Meeting*,1998 *Moungbakou: Production des Connaissances en Sciences* ,2023-04-13 This book addresses the epistemological ethical and methodological challenges faced by African scholars in their research practices The epistemological domain addresses three interrelated topics how African university students ethnocentric choice of research topics hampers the production of knowledge researchers adaptation of their research methods to improve validity and the challenge of knowledge production on community museums plagued by gross inertia irregularities uncooperative gatekeepers and inadequate funding The methodological domain foregrounds issues around scientific rigour the criteria for what counts as quality research and reporting standards Contributors contend that the use of mixed methods provides the best scope for the effective study and evaluation of social issues They also detail how better funded projects tend to improve the respect of ethical standards especially as they pertain to the protection of subjects confidentiality Self financed researchers on the other hand tend to be less compliant a challenge that afflict especially younger and inexperienced researchers This volume thus contributes not only to a critical understanding of the challenges faced by social scientists in contemporary Africa but also the prospects and mechanisms on how to improve knowledge production processes *La muséologie - 6e éd.* André Gob,Noémie Drouquet,2025-06-11 La muséologie la croise de la communication la sociologie l'histoire et la pédagogie s'est imposée en tant que discipline académique et formation professionnelle part entière Cet ouvrage en dresse un panorama complet illustré d'exemples et présente les développements de la gestion des techniques muséographiques les plus récentes ainsi que les fonctions que le musée est appelé à exercer au sein de la société Il souligne la dimension politique de l'institution Pour cette

cinquième édition les auteurs ont souhaité couvrir un large ventail de points de vue en invitant des experts à exprimer travers des cartes blanches regards singuliers sur cette science des musées volontaire et plurielle. En ces temps incertains où la culture est considérée comme facultative et les musées forcés à la fermeture pour des raisons sanitaires, il est plus que jamais essentiel que les acteurs de l'univers muséal développent une vision claire et engagée de leur action et de leurs institutions. Cet ouvrage est là pour y contribuer. Carrefour in Earth Sciences, 1998 **Les Humanités Numériques** Jawhar Jammoissi, coll., 2020-06-25

A travers cet ouvrage scientifique nous recherchons pour poser la question l'évolution des outils et moyens produits par la révolution numérique sur nos formes et pratiques de vie quotidienne la lumière de la nouvelle société en réseau tout en ouvrant la porte une réflexion sur les méthodes et pratiques liées à l'utilisation et au développement des outils numériques dans les sciences humaines sociales et philosophiques. Patrimoine audiovisuel, cinéma, photographie artistique, théâtre musical, marketing et dans les sciences des technologies du design. Il est devenu difficile aujourd'hui de déterminer dans quelle mesure la numérisation affecte l'humanité et de identifier les défis de l'humanité numérique dans notre société actuelle. La question doit être traitée en profondeur sous ses angles divers et interdits sociaux, humain, culturel, philosophique, artistique, technologique, voire juridique et ce sont de nouvelles pistes qui ont tous conduit à dessiner une nouvelle image de l'existence sociale à la lumière numérique. Il est important pour nous dans nos études publiées dans ce livre de paramétriser l'image future de l'homme avec une vision réaliste multidimensionnelle et critique sans tomber dans le piège ni de la peur de l'inconnu et de l'avenir ni de l'imagination du changement et du développement dans une pure fiction qui promet le bien-être et la bonté de l'homme. Nous nous soucions de l'expérience humaine dans son historique et son avenir. Nous craignons que l'Internet, les réseaux sociaux, les technologies informatiques et les normes de données contribuent à donner naissance à une nouvelle expérience humaine en rupture avec son évolution historique. Les questions abordées par les auteurs de ce livre collectif s'articulent autour des huit axes suivants : La question de la transformation des processus de circulation des savoirs, Les systèmes d'information et les enjeux de la numérisation documentaire, L'évolution de l'image numérique à l'époque contemporaine, Les transmutations de l'être social en être numérique, L'heure de la digitalisation impose-t-elle un nouveau régime social, Les apports de la numérisation dans le domaine du design et les pratiques des arts, De quelle manière se dessine le design relié à la nouvelle technologie, Patrimoine et humanité numérique, Une évolution dans la communication, une évolution dans la citoyenneté. L'impact du virtuel sur le social, L'humanité numérique est-elle un simple label ou une nouvelle définition de la société contemporaine. Des universitaires et des spécialistes dans les domaines de la gouvernance de l'Internet, de la cybersécurité, des sciences humaines, des sciences sociales, philosophiques et politiques, du droit de la communication, de la protection des systèmes d'information, des sciences et techniques.
