

"Anyone who wants to know the best in contemporary poetry can't do better than start with Timothy Steele. Among those younger American poets still working in time-scarce forms, he stands clearly preeminent. For all their technical brilliance, how so rare, these poems don't merely show off; they say intelligent things triumphantly, in words that look dug in to endure."

—X. J. Kennedy

"Timothy Steele seems to me one of the very best young poets now writing. He has an easy, unforced mastery of form...and that truth and warmth of feeling which is sometimes denied to the formalist; and he has an exceptional range of themes and tone, encompassing the homely and the sophisticated."

—Richard Wilbur

"Timothy Steele's poems are energetic at all points, and good without being heavy. I can't think of any poet active in this country who writes constant poetry so well. He speaks to me as a contemporary, and I never feel he has chosen to do so in meter for any other reason than that by doing so he can make his speech more forceful."

—Thom Gunn

Poetry Los Angeles Laurence Goldstein, 2014-03-12 A look at the poetry of one of America's most populous and fascinating cities with poems spanning from 1942 to 2012 **Encyclopedia of American Poetry: The Twentieth Century**

Eric L. Haralson, 2014-01-21 The Encyclopedia of American Poetry The Twentieth Century contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics, schools or periods of American verse in the century. Entries fall into three main categories: poet entries which provide biographical and cultural contexts for the author's career; entries on individual works which offer closer explication of the most resonant poems in the 20th century canon; and topical entries which offer analyses of a given period of literary production, school, thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States. *The Cambridge History of American Literature: Volume 8, Poetry and Criticism, 1940-1995* Sacvan Bercovitch, Cyrus R. Little remains today of her writings which are said to have filled nine papyrus rolls in the great library at Alexandria some 500 years after her death. The surviving texts consist of a lamentably small and fragmented body of lyric poetry among them poems of invocation, desire, spite, celebration, resignation and remembrance that nevertheless enables us to hear the living voice of the poet. Plato called the tenth Muse. This is a new translation of her surviving poetry.

Conversant Essays James McCorkle, 1990 **Toward the Winter Solstice** Timothy Steele, 2006 Toward the Winter Solstice features the author's characteristic grace, wit and power while extending his range. Short lyrical, descriptive and contemplative poems are accompanied by several middle-length pieces that read almost like compressed novels.

Pater, 1988 **A History of British, Irish and American Literature** Hans-Peter Wagner, 2021-10-04 The third revised and enlarged edition contains discussions of British, Irish and American literary works up to 2020. Focussing on outstanding writings in prose, poetry, drama and non-fiction, the book covers the time from the Anglo-Saxon period to the 21st century. The feature that makes this literary history unique among its rivals is the coverage of television, web series as a particular form of postmodern drama. The chapters on recent drama now contain detailed analyses of the development of TV and web series from Britain, Ireland and America with extensive discussions of those series now considered classics.
