The story covers his high school years through his returning home from Korea at the age of 20. The novel begins with the run away from home by a very shy 16 year old boy after his completion of the 11th grade of high school. He is a very bright and athletic young man. Even though he is shy he makes many good friends especially his first love. His last year of high school is filled with excitement and successes in sports which lead up to his first date. His life is torn apart when due to the trickery of a mean aunt his life is changed forever. He is on his own again and desperately tries to return to the girl he dearly loves. Situations and circumstances cause him to enlist in the United States Air Force. His basic training in the Air Force is described from beginning to end. After basic training he is assigned to the intelligence service posing as a civilian at a large Ivy League university. Here he has a devastating experience which causes the loss of his virginity. After loss of his virginity he develops a no holds barred attitude caused by many disappointments. The novel describes his stint in Korea and ends with his return home the States after turning the age of 20. This is essential but is a far later phase of genius. Being a genius starts with a feeling of being in contact with the whole universe a feeling of totality being fed by it free of charge and feeding it gratefully in return. In this book the presentation of his life vision and life's work Moreno gives countless portals for the opening of contact with the whole universe to a feeling of totality. This totality is what motivated him and has also motivated the editor for much of his life. The direct felt experience of this totality is at the center of religious existential and spiritual traditions and in this book we have an uncloaked method for the same enlightenment process. The totality and wholeness of life can be found in the enactment of Moreno's method. What can be greater than to really live this and to give it to others. **Love In Cornwall** Alan Potter, 2023-10-13 It was purported that Christopher Hitchens a journalist first used the phrase that everyone has a book in them If that is the case then this is mine Whether it is good or bad is for others to judge This book was written during the first UK lockdown in 2020 as a means of keeping the brain active It quickly led on to a second book not yet published and prompted a third not yet completed It is not a police procedural nor is it autobiographical but stems purely from the author's imagination The book reflects the author's love of Cornwall and is set almost exclusively in that county It also encompasses the love of a newly found sister and the love for and of a newly found lover The theory of Karma suggests that what happens to a person happens because they caused it with their own actions

That sums up the climax of the book
