*The Santa Claus Document* Dale Urbanowicz, 2009-10-28 For hundreds of years the story of Santa Claus and his reindeer have endeared many people the world over Parents and children alike have loved the story But for all my cognitive years I have had trouble accepting some parts of the story You see as I grew older and wiser I started doubting some of the storylines For instance I questioned how was it that Santa could put all those gifts of all the children of the world into that tiny sleigh Why the weight of the gifts alone would crush the sleigh to pulp Or how can a reindeer fly Questions like that and others bothered me no end I needed answers So in my search for the answers to my questions I would probe my parents to explain to me just how could Santa Claus do things that ordinary people like you and me could not do Like slide down chimneys without getting dirty But alas my curiosity was never quelled by their feeble answers So I was left to myself to find my own answers or forever go unsatisfied in life This is why with great relief I was

informed of a certain document that was being kept by the North Pole Times that contained the answers to all my boyhood questions regarding this jolly old red suited elf I cannot reveal my source of information so don't ask for names Suffice it to say that the information was true and I was able to get hold of this paper So now with permission from all parties involved I pass on to you the world the information you need to answer the tough questions that YOUR children will be asking of you Now without further delay reprinted in its entirety is the interview of Santa Claus and Zeke the North Pole Times reporter

**The Santa Claus Man** Alex Palmer, 2015-10-01 The true story of John Duval Gluck Jr who in 1913 founded the Santa Claus Association which had the sole authority to answer Santa's mail in New York City He ran the organization for 15 years gaining fame for making the myth of Santa a reality to poor children by arranging for donors to deliver the toys they requested until a crusading charity commissioner exposed Gluck as a fraud The story is wide in scope interweaving a phony Boy Scout group kidnapping stolen artwork and appearances by the era's biggest stars and New York City's most famous landmarks The book is both a personal story and a far reaching historical one tracing the history of Christmas celebration in America and the invention of Santa Claus *Santa Claus* Letlhokwa George Mpedi, 2020-11-30 The origins of Santa Claus or so I am told is that the young Bishop Nicholas secretly delivered three bags of gold as dowries for three young girls to their indebted father to save them from a life of prostitution Armed with immortality a factory of elves and a fleet of reindeer his has been a lasting legacy inextricably linked to Christmas Of course this Christmas looks a little different Amidst a global pandemic shimmying down the chimneys of strangers certainly does not adhere to social distancing guidelines Some borders remain closed and in some instances the quarantine period is far too long After all he only has 24 hours to spread cheer across the world As with the rest of us Santa Claus is likely to get the remote working treatment The reindeers this year are likely to be self driving reminiscent of an Amazon swarm of technology and the naughty and nice lists are likely to be based on algorithms derived from social media accounts In the age of the fourth industrial revolution it is difficult to imagine that letters suffice anymore How many posts were verified as real before shared Enough to get you a drone Fake news Here is a lump of coal Will we see elves in personal protective equipment PPE and will Santa Claus high risk because of age and his likely comorbidities from the copious amount of cookies have to self isolate in the North Pole In fact will there be any toys at all this year Surely production has been stalled with the restrictions on imports and exports into the North Pole Perhaps there is a view to outsourcing or perhaps there is a shift towards local production and supply chains More importantly as we have done in many instances in this period maybe we should pause to reflect on the current structures in place The sanctification of a figure so clearly dismissive of the Global South and to be critical quite classist must be called into question From some of the keenest minds the contributions in this book make a strong case against this holly jolly man We traverse important topics such as is the constitution too lenient with a clear intruder who has conveniently branded himself a Good Samaritan Allegations of child labour under the guise of elves blatant animal cruelty constant surveillance in stark contrast to

many democratic ideals and his possible threat to national security come to the fore Nevertheless as the song goes he is aware when you are asleep and he knows when you are awake Is feminism a farce to this beloved man what role does Mrs Claus play and why are there inherent gender norms in his toys Then is the worry of closed borders and just how accurate his COVID 19 tests are Of course this brings his ethics into question While there is an agreement that transparency justice and fairness nonmaleficence responsibility and privacy are the core ethical principles the meaning of these principles differs particularly across countries and cultures Why are we subject to Santa Claus notions of good and evil when he is so far removed from our context As Richard Thaler and Cass Sunstein would tell you this is fundamentally a nudge from Santa Claus for children to fit into his ideals A nudge coined by Thaler is a choice that predictably changes people s behaviour without forbidding any options or substantially changing their economic incentives Even with pinched cheeks and an air of holiday cheer Santa Claus has to come under scrutiny In the process of decolonising knowledge and looking at various epistemologies does Santa still make the cut
