Sartre And Marxist Existentialism The Test Case Of Collective Responsibility:

Sartre and Marxist Existentialism Thomas R. Flynn, 1986-10-15 In this important book Thomas R. Flynn reinterprets and evaluates Sartre's social and political philosophy arguing that the existential ethics of Sartre's early phase is consistent with the Marxist inspired views of his later writings. Displaying his mastery of Sartre's entire corpus, Flynn reconstructs Sartre's social ontology with its sensitive balance of the existentialist's respect for moral responsibility and the Marxist's sense of social causation. Flynn focuses on the issue of collective responsibility as a particularly apt test case for assessing any proposed union of existentialist and Marxist perspectives. The study begins with an examination of the uses of responsibility in *Being and Nothingness* and in several postwar essays. Flynn then concentrates on the *Critique of Dialectical Reason*, offering a thorough analysis of the remarkable social theory Sartre constructs there. A masterful contribution to Sartre scholarship, *Sartre and Marxist Existentialism* will be of great interest to social and political philosophers involved in the debate over collective responsibility.

Sartre and Marxist Existentialism Thomas B. Flynn, 1984 The Routledge Handbook of Collective Responsibility Saba Bazargan-Forward, Deborah Tollefsen, 2020-04-19 The Routledge Handbook of Collective Responsibility comprehensively addresses questions about who is responsible and how blame or praise should be attributed when human agents act together. Such questions include: Do individuals share responsibility for the outcome or are individuals responsible only for their contribution to the act? Are individuals responsible for actions done by their group even when they don't contribute to the outcome? Can a corporation or institution be held morally responsible apart from the responsibility of its members? The Handbook's 35 chapters, all appearing here for the first time and written by an international team of experts, are organized into four parts: Part I Foundations of Collective Responsibility; Part II Theoretical Issues in Collective Responsibility; Part III Domains of Collective Responsibility; Part IV Applied Issues in Collective Responsibility. Each part begins with a short introduction that provides an overview of issues and debates within that area and a brief summary of its chapters. In addition, a comprehensive index allows readers to better navigate the entirety of the volume's contents. The result is the first major work in the field that serves as an instructional aid for those in advanced undergraduate courses and graduate seminars as well as a reference for scholars interested in learning more about collective responsibility.

Sartre and the Moral Limits of War and Terrorism Jennifer Ang Mei Sze, 2010-01-31 Based on the latest debate on Jean Paul Sartre's works on ethics and politics, this book examines the relevancy and importance Sartre holds for contemporary concerns: the reactionary nature of terrorism, the extremity of counter violence, and limitations of democratization efforts in our post 9/11 era, all claiming the name of freedom and liberation. It presents a different version of the violent Sartre which was presented recently as militant and supportive of terrorism by critics who were concerned with the terrorist nature of his writings. Sartre in this project is reconstructed as a philosopher who although gave importance to the notion of violence in his politics, was actually more concerned with containing violent means within morally excusable limits. He is presented as both a realist who

understood the inevitability of dirty hands in political struggles and also an absolutist against terrorism he considered wars that derailed from their purported ends of freedom as morally condemnable Arguing for the need for moral limitations to all violent struggles and the need for seeing others as ends for themselves this project outlines an existential response needed to help us reaffirm our moral compass through the invention of existential humanist ethics **Sartre's Ethics of**

Engagement T. Storm Heter, 2006-06-23 Jean Paul Sartre was one of the most distinctive and vociferous social critics of the twentieth century As editor of the French post war journal Les Temps Modernes Sartre was able to complement his literary and philosophical views with essays devoted to practical ethical and political issues The post war era was one of the most fruitful exciting and daring periods for Sartre s thinking His published and unpublished works disclose a striking feature of Sartrean existentialism The commonly held view is that existentialism champions radical individualism and disparages community social roles and civic participation This book challenges this received wisdom showing that Sartrean existentialism is in fact a deeply social philosophy T Storm Heter demonstrates the vitality of Sartre s landmark essays What is Literature and Anti Semite and Jew and reveals the importance of the Notebooks for an Ethics a rich and often ignored manuscript containing Sartre s most extensive discussion of ethical and political concepts Drawing on these sources Heter argues that Sartrean authenticity is an ethically and politically important virtue Contrary to popular belief the virtue of authenticity is not a mere codeword for sincerity and personal acceptance Authenticity requires interpersonal recognition and group participation We cannot be authentic in a vacuum for the very dynamic of authenticity requires that others recognize our authentic identities This book not only defends Sartrean ethics against charges of formalism emptiness and extreme subjectivism but also shows that authenticity is an important civic virtue relevant to the social and political institutions of the modern world *Collective Responsibility* Larry May, Stacey Hoffman, 1992-10-27 This anthology presents

the best recent philosophical analyses of moral political and legal responsibility of groups and their members Motivated by reflection on such events as the Holocaust the exploding Ford Pintos the My Lai massacre and apartheid in South Africa the essays consider two important questions What collective efforts could have prevented these large scale social harms And is some group to blame and if so how is blame to be apportioned Contributors The Cambridge History of Moral Philosophy Sacha Golob, Jens Timmermann, 2017-12-31 With fifty four chapters charting the development of moral philosophy in the Western world this volume examines the key thinkers and texts and their influence on the history of moral thought from the pre Socratics to the present day Topics including Epicureanism humanism Jewish and Arabic thought perfectionism pragmatism idealism and intuitionism are all explored as are figures including Aristotle Boethius Spinoza Hobbes Hume Kant Hegel Mill Nietzsche Heidegger Sartre and Rawls as well as numerous key ideas and schools of thought Chapters are written by leading experts in the field drawing on the latest research to offer rigorous analysis of the canonical figures and movements of this branch of philosophy The volume provides a comprehensive yet philosophically advanced resource for

Commonplace Commitments Peter S. Fosl, Michael J. McGandy, Mark D. Moorman, 2016-09-30 Joseph P Fell proposes that the solution to the problem of nihilism is found in the common experience of persons and the everyday commitments that one makes to people practices and institutions In his landmark 1979 book *Heidegger and Sartre* and in his subsequent essays Fell describes a quiet but radical reform in the philosophical tradition that speaks to perennial dilemmas of thought and pressing issues for action Since Descartes at least we have been puzzled as to what we can know how we should act and what we should value The skeptical influence of modern dualism distilled in the mind body problem at arose with the assertion I think therefore I am has shot through not just philosophy and psychology but also society politics and culture With dualism arose radical subjectivism and the concomitant problems of nihilism and alienation The broad aim of phenomenology is to repair the rupture of self and world Announced by Edmund Husserl and developed by Jean Paul Sartre Martin Heidegger and John William Miller who drew from the North American tradition this is the project to which Fell has devoted more than a half century of reflection and technical elaboration In this volume an array of scholars consider criticize and cultivate Fell's key contributions to the phenomenological project Ranging from analyses of key texts in Fell's phenomenology to probing examinations of his crucial philosophical presuppositions to the prospects for Fell's call to find the solution to nihilism in everyday experience these essays gather the work of the authors thinking with and through Fell's key works on Sartre Heidegger and Miller Also included are seminal statements from Fell on his pedagogical practice and his conception of
