An Inventor's Dream Chad Douglas Bulau, 2012-01-11 The fourth truth about the ways of the Pythagoreans and the followers of Pythagoras: Set throughout time with magic and technology, both are at their extremities. One has come full force while the other one is still thinking. Making way to a utopia, the two will become revealed in their own time. The Pythagoreans hold the key to survival. It is up to the element to lay out the endemic duel of adversities throughout the universe as we become privileged in the workings of Our Father, the Deity of mankind.

Giuseppe Campani, "Inventor Romae," an Uncommon Genius Silvio Bedini, 2021-07-05 The ingenious and ambitious Campani brothers, Matteo, Pier Tommaso, and Giuseppe, were at the core of thriving activity of technological and scientific innovation that involved popes, the Sun King, and other rulers of baroque Europe. This posthumous book by Silvio Bedini is the result of a fifty-year-long study that will serve not just as a reference work for scholars interested in seventeenth-century clockmaking, practical optics, astronomy, and science and technology in general, but it also will provide you with unique insights into the scientific and technological landscape of baroque Rome and its links to a broader European scene.
