Role Of The Academic Reference Librarian:

The Role of the Academic Reference Librarian Jo Bell Whitlatch, 1990-04-09 This volume examining key factors related to successful reference service practices provides librarians with an important and significantly different perspective on the reference process Author Jo Bell Whitlatch describes the major factors that need to be considered to obtain a comprehensive view of the reference process in academic libraries arguing that the understanding of the reference process can be enhanced by borrowing from current research in other disciplines that place an increasing emphasis on service organizations rather than on manufacturing organizations The book identifies major studies and theories related to how people who are served participate in organizations Further Whitlatch discusses how such studies can contribute to an understanding of the academic reference librarian's role In addition the study that constitutes a central part of *The Role of the Academic Reference Librarian* reports on the results of testing parts of a model of the reference process The material presented here is drawn from four principal sources the literature on reference service broader literature on service organizations from the disciplines of business psychology and sociology the author's professional experience and a detailed study of reference encounters in five academic libraries that assesses reference service effectiveness by focusing on the librarian's perception of the quality of service the library users perception of the quality of service and whether or not the information sought was located Included are tables and figures that graphically enhance the text For academic librarians and library researchers the volume will serve as a guide to designing studies of reference services that will add to the present understanding of the subject Graduate students in library and information science will find this handbook indispensable for the successful practice of reference services

Reading and the Reference Librarian Juris Dilevko, Lisa Gottlieb, 2003-11-26 Reference librarians are no longer expected to know much about the information they find they are merely expected to find it Technological competency rather than knowledge has become the order of the day In many respects reference service has become a matter of typing search terms into a library's online catalog or a web search engine and providing the patron with the results of the search Calling for a re intellectualization of reference librarianship this book suggests another approach to providing quality reference service reading The authors surveyed both academic reference librarians and public library reference personnel in the United States and Canada about their reading habits From the 950 responses the authors present findings about the extent to which librarians read newspapers periodicals fiction and nonfiction and recount and analyze stories about how reading has made them better librarians The authors also report that North American professors in the humanities and social sciences believe that the best reference librarians are those who have wide ranging subject based knowledge as opposed to the type of process based functional knowledge that is increasingly dominating the curricula of many Library and Information Science programs

The Reference Librarian and Implications of Mediation M. Keith Ewing, Robert Hauptman, 2019-12-05 This book first published in 1992 examines the reference librarian's role as a connecting

link between information seekers and the resources they need. It provides the best approaches to providing resolutions or guidance to the appropriate resources. It analyses librarians' reference skills, communication abilities, accuracy in responding to specific inquiries, and sensitivity to various groups such as paraprofessionals and non-traditional patrons. This provocative book encourages librarians to go beyond merely providing an answer or resource to helping clients better understand the physical surroundings, the social or educational context, and the ethical, political, and economic climate in which the process takes place.

Career Transitions for Librarians Davis, Erin Anderson, Raymond Pun, 2016-05-02. What if you were a public librarian and then you wanted to become an academic librarian? How different are those worlds, and how would you know what kind of skills or experiences you need to get your foot into the academic door? *Career Transitions for Librarians: Proven Strategies for Moving to Another Type of Library* explores the multifaceted roles of the librarian profession from personal narratives of professional librarians who have successfully worked and transitioned from one type of library to another. Learn the successful strategies and stories of librarians who transitioned from public to academic libraries, school media to academic libraries, public to special libraries, print to digital worlds, among other ones. What kinds of skill sets and experiences were they able to transfer or draw on from their previous work experiences? How can you make these successful transitions as well? From interview tips to developing relevant and transferable skill sets, this unique guide offers testimonials with a targeted advice and job strategies for readers interested in making these successful transitions during a time when there is a huge difficulty in securing a library job.

Continuing Education of Reference Librarians William A. Katz, 1990. Here is a crucial book on the neglected issue of continuing education of reference librarians. For librarians seeking to enhance and maintain a high level of quality reference work and for managers who must assure that their staffs receive the basics in continuing education, this is essential reading. *Continuing Education of Reference Librarians* addresses the concerns of all librarians that they must be informed and educated in order to excel in their work. In the first several chapters of this comprehensive volume on the job, librarians focus on the increased need for nontraditional approaches to continuing education and training of reference staff. They offer practical ways of making additional training both useful and relatively easy to carry out within the library setting. Teachers of reference offer suggestions for contending with current formal courses, and they also examine the responsibilities of not only the reference librarian but also the bibliographer and faculty member in staying abreast of current trends. Also in this broad-based look at continuing education is a list of critical skills most librarians expect of their reference people, including reference interview techniques, mastery of basic reference sources, and an understanding of new technologies, a review of the most revolutionary change in teaching

reference librarianship in the last 100 years the online search and a discussion on ethics including the need for librarians to be aware of the basic documents of the American Library Association and more importantly the need to treat all library users equally in terms of access and service regardless of status and personal prejudice Continuing Education of Reference Librarians focuses on specific types of training for librarians Authorities explain pioneering programs in California and Maryland which deal with teaching basic reference tools to beginning librarians and paraprofessionals They also discuss the role of multitype networks in continuing education as the most cost and time efficient means available today and the use of self directed contract learning as a method that requires long term planning and rewards in contrast to the immediate results of a short term plan of education The management perspective of continuing education is also included Working library directors offer their observations on sound inspirational approaches to continuing education They also examine the critical role department heads play as mentor to beginning reference librarians *Doing the Work of Reference* Linda S
