Sarah Kingston

Sarah Format Audio:

The Sarah Siddons Audio Files Judith Pascoe, 2013-03-01 The theatre scholar's daunting but irresistible quest to recover some echoes of performance of the past has never been more engagingly presented than in Pascoe's account of tracing the long silenced voice of Sarah Siddons. Her report is a warm, witty and highly informative exploration of the methodology and the pleasures of historical research. Marvin Carlson, author of *The Haunted Stage: The Theatre as Memory Machine*. During her lifetime 1755-1831 English actress Sarah Siddons was an international celebrity acclaimed for her performances of tragic heroines. We know what she looked like: an endless number of artists asked her to sit for portraits and sculptures, but what of her famous voice? Reported to cause audiences to hyperventilate or faint. In *The Sarah Siddons Audio Files* Judith Pascoe takes readers on a journey to discover how the actor's voice actually sounded. In lively and engaging prose Pascoe retraces her quixotic search which leads her to enroll in a Voice for Actors class to collect Lady Macbeth voice prints and to listen more carefully to the soundscape of her life. Bringing together archival discoveries, sound recording history and media theory, Pascoe shows how romantic poets' preoccupation with voices is linked to a larger cultural anxiety about the voice's ephemerality. *The Sarah Siddons Audio Files* contributes to a growing body of work on the fascinating history of sound and will engage a broad audience interested in how recording technology has altered human experience.

The Acquisition of Scrambling and Cliticization S.M. Powers, C. Hamann, 2013-04-17 This collection of papers investigates two specific linguistic phenomena from the point of view of first and second language acquisition. While observations on the acquisition of scrambling or pronominal clitics can be found in the literature up until the recent past, they were sparse and often buried in other issues. This volume fills a long existing gap in providing a collection of articles which focus on language acquisition but at the same time address the overarching syntactic issues involved, for example the X-bar status of clitics, base generation vs. movement accounts of scrambling. This volume contains an overview of L1 and in one case L2 acquisition data from a number of different languages including Bernese Swiss German, Dutch, English, French, German, Italian, Spanish and Swedish, as well as from several theoretical points of view with these two clause internal processes at its center. These language acquisition data are considered to be crucial in the validation of analyses of these specific linguistic phenomena in adult grammars. The contributions in this volume include the earliest thoughts in this vein and for this reason should be viewed as a starting point for discussions within theoretical linguistics and language acquisition alike. **My Xbox**

Audio Video Tape Sourcebook ,1984 *Digital Audio Essentials* Bruce Fries,Marty Fries,2005 A comprehensive guide to creating recording editing and sharing music and other audio Cover

The Untold Story of the Talking Book Matthew Rubery,2023-01-18 A history of audiobooks from entertainment rehabilitation for blinded World War I soldiers to a twenty first century competitive industry Histories of the book often move straight from the codex to the digital screen Left out of that familiar account are nearly 150 years of audio recordings Recounting the fascinating history of audio recorded literature Matthew Rubery traces the path of innovation from Edison s recitation of Mary Had a Little Lamb for his tinfoil phonograph in 1877 to the first novel length talking books made for blinded World War I veterans to today s billion dollar audiobook industry The Untold Story of the Talking Book focuses on the social impact of audiobooks not just the technological history in telling a story of surprising and impassioned conflicts from controversies over which books the Library of Congress selected to become talking books yes to Kipling no to Flaubert to debates about what defines a reader Delving into the vexed relationship between spoken and printed texts Rubery argues that storytelling can be just as engaging with the ears as with the eyes and that audiobooks deserve to be taken seriously They are not mere derivatives of printed books but their own form of entertainment We have come a long way from the era of sound recorded on

wax cylinders when people imagined one day hearing entire novels on mini phonographs tucked inside their hats Rubery tells the untold story of this incredible evolution and in doing so breaks from convention by treating audiobooks as a distinctively modern art form that has profoundly influenced the way we read Praise for The Untold Story of the Talking Book If audiobooks are relatively new to your world you might wonder where they came from and where they're going And for general fans of the intersection of culture and technology The Untold Story of the Talking Book is a fascinating read Neil Steinberg Chicago Sun Times Rubery explores 150 years of the audio format with an imminently accessible style touching upon a wide range of interconnected topics Through careful investigation of the co development of formats within the publishing industry Rubery shines a light on overlooked pioneers of audio Rubery's work succeeds in providing evidence to move beyond the reductive debate on whether audiobooks really count as reading and establishes the format's rightful place in the literary family Mary Burkey Booklist starred review

Finding Your Voice in Radio, Audio, and Podcast Production Rob Quicke, 2023-12-19 This book provides a unique identity centered approach to radio audio and podcast production which encourages readers to build their confidence and create audio content that matters to them Written for those just starting out in audio production and focusing on the process of their self development readers will learn how to use sound to express themselves in a variety of ways and to create powerful stories in the process all with the tools already available to them At the centre of this approach is the author's R E A L method referring to the creation of audio that is relatable engaging authentic and liberating Students will learn to apply this concept to each step of the production process from planning and writing through to interviewing broadcasting and responding to feedback By the end of this book readers will have developed a working knowledge of podcast audio and radio production alongside their own means of self expression Supported by exercises and interviews with audio practitioners throughout Finding Your Voice in Radio Audio and Podcast Production is a key resource for anyone approaching radio audio or podcasting for the first time A supporting companion website with Instructor and Student Resources is available at www.robquicke.com

Book Wars John B. Thompson, 2021-03-04 This book tells the story of the turbulent decades when the book publishing industry collided with the great technological revolution of our time From the surge of ebooks to the self publishing explosion and the growing popularity of audiobooks Book Wars provides a comprehensive and fine grained account of technological disruption in one of our most important and successful creative industries Like other sectors publishing has been thrown into disarray by the digital revolution The foundation on which this industry had been based for 500 years the packaging and sale of words and images in the form of printed books was called into question by a technological revolution that enabled symbolic content to be stored manipulated and transmitted quickly and cheaply Publishers and retailers found themselves facing a proliferation of new players who were offering new products and services and challenging some of their most deeply held principles and beliefs The old industry was suddenly thrust into the limelight as bitter conflicts erupted between publishers and new entrants including powerful

new tech giants who saw the world in very different ways The book wars had begun While ebooks were at the heart of many of these conflicts Thompson argues that the most fundamental consequences lie elsewhere The print on paper book has proven to be a remarkably resilient cultural form but the digital revolution has transformed the industry in other ways spawning new players which now wield unprecedented power and giving rise to an array of new publishing forms Most important of all it has transformed the broader information and communication environment creating new challenges and new opportunities for publishers as they seek to redefine their role in the digital age This unrivalled account of the book publishing industry as it faces its greatest challenge since Gutenberg will be essential reading for anyone interested in books and their future

The Broadcast Journalism Handbook Gary Hudson, Sarah Rowlands, 2018-10-26 This exciting and comprehensive text takes students trainees and professionals into the world of the modern day newsroom covering both key techniques and theory in detail The second edition has been revised and updated to include all the technical regulatory and theoretical advances in recent broadcast custom and practice and is influenced by newsrooms around the country Main features Complete coverage of all the key skills news gathering interviewing writing and story telling live location reporting online editing graphics and presentation Expert advice and contributions from leading broadcast journalists from the BBC ITV and Sky News The Essential Guide a section on how to get a job the law and an up to date glossary of broadcasting terms Workshops and Exercises which provides the opportunity to practise key skills Case Study A Closer Look and Thinkpiece boxes help put the theory into context Remember and Tip boxes summarise key concepts and offer guidance Downloadable resources demonstrating filming techniques and editing ideas New for the second edition Greater emphasis on online elements of broadcast journalism and the role of social media in news gathering A focus on the interactive nature of the contemporary news process how to find user generated content empower audiences and engage listeners and viewers The key skills required for students taking the new NCTJ Broadcast Journalism exams Ideal for students on journalism courses at all levels this text is also useful for professionals and trainees working in broadcast print and other media and those looking at broadcast journalism in the wider context of media studies

Jihadism Revisited Rüdiger Lohlker, Tamara Abu-Hamdeh, 2019-11-19 Studying Jihadism is an endeavor facing several problems For many researchers and the reading public it is difficult to accept that Jihadists do have a theology of their own and not some kind of ideology Understanding that a phenomenon of communication that is done to a large extent in Arabic is not to be understood if research is done communication translated into or written in English Saying it is al out there in the Internet without understanding Internet communication will help to understand terrorist phenomena like Jihadism Ignoring that there is Jihadism IS and al Qa ida will guarantee that research will not be able to see the broad range of Jihadism Last but not least research not interested in the technologies practices etc Jihadists use to commit terrorist attacks cannot claim to study Jihadism The contributions in this book provide knowledge in all these fields based on Arabic language sources theological aspects Internet communication

groups usually ignored the role of infographics technical aspects and covert and intelligence actions

Prostitution in the Community Sarah Kingston, 2013-10-15 Prostitution often causes significant anxiety for communities These communities have been known to campaign against its presence in their neighbourhoods seeking the removal of street sex workers and their male clients Although research and literature has begun to explore prostitution from the standpoint of the community there is no comprehensive text which brings together some of the current literature in this area This book aspires to cast light on some of this work by exploring the nature extent and visibility of prostitution in residential communities and business areas considering the legal and social context in which it is situated and the community responses of those who live and work in areas of sex work This book aims to examine current literature on the impacts of prostitution in residential areas and considers how different policy approaches employed by the police and local authorities have mediated and shaped the nature of sex work in different communities It explores what communities think about prostitution and those involved as well as studies the techniques and strategies communities have utilized to take action against prostitution in their neighbourhoods This book will also demonstrate the diversity of public attitudes action and reaction to prostitution in the community This book is a useful contribution for academics and researchers in the fields of Criminology and Sociology who wish to understand current policy initiatives surrounding the issue of prostitution in local national and international community settings

Cambridge IGCSE® Computer Science Coursebook Sarah Lawrey, Donald Scott, 2015-11-12 This resource is written to follow the updated Cambridge IGCSE Computer Science syllabus 0478 with examination from June and November 2016

Storytelling for Interactive Digital Media and Video Games Nicholas B. Zeman, 2017-04-07 The evolution of story telling is as old as the human race from the beginning when our ancestors first gathered around a campfire to share wondrous tales through oral traditions to today with information and stories being shared through waves and filling screens with words and images Stories have always surrounded us and united us in ways other disciplines can't Storytelling for Interactive Digital Media and Video Games lays out the construct of the story and how it can be manipulated by the storyteller through sound video lighting graphics and color This book is the perfect guide to aspiring storytellers as it illustrates the different manner of how and why stories are told and how to make them interactive Storytelling features heavy game development as a method of storytelling and delivery and how to develop compelling plots characters settings and actions inside a game The concept of digital storytelling will be explored and how this differs from previous incarnations of mediums for stories Key Features Explores the necessary elements of a story setting character events sequence and perspective and how they affect the viewer of the story Discusses media and its role in storytelling including images art sound video and animation Explores the effect of interactivity on the story such as contest TV web based storytelling kiosks and games Shows the different types of story themes in gaming and how they are interwoven Describes how to make games engaging and rewarding intrinsically and extrinsically
