Chinese Theology Chloë Starr, 2016-11-22. This major new study examines the history of Chinese theologies as they have navigated dynastic change, anti-imperialism and the heights of Maoist propaganda. In this groundbreaking and authoritative study, Chloë Starr explores key writings of Chinese Christian intellectuals from philosophical dialogues of the late imperial era to sermons and micro blogs of theological educators and pastors in the twenty-first century. Through a series of close textual readings, she sheds new light on the fraught issues of Chinese Christian identity and the evolving question of how Christianity should relate to Chinese society.

Superpower? Raghav Bahl, 2010-10-28. Is India ready for superpower status or too far behind China to ever catch up? In his career as one of India's leading journalists and entrepreneurs, Raghav Bahl has often faced this question and many others from bewildered visitors. Why are Indian regulations so weak and confusing? Why is your foreign investment policy so restrictive? How come your hotels are world class but the roads leading to them are so potholed? Why don't you lower your voice when you make fun of your politicians? Why do you control the price of oil and cable TV? Clearly, there's a huge difference in how India and its arch-rival China work on the ground. China is spectacularly effective in building infrastructure and is now reinvesting almost half its GDP. Meanwhile, India is still a promising economy; more than half its GDP is consumed by its billion-plus people, yet India has some unique advantages. Half its population is under twenty-five, giving it a strong demographic edge. 350 million Indians understand English, making it the largest English-speaking country in the world, and it's the world's largest democracy. In the race to superpower status, who is more likely to win: China's hare or India's tortoise? Bahl argues that the winner might not be determined by who is investing more and growing faster today, but by something more intangible: who has superior innovative skills and more entrepreneurial savvy. He notes that China and India were both quick to recover from the financial crisis, but China's rebound was accompanied by huge debt and deflation with weak demand. India's turnaround was sturdier, with lower debt and modest inflation. So India's GDP grew twice as fast as China's for a few quarters, the first time that had happened in nearly three decades. And in contrast to China's Yuan, which is pummeled for being artificially undervalued, India's rupee largely floats against world currencies. In the end, it might come down to one deciding factor: can India fix its governance before China repairs its politics? With insights into the two countries' histories, politics, economies, and cultures, this is a well-written, fully documented, comprehensive account of the race to become the next global superpower. For anyone looking to understand China, India, and the future of the world economy, this is the book to read.

Cambodia's China Strategy Chanborey Cheunboran, 2021-06-21. This book explores the tensions within Cambodia's foreign policy between a tight alignment with China on the one hand and Cambodia's commitment to the Association of the Southeast Asian Nations (ASEAN)

as well as its delicate foreign policy diversification towards other major powers on the other hand It traces the long history of Cambodia's quest for survival from its bigger and historically antagonistic neighbours the Thai and the Vietnamese and its struggle for security and independence from the two neighbours and external major powers particularly the United States and China It discusses Cambodia's geopolitical predicaments deriving from its location of being sandwiched between powerful neighbours and limited strategic options available for the Kingdom The book also assesses recent developments in Cambodia's relations with its neighbours and their implications for Cambodia's increasingly tight alignment with China in recent years It considers the extent to which the ruling regime in Cambodia depends on strong relations with China for its legitimacy and survival and argues that there are risks and danger for Cambodia in moving towards an increasingly tight alignment with China

The China-India Rivalry in the Globalization Era T.V. Paul, 2018-09-03 As the aspirations of the two rising Asian powers collide the China India rivalry is likely to shape twenty first century international politics in the region and far beyond This volume by T V Paul and an international group of leading scholars examines whether the rivalry between the two countries that began in the 1950s will intensify or dissipate in the twenty first century The China India relationship is important to analyze because past experience has shown that when two rising great powers share a border the relationship is volatile and potentially dangerous India and China s relationship faces a number of challenges including multiple border disputes that periodically flare up division over the status of Tibet and the Dalai Lama the strategic challenge to India posed by China s close relationship with Pakistan the Chinese navy s greater presence in the Indian Ocean and the two states competition for natural resources Despite these irritants however both countries agree on issues such as global financial reforms and climate change and have much to gain from increasing trade and investment so there are reasons for optimism as well as pessimism The contributors to this volume answer the following questions What explains the peculiar contours of this rivalry What influence does accelerated globalization especially increased trade and investment have on this rivalry What impact do US China competition and China s expanding navy have on this rivalry Under what conditions will it escalate or end The China India Rivalry in the Globalization Era will be of great interest to students scholars and policymakers concerned with Indian and Chinese foreign policy and Asian security *Desire and Fictional Narrative in Late Imperial China* Martin W.

Huang, 2020-03-23 In this new study of desire in Late Imperial China Martin Huang argues that the development of traditional Chinese fiction as a narrative genre was closely related to changes in conceptions of the fundamental nature of desire He further suggests that the rise of vernacular fiction during the late Ming dynasty should be studied in the context of contemporary debates on desire along with the new and complex views that emerged from those debates *Desire and Fictional Narrative in Late Imperial China* shows that the obsession of authors with individual desire is an essential quality that defines traditional Chinese fiction as a narrative genre Thus the maturation of the genre can best be appreciated in terms of its increasingly sophisticated exploration of the phenomenon of desire CTET Paper-II Exam : Science & Mathematics | 7 Mock Tests + 3 Previous Year Papers (1500+ Solved Questions) EduGorilla Prep Experts, 2022-09-15 Best
