

## Leadership Self-Assessment

The RNAO Governance and Leadership Self-Assessment is presented as a tool for Chief Nursing Executives (CNEs) and Chief Nursing Officers (CNOs) to use in identifying personal areas of strength and potential areas for growth. It is intended for personal use. The behaviours are derived from the CNE/CNO Governance and Leadership Roles and Responsibilities Framework. Behaviours are grouped by major responsibilities in the framework and are further categorized by governance, leadership, and practice domains of the CNE/CNO role. Although not an exhaustive list, the behaviours are intended to reflect common responsibilities of senior nurse executives in governance positions who are members of the executive-level, decision-making management team.

This tool is designed to assist your self-assessment according to the constructs of competency, confidence, and consistency. Think about your competence (how knowledgeable and skilled you are) in relation to the behavior, your confidence in performing this behavior (how certain you are of your ability), and your consistency in demonstrating this behavior (how often you demonstrate it when it is called for). Please rate your governance knowledge and leadership behaviours using the rating scales below for each of these constructs.

For each behavior, use a 5-point scale to rate yourself as follows:

**Competence** (How knowledgeable and skilled are you in the behaviour?):

1	2	3	4	5
Novice	Advanced Beginner	Competent	Proficient	Expert

**Confidence** (How certain are you of your ability to perform the behaviour?):

1	2	3	4	5
No or low confidence	Somewhat confident	Confident	Very confident	Fully confident

**Consistency** (How often do you demonstrate the behaviour when it's required?):
