The Safety of Elderly Drivers includes penetrating comments from elderly drivers who have been involved in serious accidents and from random elderly drivers speaking for their generation of drivers. Integrating statistical findings based on Motor Vehicle Department accident data and survey data with comprehensive interviews and discussions with elderly drivers, the book provides an empirically grounded in-depth view of the elderly driver today. Serving the Elderly Paul Kim, 2017-07-12. Broadly speaking, there are two kinds of professional practice skills relevant to the burgeoning field of gerontological human service: clinical modalities and macro strategies. This book identifies seven essential approaches to clinical gerontology, including five of the most important macro skills that all professionals in the field will need to acquire, and it presents each of them in a single collection intended to serve as a basic text and reference work for academic and in-service training. Each contributor to this volume speaks with recognized expertise on his/her preferred subject while mindful of the larger purpose of the collection as a whole. In a concluding chapter, Dr. Kim draws on his own long and successful experience in obtaining financial support for his programs and provides a wealth of useful information on the preparation of grant proposals and the conduct of other fundraising activities. *Serving the Elderly* is adaptable to the uses of a wide variety of geriatric health care providers, from students and trainees in social work, clinical psychology, and other care-giving professions to already established practitioners who are branching out in gerontology.

From the President of the Research Society on Alcoholism: The field of alcohol research has been slowly but continuously evolving, taking into its domain an ever-increasing array of scientific disciplines. This series

is designed to fill the need for a review publication that covers the broad range of research into alcohol actions and alcoholism Research in alcohol concerns social epidemiological and legal concerns in addition to biomedical and behavioral topics to greater degree than research with many other drugs A publication devoted to alcohol research should serve the broadest existing research community but perhaps more important it should also provide a means to recruit new investigators with fresh approaches to the field We can and must demonstrate that legitimate high quality research is being done but we must also highlight the opportunity for new workers to make a real impact on the problem The Research Society on Alcoholism seeks to provide such a service not only through this publication but also through other activities Richard A
