Sartre And Psychology Review Of Existential Psychology Psychiatry Vol Xvii No 1 198081:

Review of Existential Psychology & Psychiatry, 1986 *Sartre and Psychology* Keith Hoeller, 1983 *Readings in Existential Psychology & Psychiatry* Keith Hoeller, 1990 **Sartre's Philosophy and the Challenge of Education** Hayim Gordon, Rivca Gordon, 2001 This study draws on a wide range of Sartre's writings early and late both philosophical and literary to create a Sartre-inspired philosophy of education. It highlights the need to give priority to questioning rather than to passivity, excellence rather than success, the avoidance of a kind of objectivity that precludes making moral judgements and condemning evil.

Simone de Beauvoir Writing the Self Jo-Ann Pilardi, 1999-01-30 The development of Simone de Beauvoir's notion of self in both her philosophical and autobiographical writings is analyzed in this volume. Two ideas of the self are isolated: the existential notion of the self and the gendered self which she developed in *The Second Sex* and which represents a major departure from existential philosophy. Beginning with a study of her early essays, the author proceeds to discuss Beauvoir's major philosophical works and her autobiographical writings where three personae emerge: the child, the woman in love, and the writer. This analysis highlights the innovative quality of Beauvoir's thought. It also shows that writing an autobiography can be a philosophically inventive enterprise and one in which Beauvoir created her most profound analysis of the self.

Sartre Michel Rybalka, Michel Contat, 1993 **Hypatia** William Musgrave Calder, Ulrich K. Goldsmith, Phyllis B. Kenevan, 1985 **La Petite revue de philosophie**, 1984 *Who's who in America*, 1995 **Sartre and Psychology** Keith Hoeller, 1983 **Existential Psychoanalysis** Jean-Paul Sartre, 1962 Sartre criticizes modern psychology in general and Sigmund Freud's determinism in particular and proposes an existential psychology to correct modern psychology's flaws.

Sartre's Existential Psychoanalysis Mary Edwards, **Existential Psychoanalysis** Jean-Paul Sartre, 1962 Sartre's Existential Psychoanalysis Mary Edwards, 2022-10-20 Western philosophical orthodoxy places many aspects of other people's lives outside the scope of our knowledge. Demonstrating an alternative to this view, however, this book argues that Jean-Paul Sartre's application of his unique psychoanalytic method to Gustave Flaubert is the culmination of his project to show that it is possible to know everything there is to know about another person. It examines how Sartre aims to revolutionize our way of thinking about others by presenting his existential psychoanalysis as the means to knowledge of both ourselves and others. By so doing, it highlights how his determination to solve the longstanding philosophical conundrum about other minds drives him not only to incorporate insights from Descartes, Hegel, Husserl, Freud, Marx, and Beauvoir into his philosophy but also to supplement and enhance his philosophy through the development and application of a new form of psychoanalysis. Sartre's Existential Psychoanalysis integrates for the first time Sartre's psychoanalysis into his overarching philosophical project. By offering a critical interrogation of the role his psychoanalytical studies played in the development of his existentialism, Mary Edwards uncovers the overlooked philosophical significance of his existential psychoanalysis and brings it into a new and productive dialogue with current research in the fields of philosophy, psychology, and psychotherapy.
