The Second Battlefield Angela K. Smith, 2000 This book investigates the connection between women's writing about WWI and the development of literary modernisms focusing on issues of gender which remain topical today Drawing on a wealth of unpublished diaries and letters the book examines the way in which the new roles undertaken by women triggered a search for new forms of expression Blending literary criticism and history the book contributes to the scholarship of women and expands our definition of modernisms

The Second Battlefield Angela K. Smith, 2000 Explores written representations of First World War experience produced by a variety of different women Drawing on a wealth of unpublished material in the form of diaries and letters the book examines the way in which the variety of new roles undertaken by women triggered a search conscious or otherwise for appropriate new forms of expression Through the twin approaches of literary criticism and historical exploration the book contributes an important new strand to the scholarship of women and war Expands current notions of how modernisms should be defined This volume compliments Angela K Smith's 1999 publication *Women's writing of the First World War* An anthology MUP

World War I and Southern Modernism David A. Davis, 2017-11-27 Winner of the 2018 Eudora Welty Prize When the United States entered World War I parts of the country had developed industries urban cultures and democratic political systems but the South lagged behind remaining an impoverished agriculture region Despite New South boosterism the culture of the early twentieth century South was comparatively artistically arid Yet southern writers dominated the literary marketplace by the 1920s and 1930s World War I brought southerners into contact with modernity before the South fully modernized This shortfall created an inherent tension between the region's existing agricultural social structure and the processes of modernization leading to distal modernism a form of writing that combines elements of modernism to depict non modern social structures Critics have struggled to formulate explanations for the eruption of modern southern literature sometimes called the Southern Renaissance Pinpointing World War I as the catalyst David A Davis argues southern modernism was not a self generating outburst of writing but a response to the disruptions modernity generated in the region In *World War I and Southern Modernism* Davis examines dozens of works of literature by writers including William Faulkner Ellen Glasgow and Claude McKay that depict the South during the war Topics explored in the book include contact between the North and the South southerners who served in combat and the developing southern economy Davis also provides a new lens for this argument taking a closer look at African Americans in the military and changing gender roles

The Short Story and the First World War Ann-Marie Einhaus, 2013-07-31 The poetry of the First World War has come to dominate our understanding of its literature while genres such as the short story which are just as vital to the literary heritage of the era have largely been neglected In this study Ann Marie Einhaus challenges deeply embedded cultural conceptions about the literature of the First World War using a corpus of several hundred short stories that until now have not undergone any systematic critical analysis From early wartime

stories to late twentieth century narratives and spanning a wide spectrum of literary styles and movements Einhaus's work reveals a range of responses to the war through fiction from pacifism to militarism Going beyond the household names of Owen Sassoon and Graves Einhaus offers scholars and students unprecedented access to new frontiers in twentieth century literary studies

Landscapes and Voices of the Great War Angela K. Smith, Krista Cowman, 2017-02-03 This volume aims to provide a wider view of First World War experience through focusing on landscapes less commonly considered in historiography and on voices that have remained on the margins of popular understanding of the war The landscape of the western front was captured during the conflict in many different ways in photographs paintings and print The most commonly replicated voicing of contemporary attitudes towards the war is that of initial enthusiasm giving way to disillusionment and a sense of overwhelming futility Investigations of the many components of war experience drawn from social and cultural history have looked to landscapes and voices beyond the frontline as a means of foregrounding different perspectives on the war Not all of the voices presented here opposed the war and not all of the landscapes were comprised of trenches or flanked by barbed wire Collectively they combine to offer further fresh insights into the multiplicity of war experience an alternate space to the familiar tropes of mud and mayhem

Handbook of British Literature and Culture of the First World War Ralf Schneider, Jane Potter, 2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re-creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War

Writing disenchantment Andrew Frayn, 2015-11-01 It has become axiomatic that First World War literature was disenchanting and returning combatants were unable to process or communicate that experience In *Writing disenchantment* Andrew Frayn argues that this was not just about the war non-combatants were just as disenchanting as those who fought and writers such as D H Lawrence and Virginia Woolf produced some of the sharpest criticisms Its language already existed in contemporary sociological and historical accounts of the problems of mass culture and the modern city whose structures contained the conflict and were strengthened during it Archival material sales data and reviews are used to chart disenchantment in a wide range of early twentieth century war literature from novels about fears of invasion and pacifism through the modernist novels of the 1920s to its dominance in the
