Literature ,1910 A Case for Change in Teacher Preparation Julie Gorlewski, Amanda Winkelsas, Suzanne N. Rosenblith, Corrie Stone-Johnson, Elisabeth Etopio, David Gorlewski, Tiffany Karalis Noel, Bobbie Finocchio, Amanda Seccia, Ling Zhai, Erin Kearney, Xiufeng Liu, Nooshin Shafaei, Tanika Shedrick, 2021-08-19 Why are preservice teachers often told by veteran teachers to forget what you learned in teacher preparation programs Why is there a gap between pedagogical practices employed at schools and those taught at colleges and universities And why after evidence from countless studies are there still so few teachers of color working in our rapidly diversifying schools. These guestions are addressed in this book which describes a reconceptualized teacher preparation program based on a teacher residency model This model is grounded in three core beliefs first that teacher quality is a shared responsibility between universities and school districts second that all students have a right to high quality teachers who are as racially ethnically and linguistically diverse as the students they teach and third that for education to be transformative future educators must have the right balance of theoretical knowledge and practical experiences grounded in specific contexts Through a combination of rich description and qualitative and quantitative program data the authors make the case that university programs focused on the communities they serve can ensure more effective learner ready teachers who remain in the profession longer By providing a detailed blueprint for program development the contents of this book will be of value and interest to educational leaders policy makers and researchers (Re) Designing Programs: Jennifer Jacobs, Rebecca West Burns, 2021-04-01 Given the increasing diversity of the United States and students entering schools the value of teacher learning in clinical contexts and the need to elevate the profession national organizations have been calling for a re envisioning of teacher preparation that turns teacher education upside down This change will require PK 12 schools and universities to partner in robust ways to create strong professional learning experiences for aspiring teachers University faculty in particular will not only need to work in schools but they will need to work with schools in the preparation of future teachers This collaboration should promote greater equity and justice for our nation s students The purpose of this book is to support individuals in designing clinically based teacher preparation programs that place equity at the core Drawing from the literature as well as our experiences in designing and coordinating award winning teacher education programs we offer a vision for equity centered clinically based preparation that promotes powerful teacher professional learning and develops high quality equity centered teachers for schools The chapter topics include policy guidelines partnerships intentional clinical experiences coherence curriculum and coursework university based teacher educators school based teacher educators teacher candidate supervision and evaluation the role of research and instructional leadership in teacher preparation While the concepts we share are research based and grounded in the empirical literature our primary intention is for this book to be of practical use We hope that by the time you finish reading you will feel inspired and equipped to make change within your own program your institution and your local context We begin each chapter with a Before You Read section that includes introductory activities or self assessment

questions to prompt reflection about the current state of your teacher preparation program We also weave examples a Spotlight from Practice in the form of vignettes designed to spark your thinking for program improvement Finally we conclude each chapter with a section called Exercises for Action which are questions or activities to help you re imagine and move toward action in the re design of your teacher preparation program We hope that you will use the exercises by yourself but perhaps more importantly with others to stimulate conversations about how you can build upon what you are already doing well to make your program even better Praise for Re Designing Programs A Vision for Equity Centered Clinically Based Teacher Preparation Jennifer Jacobs and Rebecca West Burns book Re Designing Programs A Vision for Equity Centered Clinically Based Teacher Preparation is a must read for all teacher educators especially those involved in the creation and or direction of clinically based teacher education programs Their text provides a roadmap for higher education and school based teacher educators to collaboratively design a program that prepares teachers to meet the needs of future students They not only redefine the terms and language we use within clinical practice programs but also encourage us to reflect upon how teachers should be prepared in an equity centered clinically based teacher education program Their text deserves to be on the book shelves of all teacher educators D John McIntyre The Struggle for the Soul of Teacher Education Kenneth M. McCorvey, 2022-02-01 Supervision in teacher education is entering an exciting time In the last decade national reports calling for the transformation of teacher preparation have advocated for greater school university collaboration and increased clinical preparation of teachers AACTE 2018 NCATE 2010 Thus institutions with teacher preparation should be increasingly concerned with the clinical component of their teacher certification programs AACTE 2010 2018 NCATE 2001 NEA 2014 However supervision in teacher preparation has historically been held in low regard Beck Feiman Nemser 2001 The Holmes Group 1986 Hoover O Shea Soder Burns Jacobs Darling Hammond 2014 Gimbert Lee 2011 In fact university supervisors may be the most undervalued actors in the entire teacher preparation equation when one considers the knowledge skills and dispositions they must have to teach about teaching in the field Burns NCATE 2010 Slick 1998 Zeichner 1992 2005 These practices are incredibly problematic for actualizing clinically based teacher education Thus the road to transforming teacher education must involve addressing such long standing misperceptions about what supervision is what purpose it serves and how it can be renewed from an afterthought to become the driving engine of high quality teacher preparation Advancing Supervision in Clinically Based Teacher Education Advances Opportunities and Explorations aims to elevate supervision and supervisors as undervalued actors by disseminating high quality manuscripts on this critical area of study. The chapters in this book tackle the persistent issue of devaluing and marginalizing supervision in some institutions of higher education by sharing current research illuminating challenges of supervising in the current high stakes accountability climate and offering innovative ideas that can improve supervision in clinically based teacher education
