Privilege at Play Hugo Cerón-Anaya,2019-05-24 While most research on inequality focuses on impoverished communities it often ignores how powerful communities and elites monopolize resources at the top of the social hierarchy In *Privilege at Play* Hugo Ceron Anaya offers an intersectional analysis of Mexican elites to examine the ways affluent groups perpetuate dynamics of domination and subordination Using ethnographic research conducted inside three exclusive golf clubs and in depth interviews with upper middle and upper class golfers as well as working class employees Ceron Anaya focuses on the class racial and gender dynamics that underpin privilege in contemporary Mexico His detailed analysis of social life and the organization of physical space further considers how the legacy of imperialism continues to determine practices of exclusion and how social hierarchies are subtly reproduced through distinctions such as fashion and humor in addition to the traditional indicators of wealth and class Adding another dimension to the complex nature of social exclusion *Privilege at Play* shows how elite social relations and spaces allow for the resource hoarding and monopolization that helps create and maintain poverty
