly entailed avoiding the theorization of both aesthetics and politics While the Coll ge condemned manipulation by totalitarian regimes its understanding of community also led to a rejection of democratic and communist forms of political organization leaving the group open to accusations of flirting with fascism Acknowledging these political ambiguities the author goes beyond a narrow ideological reading to reveal the Coll ge s important contribution to our thinking about the relationships between community formation politics aesthetics and the sacred in the modern world She expands her historical account of the members thought including their relationship to Surrealism beyond the group s dissolution and shows how the work of Claude Lefort extends but also resolves many of the Coll ge s key theoretical insights A fascinating study of some of the twentieth century s most daring thinkers Rethinking the Political offers crucial insights into the contradictions at play in modern notions of community that still resonate today The First Moderns William R.
