Role Of Human Sacrifice In The Ancient Near East:

The Role of Human Sacrifice in the Ancient Near East Alberto Ravinell Whitney Green,1975 *The Role of Human Sacrifice in the Ancient Near East* Alberto Ravinel Whitney Green,1982 *The Strange World of Human Sacrifice* Jan N. Bremmer,2007 The Strange World of Human Sacrifice is the first modern collection of studies on one of the most gruesome and intriguing aspects of religion The volume starts with a brief introduction which is followed by studies of Aztec human sacrifice and the literary motif of human sacrifice in medieval Irish literature Turning to ancient Greece three cases of human sacrifice are analysed a ritual example a mythical case and one in which myth and ritual are interrelated The early Christians were the victims of accusations of human sacrifice but in turn imputed the crime to heterodox Christians just as the Jews imputed the crime to their neighbours The ancient Egyptians rarely seem to have practised human sacrifice but buried the pharaoh s servants with him in order to serve him in the afterlife albeit only for a brief period at the very beginning of pharaonic civilization In ancient India we can follow the traditions of human sacrifice from the earliest texts up to modern times where especially in eastern India goddesses such as Kali were long worshipped with human victims In Japanese tales human sacrifice often takes the form of self sacrifice and there may well be a line from these early sacrifices to modern kamikaze The last study throws a surprising light on human sacrifice in China The volume is concluded with a detailed index

Human Sacrifice in Jewish and Christian Tradition Karin Finsterbusch,Armin Lange,2018-08-14 This volume asks to which extent ancient practices and traditions of human sacrifice are reflected in medieval and modern Judeo Christian times The first part of the volume on antiquity focuses on rituals of human sacrifice and polemics against it as well as on transformations of human sacrifice in the Israelite Jewish and Christian cultures while the Ancient Near East and ancient Greece are not excluded The second part of the volume on medieval and modern times discusses human sacrifice in Jewish and Christian traditions as well as the debates about euthanasia and death penalty in the Western world *Dictionary of Daily Life in Biblical & Post-Biblical Antiquity: Human Sacrifice* Edwin M. Series Library of Congress. Copyright Office,1978 **Self-Interest or Communal Interest** Elie Assis,2005-07-01 This book provides an extensive literary analysis of the Gideon Abimelech and Jephthah narratives in Judges 6 12 and discloses the main intention of these stories The book consists of three chapters each of which analyses the respective biblical narratives These narratives show the two parameters by which the Israelite leaders are examined namely their loyalty to God and their altruistic character A leader who prefers his own interest is doomed to his own demise and brings devastation upon his people Judges does not establish a preferred governmental model instead it considers the advantages and disadvantages of the different types of regimes In the epilogue it is suggested that these narratives are conveniently placed in the pre monarchic period when the question of the regime becomes part of the political debate The book of Judges offers criteria for the choice of the right leader **The Body as Property** Sandra Jacobs,2014-04-24 The Body As Property indicates that physical disfigurement functioned in biblical law to verify legal property acquisition when changes in the status of dependents were formalized It is based on the reality the cuneiform script in particular was developed in Sumer and Mesopotamia for the purpose of record keeping to provide legal proof of ownership where the inscription of a tablet evidenced the sale or transfer of property Legitimate property acquisition was as important in biblical law where physical disfigurements marked dependents in a similar way that the veil or the head covering identified a wife or concubine in ancient Assyrian and Judean societies This is primarily substantiated in the accounts of prescriptive disfigurements namely circumcision and the piercing of a slave s ear both of which were required only when a son or slave was acquired permanently It is further argued that legal entitlement was relevant also to the punitive disfigurements recorded in Exodus 21 22 24 and Deuteronomy 25 11 12 where the physical violation of women was of concern solely as an infringement of male property rights The World's Oldest Literature William W. Hallo,2010 Literature begins at Sumer we may say Given that this ancient crossroads of tin and copper produced not only bronze and the entire Bronze Age but also by necessity the first system of record keeping and the technique of writing Scribal schools served to propagate the new technique and their curriculum grew to create preserve and transmit all manner of creative poetry In a lifetime of research the author has studied multiple aspects of this most ancient literary oeuvre including such questions as chronology and bilingualism as well as contributing fundamental insights into specific genres such as proverbs letter prayers and lamentations In addition he has drawn conclusions for the comparative or contextual approach to biblical literature His studies widely scattered in diverse publications for nearly fifty years are here assembled in convenient one volume format made more user friendly by extensive cross references and indices *Early Christian Historiography* G. W. Trompf,2016-04-08 First Published in 2014 This book describes the developing application of retributive principles in historical narratives before Christ It assesses degrees of concern in the first history writers of the world s most widespread monotheistic tradition to discern divine justice in human affairs Critical Moments in Religious History Kenneth Keulman,1993 These critical essays examine ways in which

political culture interacts with the world's religions and within the context of religious pluralism. The authors raise the issue regarding the way religion affects political modernization and conversely how social and political realities may define and determine the boundaries of religion's. *Critical Moments in Religious History* addresses issues of vital concern religious and political theological and social issues that indeed remain critical. *Leviticus* Mark F. Rooker, 2000. In Volume 3 *Leviticus* is explored with scholarship clarity and depth. Technical discussions are moved to footnotes leaving the main text clear and direct. *Human Sacrifice and Value* Matthew J. Walsh, Sean O'Neill, Marianne Moen, Svein H. Gullbekk, Eva-Johanna Marie Lafuente Nilsson, 2023-10-26. The present volume was made possible by the Norwegian Research Council's generous funding of the Human Sacrifice and Value project FRIPROHUMSAM 275947. This volume explores concepts of human sacrifice focusing on its value or multiplicity of values in relative cultural and temporal terms whether sacrifice is expressed in actual killings in ideas revolving around ritualized sanctioned or sanctified violence or loss or in transformed and often sublimated undertakings. Bridging a wide variety of interdisciplinary perspectives it analyses a spectrum of sacrificial logics and actions daring us to rethink the scholarship of sacrifice by considering the oft hidden subliminal and even paradoxical values and motivations that underlie sacrificial acts. The chapters give needed attention to pivotal questions in studies of sacrifice and ritualized violence such as how we might employ new approaches to the existing evidence or revise long debated theories about what exactly human sacrifice is or might be or why human sacrifice seems to emerge so often and so easily in human social experience across time and in vastly different cultures and historical contexts. Thus the volume will strike a chord with scholars of sociology anthropology archaeology history religious studies political science and economics wherever interest is focused on critically rethinking questions of sacred and sanctified human violence and the values that make it what it is.

Death in the Iron Age II and in First Isaiah Christopher B. Hays, 2011. Death is one of the major themes of First Isaiah although it has not generally been recognized as such. Images of death are repeatedly used by the prophet and his earliest tradents. The book begins by concisely summarizing what is known about death in the Ancient Near East during the Iron Age II covering beliefs and practices in Mesopotamia Egypt Syria Palestine and Judah Israel. Incorporating both textual and archeological data Christopher B. Hays surveys and analyzes existing scholarly literature on these topics from multiple fields. Focusing on the text's meaning for its producers and its initial audiences he describes the ways in which the rhetoric of death functioned in its historical context and offers fresh interpretations of more than a dozen passages in Isa 5-38. He shows how they employ the imagery of death that was part of their cultural contexts and also identifies ways in which they break new creative ground. This holistic approach to questions that have attracted much scholarly attention in recent decades produces new insights not only for the interpretation of specific biblical passages but also for the formation of the book of Isaiah and for the history of ancient Near Eastern religions. **Biblical Narrative and the Formation of Rabbinic Law** Jane L. Kanarek, 2014-07-31. This book presents a new framework for understanding the relationship between biblical narrative and

rabbinic law Drawing on legal theory and models of rabbinic exegesis Jane L Kanarek argues for the centrality of biblical narrative in the formation of rabbinic law Through close readings of selected Talmudic and midrashic texts Kanarek demonstrates that rabbinic legal readings of narrative scripture are best understood through the framework of a referential exegetical web She shows that law should be viewed as both prescriptive of normative behavior and as a meaning making enterprise By explicating the hermeneutical processes through which biblical narratives become resources for legal norms this book transforms our understanding of the relationship of law and narrative as well as the ways in which scripture becomes a rabbinic document that conveys legal authority and meaning **1 and 2 Kings** John M. Monson,Iain

Traditional Techniques in Classical Hebrew Verse Wilfred G. E. Watson,1994-09-01 Before during and after the preparation of Classical Hebrew Poetry A Guide to its Techniques Wilfred Watson published several articles on Hebrew poetry in a wide range of periodicals The present volume collects together the most significant of these writings including a chapter from a book on chiasmus as well as a few unpublished items After an opening survey of current work on Hebrew

verse the articles cover the following topics parallelism including half line parallelism previously almost unnoticed antithesis word pairs chiasmus figurative language and introductions to speech in verse The last section deals with structural devices and a folktale motif in narrative verse hyperbole apostrophe and alliteration Previously unpublished items are on the contribution of ethnopoetics from the study of Native American literature to Hebrew narrative verse a new topic in biblical studies parallelism in the Song of Songs and a metaphor in Jeremiah This anthology is intended as a companion volume to Classical Hebrew Poetry It includes additions and corrections to that book and there are also several indices Sacrifice in the Bible Roger T. Beckwith, Martin J. Selman, 2004-04-20 The study of the theme of sacrifice is seen by many as peripheral not to say superfluous to the theological task The papers in this volume however given by members of the Biblical Theology study group of Tyndale Fellowship for Biblical and Theological Research bear witness to the centrality of the idea and practice of sacrifice in biblical religion Contributions cover the whole spectrum of the biblical treatment of the subject as well as survey its contemporary cultural and religious contexts whether Babylonian and Canaanite or Graeco Roman and Jewish The underlying goal of Sacrifice in the Bible is to ascertain how far the developed idea of sacrifice both as the pattern of human life and as the way of divine salvation in Christ is implicit in the ceremonial practice from which it arose

Scripture in Context II William W. Hallo, James C. Moyer, Leo G. Perdue, 1983 In the summers of 1978 and 1980 William W. Hallo directed two National Endowment for the Humanities Summer Seminars both of which had the title Biblical History in its Near Eastern Setting These seminars conducted at Yale University have now resulted in two related collections of essays This second collection Scripture in Context II had its origins in the 1980 seminar Both seminars investigated in chronological sequence the major phases of ancient Near Eastern history and focused on the history literary traditions and religion of ancient Israel within the context of her cultural environs A major concern was to recognize and explore the implications of the way in which the native biblical and extra biblical literary traditions rendered account of themselves The methodology followed in the seminars and the resulting essays is the contextual approach This approach to the study of biblical history literature and religion is concerned not only to discover illuminating and insightful parallels between biblical and extrabiblical sources but also to note and recognize the implications of significant and important differences Jacket
